We need a female reboot of the Joker.

A woman who's just fucking had it.

With misogyny, old white men trying to deny access to health care, lack of representation, unequal pay, sexism, being told to smile, being fearful, objectification...

Make the movie of female rage.

Who is we? Surely the other people have to do the work, while she watches? Piss off.

Of course, all she can do is cry and REE online. A female revolution wouldn't even happen. They don't have enough testosterone or balls to do it, except maybe the tranny ones.

What an insufferable, stupid twat. Modern western women have it better than any women in all of recorded history BAR NONE. Not ever.... not one time have women ever been so pampered, spoiled, safe, protected, and lived in such prosperity.

The fact that they STILL.....STILL.....STILLLLLLLLLLL..... endlessly bitch and moan about how hard they have it is absolutely mind boggling.

Edit: to add a famous quote "to the privileged, equality appears to be oppression".

She had to kill a man with her teeth, then crawl through mud under sniper and machine-gun fire just to get a pencil stub and a some paper, so she could teach herself how to write.

The Patriarchy(tm) held her back at every step, man. It was brutal.

If it's the same quality than the Ghostbusters reboot (or let's say defiling), expect a nice box office bomb!

Basic Instinct? Hand that rocks the Cradle? Single White Female? Species?

Yes please do a female reboot of the Joker, that way I can avoid it when it comes to Theaters.
