Stinking, worthless, slut, dog, whore. Wish I knew who the husband was so I could warn him.

She claims to love her husband and yet blames him for her decision to get married young and not whore around with her girlfriends. She loves him yet allows this other guy to rawdog her and cream pie her. The other thing is notice how she talks glowingly about Jeff and calls him her soulmate even though the guy has ghosted her. Hope the husband finds out and dumps her ass.
