

Wife asked about using a rabbit vibrator.

February 4, 2020 | 10 upvotes | by [MassiveLeftist](#)

This has me perplexed. I find a vibrator kinky, but I am torn.

What is other men's experience with Vibrators within marriage ?

As rolo said, don't believe shit you read about women articles, as it is some nasty women writing to encourage something bad.... and I read nothing but positive articles.

Story: My wife have a very low libido, she never masturbates and is pretty open and honest about that and general.

I have been discretely pushing ways to increase her sex drive.

Likewise, I have been trying to discover her gspot. She has never squirted, and is uncomfortable with the sensation of her gspot.

I told her we need to do it every other day, and she agreed.

I told her I read masturbation for women can increase female libido.

When he have sex, she always climaxes, but through clitoral stimulation.

When I finger the G, or use dick on the g, she doesn't like it.

So today she mentioned a vibrator, specifically a rabbit. I checked it out, it looks fun, but wow does that take a hit to my manhood. Makes men look replaceable.

So my questions:

1. Should I say yes to this vibrator?
2. Can it help her discover pleasure from her gspot?
3. Is their marital problems where the prefer a vibrator, secretly use it, and decrease intercourse ?

My wife have a very low libido

All I needed to know.

This has everything to do with you and how unattractive and insecure you are, and nothing to do with a vibrator. Sidebar.

Cam_Winston21 • 9 points • 4 February, 2020 02:23 PM

Stood out to me, as well.

Plus:

When he have sex, she always climaxes, but through clitoral stimulation.

My man, read up on some David Shade stuff. Your wife has a low libido because you/her are doing *one and only one thing* to get her off.

The day I introduced my wife to a vaginal wall orgasm via the "spiderman method" followed by another orgasm on the rear vaginal wall via the "reverse come hither method", she begged to empty my ball sack into her mouth instead of having sex because her nerve endings were too tender & engorged.

You're being lazy, come on, clitoral climaxes are for quickies.

HornsOfApathy • 11 points • 4 February, 2020 02:28 PM

While other types of orgasms are great and add variety, clitoral only orgasms are not a direct correlation to low libido or lack of variety. Plenty of fun and variety to be had there.

Just stating the obvious for some autists here that are planning on going all crazy with 10 fingers and an air compressor spreading her like the Grand Canyon in hopes of being great in bed and eliciting desire.

Cam_Winston21 • 4 points • 4 February, 2020 02:55 PM

Fair points.

Plenty of fun and variety to be had there.

His wife ain't cumming via the variety to be had, per his post.

Just saying, if the only way my wife made me cum was was jacking me off (aka, "hurry up and get it over with"), I'd still be interested but certainly not as much as I am with all the other options on the table. Plus, after several days, my dick would get sore. Anecdotal, but after two days in a row of clit-stim, my wife is usually not down for day 3 due to tenderness.

primordialawe • 1 point • 6 February, 2020 01:40 PM

What's the Spider-Man method? I found something online for reverse come hither (which looks like come hither but upside down and uses the knuckles?), but not that one.

Cam_Winston21 • 1 point • 6 February, 2020 02:23 PM

Come hither with both the ring & middle fingers, like Spider-Man shooting his web. More area to rub

the vaginal wall.

My wife have a very low libido

/thread

Women only have low libido's for shitty men. Then they're like horny teenagers for Chad's cock.

hack3ge • 4 points • 4 February, 2020 07:02 PM

My wife actually wants sex more than I do now - thank god someone invented cialis because I'm not sure I could keep up otherwise.

HornsOfApathy • 3 points • 4 February, 2020 10:20 PM

My, how the tables have turned? Makes two of us. 5mg daily, because it's a gift to a woman who adds great value. Woman gets so sad if it's more than 24 hrs.

Tyred_Biggums • 8 points • 5 February, 2020 12:03 AM

You guys and your duty sex.

HornsOfApathy • 1 point • 5 February, 2020 12:10 AM

Well, I like enchiladas and she makes some good ones.

hack3ge • 1 point • 5 February, 2020 01:03 PM

Haha touché - I know what duty sex is and I now know from gym chick what it's like when a woman just has to have your cock - the wife's somewhere in the middle. Seems reasonable after being together for 15+ years.

It's different - I've determined it's neither better nor worse just different.

hack3ge • 1 point • 5 February, 2020 01:24 PM

It's because it's validation sex for them - good for a woman, not good for a man.

It's quite an interesting reversal of the dynamic. Her sole means of feeling comfort in the relationship is from sex now - go figure.

part_wolf • 2 points • 4 February, 2020 03:29 PM

It **has** to be someone else's fault; otherwise it's his fault and we can't have that now, can we?

HornsOfApathy • 2 points • 4 February, 2020 03:59 PM

Sounds awfully familiar to the way women and faggots think, doesn't it?

BobbyPeru • 2 points • 4 February, 2020 09:20 PM

/u/HornsOfApathy - On fire - in the zone.

hack3ge • 29 points • 4 February, 2020 12:51 PM

You give too many fucks faggot.

When I first started my wife had never even touched herself, hated the idea of toys and actually threw one out

that I bought.

I was a giant faggot and now that I'm not guess what - she loves all that shit. She jammed a stick up dildo on the shower glass when she was away on business and sent me the video. She loves the butt plugs I got her (thanks /u/red-sfpplus for that recommendation) and will come to bed wearing them. She also plays with herself while she sucks my cock.

A dildo isn't going to make your wife want to fuck you - not being a faggot will do that.

JoeBuckYourself • 7 points • 4 February, 2020 04:05 PM

OP's new flair, "Cucked by The Rabbit"

TimeToDigDown • 1 point • 5 February, 2020 02:46 AM

Butt plugs and Shibari are Fucking Awesome. Lot more fun to be had once we loosened the fuck up.

hack3ge • 1 point • 5 February, 2020 01:07 PM

I haven't gotten into the ropes yet seems complicated - we have a pair of silicone handcuffs that she likes.

I like to throw stuff out and see what sticks - there were some things I thought I'd be into but wasn't.

TimeToDigDown • 1 point • 6 February, 2020 02:12 PM

Ropes are easy. But practice before you implement so you're not left holding your cock. If you both like it, it's going to be a lot of fun. Be fun.

part_wolf • 12 points • 4 February, 2020 10:55 AM

What, are you worried that the vibrator is a gateway drug to swallowing Chad's cock? Sounds like a massive lack of abundance with a side of oneitis to me.

MassiveLeftist • -6 points • 4 February, 2020 11:44 AM

Possibly all of the above. I have decent leadership and frame right now.

This level of kink is new, and grey to me.

ImNotSlash • 17 points • 4 February, 2020 11:50 AM

The fuck you do. You're insecure over a piece of plastic.

part_wolf • 10 points • 4 February, 2020 02:03 PM

Cucked by machines 2.0

part_wolf • 7 points • 4 February, 2020 01:36 PM

Let's entertain your absolute worst case scenario for a moment.

This new sex toy unlocks your wife's sex drive and she realizes that she actually loves sex. Your sex life improves for a while, until at some point you notice that a much more attractive guy has captured her attention. Your insecurities prompt you to mate guard and do a bunch of other unattractive stuff and it turns her off, creating distance and making you more frustrated. Eventually there's an emotional or even a physical affair and the wheels fall off of your relationship.

If any of that happens, your problem was never the vibrator in the first place.

Best case scenario, she busts a nut.

DuffBude • 8 points • 4 February, 2020 11:33 AM

Do you really think that a vibrator is the solution to your wife's low sex drive? Are you 100% positive that it has nothing to do with you? It sounds to me like a band-aid for a larger problem

MassiveLeftist • -2 points • 4 February, 2020 11:46 AM

No, not a solution, I am trying to explore our interests. She mentioned thia... at first... cool? Then reflecting.... what are long term effects.

DuffBude • 3 points • 4 February, 2020 11:50 AM

Again, why does she have a low sex drive? It could have something to do with you. Have you read the sidebar?

nantucketghost • 8 points • 4 February, 2020 01:07 PM

Shit man, say yes. Surprised you haven't bought her one yet. My wife has had one for ages. I bought it for her. She will use it to get herself off while sucking me off, or every now and then while I'm in her. I'll get her all worked up and tell her to get her vibrator that way when I'm in her she gets off real damn quick.

We had a rabbit a while back and she enjoyed it, but it didn't last long. She would rather have me in her while using her toy.

So get the rabbit, but get a nice simple vibrator also, you'll find a lot more use for that.

When she's orgasming with you, she'll correlate you with those good feelings. Sex is fun. Go have some fun with it all. You're overthinking this.

teabagabeartrap • 5 points • 4 February, 2020 10:45 AM

My cents to this:

men: the less we do it, the more we want it

women: the more they do it, the more they want it

if you got clear boundaries, I would encourage the use.

Maybe.. tell her about the "we vibe" and do it together.

InChargeMan • 4 points • 4 February, 2020 02:37 PM

Mods, can we give two users the "cucked by machines" flair?

SoggyTrain • 8 points • 4 February, 2020 04:01 PM

Fuck off that is MY flair.

InChargeMan • 3 points • 4 February, 2020 05:40 PM

No worries, OP is now a better version of you.

SoggyTrain • 2 points • 4 February, 2020 05:55 PM

Probably.

WolfofAllStreetz • 3 points • 5 February, 2020 02:20 AM

Damn OG cucked by machines made an appearance.

Rogue68486 • 3 points • 4 February, 2020 03:04 PM

Vibrator should enhance your relationship. If you're worried about being replaced. That's a different problem.

IOwnMyShit • 3 points • 4 February, 2020 03:52 PM

I'm sorry for your loss. Mr. Rabbit will take it from here.

BlackFire68 • 3 points • 4 February, 2020 04:37 PM

Cracks me up when men are worried about their women masturbating like they haven't been every second day since age 13

RicoDunne • 2 points • 4 February, 2020 03:06 PM

you must be a troll.... "massiveleftist" is your name and then proceed to ask about vibrator insecurity.

EasyDaysHardNights • 2 points • 4 February, 2020 04:38 PM

Makes men look replaceable

Don't fear the toy, be Chad.

... just doesn't have the same ring to it.

RoccoPinkman • 2 points • 4 February, 2020 04:51 PM

Love the flair.

fannyfire • 2 points • 4 February, 2020 05:12 PM

She doesn't have a low libido you dunce. She wants a vibrator but has a low libido. Say that to yourself out loud. She wants to be sexually stimulated but not by you.

Do you get it?

You don't give her the feels. She is resorting to a toy because she can't get it from you. This is all on you. It's not her libido. If her libido was the issue she wouldn't be asking for a vibrator. You are going to be cucked by a machine because you're too lazy to put in the work to be an attractive male.

HeckleandChide • 2 points • 4 February, 2020 10:33 PM

Ok, I'm secretly convinced that u/red-sfpplus gets bored, makes new accounts, and trolls the fuck out of us sometimes.

red-sfpplus • 2 points • 4 February, 2020 10:36 PM

To busy fucking your girl.

HeckleandChide • 1 point • 4 February, 2020 10:40 PM

HornsOfApathy[M] • 4 points • 4 February, 2020 04:01 PM

Wish granted. Flair awarded.

1. Should I say yes to this vibrator?

Yes.

1. Can it help her discover pleasure from her gspot?

Yes.

1. Is their marital problems where the prefer a vibrator, secretly use it, and decrease intercourse ?

Yes, when partners are selfish and do not return the pleasure.

She has never squirted, and is uncomfortable with the sensation of her gspot.

not all women squirt.

but wow does that take a hit to my manhood. Makes men look replaceable.

let her buy it, I guarantee you will like it.

ChokingDownRP • 5 points • 4 February, 2020 11:52 AM

I guarantee you will like it.

You're right not all women squirt. We all CAN squirt, in that we all have the physiological ability to do so. We just don't all have partners patient enough and confident enough to make it happen. □

entrep4 • 1 point • 4 February, 2020 05:41 PM

How can you be married to someone and not even know where their G spot is? Do you guys even have sex?

MassiveInsecureLefty...Are you able to relax when she pushes that vibrator into your tender ass?

MassiveLeftist • 3 points • 5 February, 2020 09:42 AM

Only with warming lube

[deleted] • 1 point • 6 February, 2020 04:35 AM

My wife and I love to use toys in our sex life now and again. However, it isn't the toy that turns her on, it's the anticipation of sex with me that gets her hot. Sidebar and lift.... game her... be attractive. Build the anticipation. A woman's imagination is one of the best "toys" you can use. Start there. Have fun with her.

MassiveLeftist • 1 point • 6 February, 2020 09:01 AM

I think this ended up the plan.

Side bar and lift.

The game is missing, and I am starting to understand.

UsefulWalk4 • 1 point • 7 February, 2020 03:58 PM

My wife have a very low libido

So today she mentioned a vibrator, specifically a rabbit.

Something doesn't add up here?

Makes ~~men~~ me look replaceable.

Now may be you get it.

Couldn't find your OYS posts, only your r/Deadbedrooms stuff, so it's hard to comment what specific type of problems you have.

UsefulWalk4 • 1 point • 9 February, 2020 09:15 PM

No start your OYS on Tuesday. This week! STFU is for your wife. You need to start an OYS to straighten out whatever is messed up in you head, which is probably quite a bit. Putting up ask/MRP posts about vibrators probably isn't going to solve your issues.
