By the age of 35, the average American/Western female has:

Sucked on at least 35 cocks.

Made out with at least 150+ men.

Had sex with at least 50 men; 20 Chad's, 10 Tyrone's, 5 RayRays/Pookie [Tyrone's feral, felon cousin], 5 Chang Thunderwangs, 5 Vijays, and 5 Ramons... Pretty much the UN.

Swallowed cumshots from Vijay at the nightclub.

Had at least one abortion.

Banged at least one ACK'med while on her trip to Dubai [Aloooha Snackubar!].

Had at least one STD.

But hey, she's still a catch!

Who would be considered a Vijay and Ramon? Never heard those slang names used before.

Vijay is a Brown Alpha-male. Usually Indian/Bengali/Paki. They make six figures, have slicked back hair, travel a lot, very well educated, 5'10 and above, great shape. Vijays usually don't take no for an answer and WILL only go for the hottest females in sight. They can be found on most college campuses or big social gathers. Oh, they drive only the most expensive cars.

Ramon = alpha latin male. Not usually as well put together as a Vijay. Closer to a 'Tyrone'.

Hope that helps!

Is that more common in the UK or something? I've never heard of any Indians or Pakistanis where I live in America.

Also, Dubai is full of expatriate workers. 85% of everyone there is an expatriate from India or Pakistan or Europe or wherever else. It would be hard to find a real Arab guy there, that the girl finds attractive. In reality, Dubai probably has more Vijays than ACK'meds.

I live in NYC. There are a lot of Brown people in the NY/NJ/CT [tri-state] area. The Brown guys, the Vijays are the ones with game. They go out on weekends and make it a point to pick up the hottest females they can find. They operate in groups of 5. Trust me, I've seen it in person.

There are a lot of Instagram THOTS that travel to Dubai/the Middle East to bang ACK'med. The rich ACK'meds with nice cars and plenty of cash. They let ACK'med literally piss and sh\*t on them for cash.

I go to NYC all the time, and I don't remember ever seeing any Vijays. Is there some type of secret Indian or Pakistani or Bengali community that I don't know about, or are they localized into a certain neighborhood? I've never seen any group of 5 Vijays randomly trying to pickup
