Crosspost "Wife is terrible" from /r/MuslimMarriage:

Wow. I don't even know what to say or do at this point. I just discovered my wife of one year cheated on me with a coworker. They had sex. Don't even know if reconciling is an option. We have no kids and I father isn't responding to my calls. I'm devastated and shocked. I don't even know how to tell my parents. Sitting quietly in my room. Sigh.

<https://m.independent.ie/style/sex-relationships/newlywed-brides-look-for-affairs-within-first-year-of-marriage-to-cope-with-post-wedding-blues-31559892.html> Half of 9000 UK women surveyed said they cheated within first year of marriage. The media calls this the 6 months itch.

That's a very small sample. I'd say current society, cheating is 50/50 for both men and women, i think, but we have to always look at the best of people while being aware. If she cheats she's out and her family will hear about it.

cheating is more from women most "husbands" are betabuxxers - the women married them so they could leech off them and take half their stuff later

'Ubada b. as-Samit reported: Allah's Messenger (may peace be upon him) as saying: Receive (teaching) from me, receive (teaching) from me. Allah has ordained a way for those (women). When an unmarried male commits adultery with an unmarried female (they should receive) one hundred lashes and banishment for one year. And in case of married male committing adultery with a married female, they shall receive one hundred lashes and be stoned to death. **Sahih Muslim Book 017, Number 4191**

A lot of people are confused about the 4 witnesses you need to prove adultery in islam.

that is for corporal punishment.

You can divorce for Any reason even suspected cheating Or hinted cheating. For example if you see a text that says for example "hey baby" if people ask you why you divorced just mention the texts. Be very literal and you will not be punished for false testimony

The husband is an Ad-Dayooth. And this is a prime example of why women shouldn't really go to work.

Yeah it's just a matter of time.

"muh khadijah ra was a business woman"

women shouldn't work except a minority

in a muslim country where islam is followed properly more should work but part time not full time

TrynaBeTheBest 1 points 30 May, 2020 03:29 PM

how did he "discover" that his wife cheated?

this is also a reason why women aren't meant to leave their house except for necessity
and if a woman works it MUST be in a non male environment - if people practised islam this wouldn't have happened
islam is perfect girls need to start staying at home
