

All Red Pill Sidebar In One PDF

August 17, 2015 | 1084 upvotes | by [_aroo](#)

After the whole week of staying up late, working late in the night, battling with formatting hell and typos, I have finally finished compiling all the information from the sidebar into one e-book.

Like every new user, I was too, guilty of procrastinating and not studying the sidebar material. One of the things that turned me off was that the sidebar material was all over the place: different blogs, websites, fonts, color schemes (I took care of that now by making this e-book). I just couldn't concentrate. The length of the posts didn't help too.

But the way I see it now, you have nothing to do here, if you are not prepared to sit, read and study the sidebar. If you're not prepared to read hundreds of pages of eye-opening material - your loss.

There has been big drop in the quality of the posts (this is throw-away account, I've been here for a year or so) lately. What I would suggest to everyone is to sit and start reading the sidebar again (or especially for the first time!). Sometimes you just need to return back to the basics. It's a really long read, but it's also worth it! After all, this is the best red pill knowledge that is out there and you may read just the sidebar and nothing else ever again on this sub, if you want.

So, click on the link. Download the sidebar and start reading it, I've done my job.

Nice effort. I've rehosted it here so it doesn't disappear one day:

Maybe I'm not the right person to say this, but your work is greatly appreciated by the community. People like you keep TRP growing, thanks so much bro.

Thank you, appreciate it.

This should be stickied and added to the sidebar. Thank you. This will be very useful in the future.

This should be stickied and added to the sidebar.

Once we add it to the sidebar, he's going to need to update the pdf with the new sidebar content. It gets a little hairy after that point.

edit: just making a recursion joke

Praecipuus • 3 points • 17 August, 2015 04:02 PM

Awesome work man! The only thing I miss is table of content at the beginning.

_aroo[S] • 17 points • 17 August, 2015 01:05 PM*

I will listen to your suggestion. It will be included in the next version. If someone finds any mistakes (there may be some, because I was usually working late in the night/early in the morning on this) please report them to me and I will update everything.

Also, I'm not the best designer, so if anyone wants to design a new cover for the book, feel free to post your suggestions. If people like your cover, I will include it in the next version.

MisterMojoMan • 6 points • 18 August, 2015 05:11 AM

Hey man I saw your reply and I'm a graphic design major as a senior in college, so I figured I would make you a design real quick. This is just a preview just so you can see the graphic. If you want to use it, I can adjust the dimensions to make it the size of the cover and send you the file. I can also help you with other parts of the design in the book as well if you need me to. Thanks again for putting together the sidebar info. Cheers.

_aroo[S] • 3 points • 18 August, 2015 06:44 AM

It's great, thanks. I will contact you when I'm doing the next version.

[deleted] • 138 points • 17 August, 2015 12:31 PM

Not to sound ungrateful but any chance of a mobi or epub version as well? Alot more convinient format for any of us who prefer to read off a kindle etc

_aroo[S] • 145 points • 17 August, 2015 01:06 PM*

I can do it if there is enough interest. Upvote his comment if you want e-pub and mobi versions.

EDIT: I have updated the post. EPUB and MOBI links now included. Formatting is pretty shitty but I can't do better.

breakingbadrule • 12 points • 17 August, 2015 03:52 PM [recovered]

Again not to be ungrateful, but is all the content same as The Red Pill Handbook. Or something more has been added?

And good stuff. Much appreciated.

dr_warlock • 17 points • 17 August, 2015 04:02 PM [recovered]

I believe the red pill handbook is only archived TRP posts. The sidebar includes a lot of non-reddit material.

fr0i • 1 point • 17 August, 2015 04:54 PM

What do you use to convert it to epub and mobi?

[deleted] • 3 points • 17 August, 2015 07:05 PM

<https://infotomb.com/3gwbh.epub>

Did a bit of dabbling and made an epub with decent formatting, though has some odd page breaks and page numbers are in random places on the page. Could be done better at your end exporting to a more convenient file type from whatever program you used to make the PDF and then converting it I'd

imagine.

GuruDev1000 • 3 points • 17 August, 2015 05:13 PM

You're right, the formatting is fucked up for epub.

How did you make the PDF? If in Indesign, then it has an epub export feature

GLOOTS_OF_PEACE • 2 points • 18 August, 2015 05:56 AM

sweet now how about an audio version aye? I'd like to listen to this on my drive to work. get michelle obama to narrate it.

Reastruth • 1 point • 18 August, 2015 04:59 AM

This should be on the sidebar. Thanks for this.

destraht • 1 point • 18 August, 2015 02:04 PM

In the absence of retail quality formatting I think that the best way to create an epub is to simply copy all of the text straight into Libreoffice and to then export that to PDF. Then there is Calibre for creating epub's from that and it won't include all of the page numbering as if was content.

triumphman84 • 14 points • 17 August, 2015 12:45 PM

download a calibre and do it yourself.

drussinator • 6 points • 17 August, 2015 01:31 PM

The proper spelling is Calibre, calibre is the california bureau of real estate, wouldn't want to point him in the wrong direction now do we ;)

JoeModz • 49 points • 17 August, 2015 01:49 PM

Instructions unclear, now California Real Estate mogul.

kireol • 8 points • 17 August, 2015 04:53 PM

You wouldn't download a bureau of real estate would you?

kris33 • 0 points • 17 August, 2015 02:27 PM

A "native" epub/mobi version is usually way better than a converted one. Auto-converted files often have weird stuff like page numbers in the middle of the text, which makes sense considering how auto-conversion works.

_arool[S] • 5 points • 17 August, 2015 03:14 PM

True, but I don't have time to make MOBI file from scratch. I've deleted page numbers for MOBI film, but formatting is still far from perfect. Does the job for those who want to read tho.

iDontKnowMyself • 1 point • 17 August, 2015 09:03 PM

You can send PDFs to your kindle..

IanIronwood • 20 points • 17 August, 2015 01:16 PM

Outstanding work. Seriously, this could be a major development. Copyright is a tricky thing, but as you are the editor, what is your position regarding this work? I'd love to see it freely distributed far and wide. Perhaps with a

way to send it anonymously via email.

Consider, gentlemen, what would happen if the entire male freshman class at any given university was gifted this pdf? If only 10% of them read it and went RP, that could be . . . very interesting.

Comments? Suggestions?

redpillschool • 11 points • 17 August, 2015 01:24 PM

One of my major life changing moments was finding a discarded Paul Graham essay in the recycling bin of a computer lab at 2am. Gave me the perspective that there are other non-dead-end career paths out there.

I'm certain this type of material would be life changing as well, especially in engineering departments :)

VirgilMastercard • 4 points • 17 August, 2015 04:51 PM

What's the name of the essay?

S74RK • 13 points • 17 August, 2015 05:22 PM

"How to Start a Startup"

<http://www.paulgraham.com/start.html>

Someone had printed half of it, threw it out. I googled some phrases in the essay, found the links, and completely changed my career path ever since. I would also recommend:

<http://www.paulgraham.com/love.html>

member_of_adhd • 3 points • 17 August, 2015 08:20 PM

Im curious, what did you change your career to/from? Don't need to be specific if you don't want.

S74RK • 11 points • 17 August, 2015 09:18 PM

Instead of planning a slow, steady, and ultimately boring rise up the ranks of a large tech corporation (to what, being a higher level BB? I've never been very materialistic), I started living cheaply and saving "runway" so I could strike out on my own. This type of work, where my future depends completely on my skills and leadership, is what really engages my brain I find.

I've gone through several cycles of the following: I work the conventional engineering jobs when I need to save up, then inevitably quit and try starting a company. Resume is starting to get fairly fragmented, but this is mattering less and less. Skills and portfolios have started to speak for themselves.

What's really important is that I've found a way to practice mastery in entrepreneurship by keeping my living expenses low: hello bunk beds + AirBnB, though this forces me to be creative logistically with plates. There was a study somewhere stating that many top entrepreneurs have incredible safety nets (wealthy parents) and can easily try and fail a

bunch of times, explaining their eventual success. I don't have that, but I can approximate it and make up the difference with extra drive.

member_of_adhd • 2 points • 18 August, 2015 12:02 AM

interesting, I gotta say you sound like you've got drive. Good luck!

IanIronwood • 3 points • 17 August, 2015 01:28 PM

Not so certain. It's obscure enough to make it tantalizing. The sort of thing you start urban legends about. If he decides to expand it beyond the immediate sidebar, perhaps The Red Pill Player's Handbook?

redpillschool • 1 point • 17 August, 2015 01:30 PM

I think "red pill" has enough stigma that people would find and throw them away. I like mystery.. RP Player's Handbook, or "the book of men"

[deleted] • 7 points • 17 August, 2015 02:47 PM

On a college campus, in women's studies circles, it's gaining traction. I've witnessed it first hand!

redpillschool • 6 points • 17 August, 2015 08:17 PM **[recovered]**

Well a lot of college students are well aware that there's a men's rights movement, and they loosely associate them with the phrase red-pillar but I'm not sure if they're aware that it's referring to a subreddit (or if they all even know what reddit is..)

I had gone on a date with a women's studies major and she hadn't heard of redpillschool (which i'm disappointed about) but she had heard of the red pill. She went on and on about how refreshing it was to go on a date with a guy who was nothing like that.

_aroo[S] • 3 points • 17 August, 2015 01:29 PM

I'm fine with everything you've suggested, but you would really need to ask people that have actually contributed to the content of the sidebar.

All the bloggers, posters, authors (it would be hard to get permission from authors of the books that want to earn money), contributors and so on.

In terms of content I'm no one.

IanIronwood • 2 points • 17 August, 2015 01:33 PM

Perhaps direct links to their Amazon/other paid outlets as compensation? Rollo, any comment?

trpftw • 1 point • 17 August, 2015 08:15 PM

Also I wouldn't share it with young adults and freshmen. That's quite a silly idea. They have so much to learn before RP. They have so much to improve about themselves before they even start getting a lot of girls. Many will have trouble understanding it if they never experienced anything. Finally, what happens when everyone is RP, women will adapt, competition will get fierce, and we will have to rewrite a lot of the original concepts as things evolve. No longer will much of RP philosophy be effective if the top 80% of men today become as good as the top 20% of men. Not to mention the amount of betas abusing RP ideas without understanding them. Let RP grow naturally without trying to "advertise it".

If anything I would only share the unfairness parts of it to get guys politically active in fighting for the rights of men in the law.

CptDefB • 1 point • 18 August, 2015 12:12 AM

If all you said were true, this entire thing could be scrapped and we could all just leave copies of The Manipulated Man laying around everywhere.

Using competition as a reason, even if it comes secondary, is operating on a scarcity mentality (there are more women than men on the planet, just throwing that out there). To address the primary, what is it that men are supposed to learn before RP becomes relevant? A rhetorical, but before you even compose an answer in your head consider that the institutions that RP theory goes against are shaping the realities of individuals from an elementary school age.

trpftw • 0 points • 18 August, 2015 03:24 AM

It's not scarcity mentality. It's the fact that I don't think many guys deserve shit. Some guys are abusive, assholes, or just plain do nothing to improve themselves except to look a little attractive. Especially guys who are like still in college etc. I was like that too once upon a time.

Yeah you have a point about that. I just don't think we need exponential growth either.

In revolutionary ideas, those that grow too fast sometimes develop a very negative counter-opinion. Sometimes the threat is that there are people posing as red pill and ruining its reputation (notice a lot of betas commenting sometimes and even giving advice that are incorrect).

A slower pace of growth results in longevity and the stability of principles.

Some ideologies grow so fast that no one can even define what the hell it is anymore and tons of people just claim they are that way.

Canard_wc • 1 point • 17 August, 2015 11:46 PM

To help the diffusion of the RP an increase the book read rate, the printed version should not use TRP as title. Instead maybe hijacking some pop culture terms related to mens improvement.

A title like "the real Bro-code" referring to the how I met your mother show would trigger some curiosity in someone finding the printed version of the sidebar.

ThePedanticF0x • 8 points • 17 August, 2015 02:00 PM

It would be wise to suggest mandatory download and offline reading of the sidebar material to newcomers before they contribute posts and comments. I think an overhaul of the sidebar material is also long overdue.

Redasshole • 1 point • 17 August, 2015 02:06 PM

Suggesting downloads and website at the end is a good idea.

thefisherman1961 • 6 points • 17 August, 2015 03:12 PM

We should all pitch in some money and get this PDF edited and published as a book. It will simply be called *The Red Pill*, maybe with an added subtitle.

I've read the sidebar material in my Kindle using GLOs red pull handbook. Honestly, after that I didn't have to come to this sub much again. Especially with the drop in quality and the many low quality betas up voting stupid shit and down voting useful stuff. I'm pretty sure 80% of this sub is bottom 20% of male hierarchy. Which is not a bad thing since they want to improve. However reddit is a very democratic forum and if those people have up vote down vote and posting privileges it inevitably lowers the quality of the sub. Which is what happened here. I strongly encourage people to read this pdf and GTFO of this sub. They will save precious time and they won't even have a need for this forum anyway anymore.

Thank you so much for this! for the first time I am making progress getting through the sidebar, I have the pdf bookmarked and have been reading some each day.

There is however a major problem.

The section "THE CULTURAL THESIS" contains factual inaccuracies. I only made about a page and a half when some suspicious "facts" were confirmed by a quick google search to be false. Idk where the author of that section got his info, but everything I read in just the first page or two was blatantly wrong, unsubstantiated, unprovable or otherwise suspicious. Considering this was in the beginning of his "thesis" I must assume everything following that intro is based on those fallacies and therefore false as well. For this reason I am completely skipping that section until it is edited.

It really is a shame because the first sections about stories of men being brainwashed by feminism their whole lives were really well done but the Cultural Thesis section can only be the result of someone who was equally brainwashed by a masculinist his whole life.

There is no honor in spreading our cause if we have to lie to do so, and I do not want to be affiliated with an organization of group that spreads false information.

I am only bringing this up because I think it is best for all of us. This material needs to be fact checked and re edited immediately. There will be smarter and more knowledgeable men and women stumbling upon that pdf and finding more mistakes than I did and discrediting everything we have worked for.

Redjatis • 3 points • 19 August, 2015 12:49 AM

First I want to thank you for your time and effort, downloading and stashing this pdf away right away. Although I do have a few suggestions.

- 1.) Table of Contents possibly with hyperlinks. One of the Advantages of the sidebar is being able to have it organized like chapters to research so to speak. Any good book with chapters has a table of contents, I don't need to explain the merit of this.
- 2.) You include all the hyperlinks in said articles, but no link to the main articles themselves, I would recommend a hyperlink or something underneath the main header underlined titles. (Although it is unlikely that

everyone would want to reference that article directly, this gives your book both the function of the Reddit sidebar, as well as the pdf set up. This also allows these posts to gain much deserved traffic and credit to the original authors.

3.) The Misandry Bubble & The Manipulated Man's subsections initially seem to be their own sections completely. The only difference I could tell from the Beginning of the Book to the next sections or chapters is the lack of a red underlining. I don't find this very intuitive, and it was initially confusing. This also prevents me from skimming through at a quick pace looking for specifics (Due to the general land marking.) I recommend slightly changing the color, or even lowering the font a little.

Edit: Sentence structure.

tylerf89 • 3 points • 19 August, 2015 03:30 AM

I'm page 25 into it, and I'm wondering at what point does it give me the solution.

I've been subscribed to redpill for months and read threads from time to time.

How do I fully become someone that embraces red pill?

That's what I want to know.

[deleted] • 4 points • 25 August, 2015 02:39 AM

A little late, but TRP is all about shifting mind sets. You're trading one lens for another, for some this is natural, for others they experience head aches and battle choking the pill down. Here's a general checklist to start applying the concepts after you've observed and read them.

1) Focus on your dreams/aspirations 2) Make money doing what I said above 3) Learn and apply game in nearly all of your environments 4) Lift 5) Learn a martial art 6) Become an intellectual, read more. 7) Become interesting. Find hobbies and deep passions besides step 1 such as music, painting, boxing, chess, etc. 8) Learn to realize you are the great catch

Thank you!

[deleted] • 2 points • 17 August, 2015 02:14 PM

Thank you kind soul. This will come in handy.

[deleted] • 2 points • 17 August, 2015 02:59 PM

Wow, thank you, you put my thoughts to action! You deserve a prize!

redzorp • 2 points • 17 August, 2015 03:37 PM

Amazing work. Thank you for the herculean effort.

I also found myself procrastinating from reading the entire sidebar, given all the scattered information. This makes it easy to digest everything in one shot!

IamGale • 2 points • 17 August, 2015 05:06 PM

Awesome, thank you so much.

SinisterSwindler • 2 points • 17 August, 2015 06:44 PM

Thank you mate, much appreciated.

claptilley • 2 points • 17 August, 2015 06:52 PM

Thanks...as a mobile reader this helps

[deleted] • 2 points • 17 August, 2015 07:15 PM

Thank you for this. TRP is definitely a way of life and one could potentially fall out of the routine at times; this is a great back to the basics approach to keep any BB tendencies at bay. #TRP is the source.

Lord_shitmeister • 2 points • 17 August, 2015 07:58 PM

Thanks a lot! I'm going to translate this in french.

EscapedTheMatrix • 2 points • 17 August, 2015 08:25 PM*

This is awesome. The only thing that could make it better (and it would make it 1000x better) would be a Table of Contents at the beginning.

Edit: just saw that /u/Manmore already commented this, and I wholeheartedly agree with him

Jason-Genova • 2 points • 18 August, 2015 12:08 AM

Thanks, I appreciate your effort in spreading the good word. I am guilty of being over whelmed and this will aid my efforts. I know I definitely need it.

CyberninjaZen • 2 points • 18 August, 2015 01:12 AM

Thank you for the pdf. There has been a big drop of quality posts lately. Have the good users gone elsewhere?

spartan1337 • 2 points • 18 August, 2015 02:42 AM

Awesome, thank you for your effort and contribution

DoctorBlaine • 2 points • 18 August, 2015 04:46 AM

This is great aroo, I can't imagine the effort you put into this. In case this sub DOES get the chop, good to always have a backup of the essentials.

Stonish • 2 points • 18 August, 2015 06:16 AM

Hopefully everything is in the sidebar order because Im kinda in the middle of it. Thanks for it man, appreciated.

Goosepwn • 2 points • 18 August, 2015 08:01 AM

I very seldom post here. Just wanted to say thanks! You're doing God's work, son. Straight to the iPad for my trip to Yosemite!

ozaq • 2 points • 18 August, 2015 10:46 AM

Much obliged and appreciated.

gruntmods • 2 points • 18 August, 2015 12:37 PM

No more excuses, time for me to read

Hennez • 2 points • 18 August, 2015 12:58 PM

Great thing indeed. Downloaded and upvoted.

RedPillHerring • 2 points • 3 September, 2015 03:31 PM

The PDF is still there. The EPUB and MOBI are gone. Can someone reupload those files?

Great work by the way!

-TempestofChaos- • 2 points • 5 September, 2015 09:07 PM

Would it be possible if one of you could re-upload the EPUB links? I'd like to throw that on my Google Account

[deleted] • 1 point • 11 September, 2015 04:52 PM

I would like them too, please.

LouisFrancois • 2 points • 13 October, 2015 11:43 AM

Thanks a lot, but it seems your files expired, can you re-upload them somewhere please?

DevastatingPain • 2 points • 22 October, 2015 03:55 AM

Any chance you could repost the EPUB and MOBI links?

reigorius • 2 points • 2 November, 2015 12:06 AM

Are there any mirrors? All links are dead.

[deleted] • 1 point • 17 August, 2015 09:16 PM

Can we just call this THE RED PILL instead?

RedIsSafe • 1 point • 18 August, 2015 09:43 AM

Anyway we could convert more Red Pill stuff into PDF documents?

thegreatgodbear • 1 point • 20 August, 2015 01:23 AM

Any chance to get a mobile friendly link?

wraith5 • 1 point • 23 August, 2015 11:31 AM

FYI these epub/mobi websites are being blocked by NOD32 as potentially hazardous

Thanks for the pdf

cause_you_suck • 1 point • 17 August, 2015 02:38 PM

triana0811 • 1 point • 18 August, 2015 01:13 AM

This is very much appreciated, thank you. Is there anyway I can download this into my iPad?

mrmelehemn • 0 points • 17 August, 2015 10:31 PM

While you were compiling this, I was fucking your girlfriend.

_aroo[S] • 6 points • 18 August, 2015 08:58 AM

Congratulations! First pussy you've been in since the day you came out of one?

jx234 • -4 points • 18 August, 2015 08:27 AM

While you were compiling this, I was fucking your girlfriend.

Glennus626 • -8 points • 17 August, 2015 11:22 PM

You have gone above and beyond, though it does come across as slightly BP.

however, this isn't just getting talked into helping someone move, what you did will help many others. Thank you.

[deleted] • 5 points • 18 August, 2015 01:23 AM

Are you fucking serious?? The guy does this and the best you can do is call him BP?? Haha some people lol

Glennus626 • -5 points • 18 August, 2015 02:06 AM

Go read NMMNG. You also honed in on ONE thing I wrote, and ignored the rest. So, ya, I'm fucking serious.

[deleted] • 1 point • 18 August, 2015 11:56 PM

I sort of understand what you are saying. It's only bp if it's some stupid shit like helping someone clean their room or buying them ice cream or holding a door open, that has no long term effect on society and is something they could have done. This is an actual book of an amazing sub Reddit all put together and if lucky can offer long term value to society, from what I understand that's sorta what you were saying although it didn't seem like it at first. Whatever, also I'd read nmmng but I have no clue what the heck that is

Edit: nvm. Dumb question
