

How to continue after The Talk

0 upvotes | 17 March, 2020 | by RPOpenUp

Hi,

I just handled the talk with a plate of mine.

She asked what we are and what I wanted to achieve with this. Asked me if I had feelings.

I responded with the standard The Talk answers, like we have fun and I think that's important now. and she responded with that she doesn't know if this is going to work out. To which I responded that I thought we both were having fun but I'd be sorry if she doesn't see a future in the current conversation. I think I handled it well since she responded with that she doesn't want to end it and she does have fun but she's not sure if this is enough(ofc she knows this isn't enough)

Now my question is. How to proceed from here? Ignore?

Respond with ok? Or just setup a future meeting and act like nothgin happened?

Thanks

So you are basically being a robot.

The Walking-Sex-Toy initiates "The Talk",...beep, beep

The official doctrine says I am supposed to respond with the Standard Talk Answers (STA's),... beep, beep.

The Walking-Sex-Toy gives an invalid response,...error, error, beep beep

Turns out the Walking-sex-toy is human and can think and decide for herself what she wants or doesn't want.

Don't worry about what to do. If she wants to tolerate you longer she will,...or she will dump you,...problem solved. Probably over 75% of "situations" are ended by the woman anyway,...so she will take care of it.

Where's the red pill mindset?

"If she wants to tolerate you longer she will"

Where's your fram mate? Apparently you think I should act in her frame...

Also "decide for herself what she wants and doesn't want" LMAO

Apparently she's not so sure what she wants. So she can NOT think and DECIDE for herself. and yes call the talk whatever the fuck you want. but as long as it works i'm sticking to it. there's a reason why nearly 90% of solutions are in the sidebar, it's because it's WORKS.

Rant over

A huge part of RP is in understanding the woman's thinking (*Rollo's 2nd book*) and having yourself in the right position to deal with it the way you want (in your "frame" if you want to use the term). In this case it isn't complicated. She wants exclusivity. You either do or you don't,...sounds like you don't. She says she will stay (for now) but it may not last much longer. So **you** decide if that uncertainty is good enough for you or not, that is **your** frame. If you can't decide, then my point is that she eventually will decide with **her** frame. But you aren't going to be able manipulate her decision long tern,...as you know,...*you can't negotiate desire*. From what you said this put a dent in her desire. Her frame still exists, it doesn't go away, so if she doesn't like what she is getting in your frame she will move out of it, move into hers, and be gone.
