

TRP Works

Shit works. My girl is all into me now. Just the concept of ignoring alone can drive them crazy.

Keeping it short, maybe not 100% of what you read here is right for your situation 100% of the time but the core tenets fuckin' work.

And read the art of manliness too. Improve yourself, I think that's more important than trying to endlessly spin plates. Women will pickup on your attractiveness as a man.
