

Once you realize what interested women will do for you with little effort on your part, you'll realize what a waste of energy it is to even talk to women who don't show immediate and enthusiastic interest.

July 1, 2016 | 1369 upvotes | by [\[deleted\]](#)

Ever go up to a woman on an approach and say, "Hey, I saw you and I just want to talk"?

Here's some truth to brand into your flesh:

Women don't want to just talk to men.

They want to fuck, go on an adventure, be told what to do, get into a dangerous situation, start some shit, fuck up someone's day, save the world, ride on a motorcycle, see a movie, dance, sell shit on Etsy, cheat, stab you, eat mayonnaise, and run from a dinosaur.

But never be fooled into ever think a woman ever wants to *just talk*, ever.

She has an agenda. You have an agenda.

Either you're working toward hers or you're working toward your own. There is no middle ground.

So when a woman shows middling or low interest, you've picked a mountain to climb. You'll climb it her way in her time with small reward and with no respect from her. You'll sacrifice time, energy, and focus, as well as inflating the value of what little payment you'll receive for the trouble - so that at the end, you must also deal with the effects of having catered to self-delusion. This means emotional fallout, time for getting your shit back together, retooling, and rebuilding. You've fucked yourself.

When a woman shows intense and vested interest, you've already won. You can have whatever you want. You can have it now. She will eagerly give you as much as you can handle and more. You've claimed a gift that was yours since birth. By acknowledging and fulfilling her desire to fulfill your desires - without hesitation, without pussyfooting around, with confidence and a smile on your face - you've not done anything amazing. You've simply had a normal sexual interaction between a masculine male and a feminine female. It is an interaction that not many people understand anymore but that everyone craves.

To achieve this end, value quantity of women over quality. This is old hat to many of you, but newbies take note. There's an epiphany waiting for you, that moment when you realize a woman you've known for 30 seconds is willing to do more for you than that girl you chased for 6 years.

Corollary: Any woman you interact with for a long amount of time in a non-sexual manner (who isn't already head over heels for you), is not a woman you will ever sleep with.

Here's the math:

You're more likely to get open eager honest sexuality from a woman within minutes of meeting you than you are in 3 years of dancing around the subject. Be up front, be honest, and in a quick few seconds she'll tell you with words or body language all that you need to know about who is likely to get what, when, and how (the politics of getting your dick wet). That's minutes invested rather than years wasted.

To do that, stop masturbating and do something extremely intense daily. I know we say "lifting." It's a wonderful go-to and will open all new dimensions in your life but to be honest, anything shamelessly and no-fucks intense will work. A sport. A competition. A gig. Anything that becomes something more than the sum of its parts and that requires focused balls-on-fire intensity - do that thing every day.

When you're raging and intense and focused, you become a black hole of Fuck that women fall into naturally. You want them. You can't stop yourself, and women are walking sex toys to a man who can't stop himself.

If you've been jacking off a lot and dispersed your energy and muddled your life by avoiding intensity, extreme action, and excitement, you will be static and background noise to anyone you meet.

So if you've been going out after 3 wanks to try to psych yourself up to talk to that girl who maybe kind of likes you, you've fucked yourself. She'll smell your "kind of" interest, return a "kind of" interest with just enough hope to keep you on the leash. You will use the leash later to hang yourself.

If you go out after a week of not cumming, women will look at you from across the room with hopeful and begging eyes. They will say things to you and not know why. They will agree to do the kinkiest most fucked up shit because they can see in your eyes that you *want it so goddamn badly*. They will feel your leadership and use all your commands as refreshing and simplifying direction in their too-many-choices what-am-I-doing pointless lives.

And they absolutely, certainly, posi-fucking-tively won't just want to talk.

I learned long ago that there are going to be some women that are instantly attracted to me, and some that will never be attracted to me.

There is a third category, the ones I could wear down/"game"/convince over time, but that is a lot of work.

It is better to spend the time finding the ones that are attracted to you and ignoring the rest.

Women know really fucking fast if they want to sleep with you or not. Take advantage of that and don't chase the uninterested ones.

[deleted] • 31 points • 1 July, 2016 08:45 PM

This is something I have been doing. I get why some guys want to spit game and convince a woman to sleep with them, because they feel like they won. The thing is it's just not worth the time and effort. I would rather just find a woman interested in making out or fucking and do it.

ITworksGuys • 29 points • 1 July, 2016 08:59 PM

There is nothing sadder than watching that guy you know just trying to grind down that chick's defenses.

I have seen dudes waste a whole night out on one chick who isn't that into them.

Fish aren't biting, move on.

[deleted] • 10 points • 1 July, 2016 09:03 PM

Exactly. I used to go after women who I was attracted to, but didn't show me IOIs or I thought they did, (this while in college) and while many times I did move on after spitting game and all that, there are many times I should have moved on earlier.

I just don't have time or patience to spit game on one chick the entire night. It's not worth it and you look pathetic and like a creep. If she's not interested and I can tell, even if she's dancing with me, moving on to the next one.

stawek • 16 points • 1 July, 2016 11:05 PM

And your SMV determines the ratio of women who are interested.

Way_Of_Man • 15 points • 2 July, 2016 01:27 AM

I've seen this broken down multiple times using the traffic signal system. "Red, yellow, green"

Reds and greens are pretty self explanatory. The "yellow light" girls are the most dangerous. Just because they are a much wider range of possibilities.

A "yellow light" girl could just be really shy or have a lot of societal programming that she isn't supposed to sleep with strange/new/exciting men. Or she could be on the fence about you in general, but she'll fuck you if the logistics and situation is right. Or maybe the "yellow light" girls is actually a "red light" who just gets her kicks out of leading men on.

Physical escalation tends to cut through the BS and help you figure out who's who. "Yellow Light" girls who

you think will sleep with you might take a little push/pull which is more of an art.

lqtys • 7 points • 2 July, 2016 12:45 PM

That is the purpose of self-improvement. To increase the number of women that are instantly attracted to you.

[deleted] • 1 point • 3 July, 2016 02:36 AM

Recently I noticed a girl at work who was crazy about me and I did absolutely nothing to gain that attention. It's a stark contrast to girls who wouldn't give me the time of fucking day. The difference is night and day. A girl I could sleep with instantly and a girl I might never sleep with regardless of what I do.

so many guys would be shocked at the results if they boldly just went in for a kiss at a party with a friend. I find that a lot of the time it works, and if it doesn't, who cares? At least you showed that you weren't a pussy

[deleted] • 98 points • 1 July, 2016 09:28 PM

Her: Why did you try to kiss me, I have a boyfriend!?

Op: Oh well who cares

Her: officer, he tried to rape me

[deleted] • 20 points • 1 July, 2016 10:23 PM

im not saying be creepy about it dude. I meant if you have friendships with women and you see an opening, take it. Obviously there is some nuance here, i didn't just mean grabbing the first girl you see and kissing her right then and there. Just don't be a giant pussy and make a move, if it fails just shrug and move on. I'm obviously assuming in this scenario you're somewhat confident, know how to read

signs, and put effort into your appearance so you dont look like a creep. I just didn't think I needed to spell out all the particulars that should be obvious

Seducibledotcom • -7 points • 1 July, 2016 10:40 PM

An opening? Like when a boxer drops his hands and leaves his face open? That's a lot of openings when just talking to a girl.

unicorn-carousel • 0 points • 2 July, 2016 03:44 PM*

I once cut a circle out. The one salvageable girl is one I went in for a kiss with on the first night we met. She noped and I said had to try and shrugged and we were cool after that. Turns out I was fucking her friend who lived there before her good too--the former room mate is what started dragging me through the mud, yet the new girl who noped me is loyal to me. She'll fuck me eventually if I take it (our social circles touch maybe 4-5x/yr), she was about 2 years pre wall at the time... "hey, it's been too long!" message due any day now. I will probably not though, unless she drops weight or something. She is nice and half Latina and an actually good wing. (edit: 2 years PRE wall).

Ok so this may sound like some cringey pua shit but one time I was at the pub and I stepped outside to get some air. I noticed this cute Latina chick looking at me and smiling. So I grinned and without breaking eye contact I walked right up to her and I asked her:

"Hey, do you think I'm attractive?"

Yes?..

"So what's stopping you from making out with me?"

So I made out with this chick for a second and she stopped me and said "I've never done anything like that before!"

unicorn-carousel • 4 points • 2 July, 2016 03:52 PM

LMFAO, I am going to test this tonight :). I know for a fact the answer is yes with vast swaths of women including FOB Latinas and I happen to love their king treatment :) -- this can work on

them, thanks!

unicorn-carousel • 3 points • 3 July, 2016 11:43 AM

Went out and danced with lots of girls. Did not use this line. Practiced eye contact and instant approach and kino. Had some girls orbit me, but I still can't close them. Some would keep showing up in front of me and I'd approach/kino and they'd leave, only to reappear and keep doing it. It was a specific theme tonight, red white and blue, and I was America'd out, so I was just approaching others dressed up with reckless abandon. It's 4:45am now, had 2 gin and sodas + a Heineken at the end because I got a free drink ticket from a photographer :). Smoked a shit ton of weed before I went out, it wore off fast. I should go back to bringing out joints, can smoke them like cigarettes and I don't smoke but like the social aspect. I'll try the line next if I remember, probably outside with a joint. One girl kissed me tonight during that Killers song "just a kiss"

StoicCrane • 1 point • 3 July, 2016 03:16 PM

unicorn-carousel • 2 points • 6 August, 2016 10:10 PM*

NICE, that's the feeling right there. Gotta be the right club but I it definitely resonates. Last night I was actually playing with just dancing confidently while hot girls encircled me--first scene party in 3-4 years (as opposed to general clubbing/shows), too bad I didn't watch this right before going! I was toking and got a little kiss from Molly, it was a good reminder what that state in the video feels like. I was at the party 'till 6a and generally was pretty sober after about 1a, ended up opening 3/4+ of the people at the party still. No F/# closes, except party guys who are also hanging and talking side project/music shop. People in the scene clearly hookup and I was getting some invitations but still not really confident/experienced enough to follow the instincts (obviously always working on it). Also forgot all about this thread totally, going to have to write it on my arm or something in permanent marker "do you think I'm attractive?" lol. Thanks mang
Edit: more party tricks, I think I inspired a nerd to start lifting

d0lphinsex • 2 points • 7 August, 2016 08:39 AM*

You don't even have to dance. My game is:

1. Eye fuck girl.

2. See if she responds (looks at you, looks away, looks at you again, maybe smiles and eye fuck you back)
3. If not - NEXT
4. If yes - go forward and make out with her.
5. ESCALATE. Move hands on ass, breasts, crotch.
6. Make her feel your hard-on (important)
7. Talk dirty to her, tell her you want to fuck her.
8. Ask if she wants to go home to you.
9. If not - NEXT
10. If yes - Great Success!

It works best if the dance floor is crowded though.

You should read some stuff from the former PUA guru Gunwitch. He's a real alpha.

Any woman you know, potentially. When you learn to recognize signs of interest, you'll realize that women are and have probably always been giving you "openings." Moments in which they're subtly, even subconsciously, revealing that they would be receptive to some sort of romantic or sexual gesture from you, in that moment. This is assuming, of course, that you

have your shit together, have your appearance under control, and are at least somewhat fun to be around.

do something extremely intense

I'm posing nude for a sculpting class and workshop. Does that count? Every Wednesday from 6-10pm. About 30 people in the class, 3/4 of them are women. Of those, about 2/3 are attractive, the rest aren't ugly, just too old.

During breaks everyone talks to me. Sometimes they try to hold a conversation while I'm up there trying to hold a pose.

eccentricrealist • 24 points • 1 July, 2016 08:51 PM

It's certainly off the beaten track

aDrunkenWhaler • 56 points • 2 July, 2016 02:14 AM

Here's what to do. Make yourself very horny before leaving. Watch some porn maybe, but don't jerk off. While in the middle of the sculpting class, look at the girl you want to hit on and focus on banging her right there in front of everyone. Don't stare like a creapo, just undress her with your eyes. Do it until you get a hard on.

Everyone will giggle, slightly uncomfortable, especially the girl. Play it out with a cool and amused grin on your face, not bothered one bit. Don't apologize, own it, 100% confidence, no fucks given. Better to just smile and not say anything, but depending on the atmosphere you can even throw a joke like 'It's lot harder than you think'. After a minute or so, stop looking at her and let the hard on die out.

She'll start hamstering and get horny, the others will feel jelouse and competitive. You can hit on whoever you want afterwards if you play it right.

You're nude in front of 30 people looking at your junk for 3-4 hours. How's that for 'fucking weird'? Also, getting a hard on happens frequently when posing, nothing weird about it, just funny for the class and embarrassing for the poser, unless he owns it. If you happen to adopt a reclining pose before the erection occurs, make sure to envision all of the perverted, depraved deeds you wish to undertake with the chosen girl of focus. Ignore everyone else and penetrate her with your lecherous glare and impish grin.

When the moment is just right and the tension palpable, demonstrate your prowess by—hands-free—shooting your gizz forcefully upwards. As rope after rope of manly seed spurts impressively onto your face, do not break pose and do not break eye contact—ignore the rest of the people in the room and any noticeable reactions.

Finish the pose strong, own it, don't apologize, 100% confidence, zero fucks proffered. Then stand up, walk over and rape her in front of the other beta scum.

unicorn-carousel • 4 points • 2 July, 2016 04:12 PM

YES. I moved to a nice city into a house at the same time as this other chick, and she gave me the king treatment, it was fucking amazing... never looked back. Found another Latina out by chance, she was a good plate for a while until I started listening to her and she lost all respect. I haven't had a plate in a while, been in kind of a shit place without realizing it, not even respecting myself :... in any case, back to a good spot, can already feel tentacles creeping out of vaginas from a lot of new hot girls I meet who are a level above anyone I've dated in the last 5 years.

[deleted] • 9 points • 2 July, 2016 08:30 PM

Yep. I've learned that sometimes if I don't respect myself (for any reason), then I should monk mode until I do. Once I'm happy with my life then I exude a kind of confidence that women can smell. It doesn't matter if you're ripped, rich, etc. If you don't respect yourself because you have a problem that you're ignoring and it's festering in your life then you won't be able to game at your peak.

In the past I would keep chasing women even when deep down I just didn't feel like fucking with them at all and they'd sense it and treat me like shit. Then I'd spiral into an even worse place and buy into the rejection.

Monk mode can be awesome. Mostly because it teaches you that you don't need bitches to be happy... and ironically once you don't need them they come running.

[deleted] • 3 points • 3 July, 2016 02:39 AM

Monk mode is a nice way to describe it, but yeah that's extremely important. Have to respect yourself and be happy first and foremost then the women can come along and you can be successful.

Focus on you. Improve yourself. The women come after you've focused on and improved yourself.

max_peenor • 68 points • 1 July, 2016 11:13 PM

The women come after you've focused on and improved yourself.

Literally. If you are high value, they will present themselves to you, lift their tails and hope they are selected. If you have to hunt women, you aren't the tribal chief--you are just another war party drone.

I'm an old guy so I like to share life experiences with the whipper-snappers, much like men did with me long ago, to put color on these conversations we have. So here is a somewhat related tangent:

Are you a good looking guy in an office full of hens? Do you harbor a passing disdain for the beasts? This is what you do. Those that are desperate for your manly presence inside their delicate (but no doubt previously occupied) girl places, will bring you things. In workplaces, women tend to bring food, which makes sense because an unfortunate number of them are fat. I don't want women to bring me food; I want them to bring me quality pussy. I have never once eaten anything given to me by these women. I would accept the food with a smile and then leave it in my office until it was no good and the cleaning staff tosses it. It drove them fucking nuts. The few that I did bed (aka sane and a proper BMI) would tell me how much of an asshole the other women thought I was Yet it didn't stop any of them from continuing to try. There was one of them that I must have done this to a dozen times and when I finally agreed to have dinner with her twice, I stood her up, twice (bad luck, I wasn't trying to be a dick). A decade and a half later she still sends me birthday and holiday notes, along with the random messages proposing coffee to catch up on old times. We had no old times, lady, you were creepy, desperate and worked in the same company--that's it.

Hey man im having a very hard time with accepting what women actually like. For the first time in my life i figured out how to evoke desire in a girl not just friendship or likeability and it just seems so wrong. What are your thoughts on this?

RedPillHorse • 24 points • 2 July, 2016 08:12 AM*

Well, it's sort of revolting to wake up and realize that society grooms up to be absolute needy failures when it comes to courting women.

It's not even that society is deliberately lying. The qualities that women list as being positive qualities

are all positive qualities for friends. It's just that the part of the brain that picks friends, and the part of the brain that picks mates is separate, and most women in addition to some men, believe that their brains only have the friendship part and that sex is just an integrated function of friendship. a.k.a. your s.o. should be your best friend spiel.

Women have direct conscious access to the part of their brains that tell them what they like in friends. But what they like in mates is illusive, which is why they hate that they can't quit losers and jerks, a.k.a. men that fit the profile of survival a thousand years ago. It's better for them to not know, because what is the optimal choice for survival isn't always the most seemingly logical choice. I.e. being the third wife of some abusive chief vs being the "one and only" of some beta loser.

You can't negotiate affection, and a function of this is that you cannot negotiate the fact that women's preferences aren't made for modern society, and women's preferences isn't the modern man. You can't change this, and you have to adapt into the behaviour that, frankly, is best for banging women.

So you become a wealthy swole jerk. Quod erat demonstrandum.

You don't have to be an asshole to attract women, but if you are attractive they will tolerate you being an asshole.

max_peenor • 2 points • 4 July, 2016 06:15 PM

It's sort of like Divine Right. King conquer and possesses because that's just the way it is. They don't shed a single tear over it. Well, I'm a male. Millions of years have created me and my desire to physically conquer possess a woman. It's just the way it is. Kings use armies. I use my attraction.

I refuse to apologize for being human.

DannyDemotta • 11 points • 2 July, 2016 03:34 PM

And 99% of gains happen outside of the gym - but if you don't Gym properly, if you're a 6 day PPL fuckhat on a hump and pump routine, you're still going to look like a skinny DYEL or a fat turd.

Women are the reward for TRPing, and for many, the main motivation. Its biological. No need to throw on your fedora and start worshipping le self improvement. I don't want a six pack for other dudes, and neither did I buy my sweet ride for men. I could have gotten a GTO or a scraper for that.

Self improvement is like foundational work, its like your AA degree - but we're here to major in Banging Strange. You can't get that Bachelors degree if the only woman you TRP on is your current wife or GF. You're outside looking in.

[deleted] • 3 points • 2 July, 2016 11:28 PM

Lmao whats wrong with PPL? You can get swole as fuck on a 6 day split.

DannyDemotta • 4 points • 3 July, 2016 04:02 AM

Unless you're on gear, it's overkill. You'll get just as big doing a 4-day program with 2 strength/heavy days and 2 hypertrophy/pump days. Doing 6 days - especially when you do "shoulders" the DAY BEFORE Bench, and Deadlift the DAY BEFORE Squatting - just guarantees your strength gains will be sub-optimal and you'll just make superficial gains while punishing your joints.

Not sustainable, will make you injury prone. That's why you see so many 6 day PPL guys on this "Yeah, I don't Squat any more, I do leg press instead" "I don't flat bench, I do DB bench instead, it's just as effective, and it doesn't hurt my shoulder" etc etc bullshit excuses. They're more concerned with hitting reps/sets and "feeling it" than they are doing the lifts appropriately and getting stronger - thus making their hypertrophy sets actually mean something.

Women are 10% of TRP philosophy but get 90% of the posts and attention.

It's a forum on sexual strategy. It says so in the intro right after "Welcome to The Red Pill." Why do people keep saying this "it's not about women" shit?

No, you're not the first.

jackandjill22 • 1 point • 2 July, 2016 02:06 PM

Why bored, you realize there's a lot to the theory behind it correct? Also, that 'relatively simple' outline is extraordinarily more complicated than your succinct sentence makes it seem.

-Can you explain how to make social connects when nepotism drives human favour? -How about how location & socioeconomics drives whether or not someone is successful? & why?

Didn't think so

Kwantuum • -15 points • 1 July, 2016 08:38 PM

Nope. TRP is a sexual strategy. If you've got the sex part figured out you can move on to more self-dev/philosophical circles, but TRP is just that: sexual strategy.

? Seriously what are you trying to say with this comment??

grewapair • 64 points • 1 July, 2016 08:22 PM

When you reach your 30s, some of the women "settle" for you. They want Chad, but they aren't getting him and the clock is ticking and they settle for you. You are between an alpha and an orbiter. They'll give you sex, so you think you must be her alpha.

That is, until you get married, have kids, and the youngest kid is in school, at which point your ass gets divorce raped, because now you have no utility to them. They have your money and your sperm and so you are just a useless bag of wasted time to her. That's when you realize she settled for you.

The women who are settling for you don't eagerly sleep with you. They reluctantly do so after tons of prodding. I've had both types of women, one sleeps with me on the first or second date or with no date. The other type reluctantly does so after much prodding, but there's always an issue in the back of her mind that keeps her from ever being very enthusiastic. She always thinks she's better than me, so I have to fulfill her dream and she is NOT going to put one iota of effort into fulfilling mine.

If the girl isn't eager by date 2, next her. It's just never fun to be with a girl who is settling for you rather than desiring you. Although you might think beggars can't be choosers, it's never worth the time.

roedit17 points 2 July, 2016 02:46 AM [recovered]

This comment should've been the post.

Life is short. As Pook says, the goal is to make YOURSELF happy - not to get every hot girl to like you, not to get validation from some chick you had to chase - find a girl who likes who YOU are, but at the same time, push yourself as hard as possible and never get comfortable/marry/cohabitate.

NaughtyFred • 3 points • 2 July, 2016 01:07 PM

zzttgg • 4 points • 2 July, 2016 04:21 AM

I completely agree with this. Nowhere is it written than you are not allowed to be single. There are a lot of prostitutes even if you never attract a woman.

zzttgg • 7 points • 2 July, 2016 04:20 AM

They do not. They are mindless. They get to their 30's and decide it is time to settle down. Little do they realise by the time most men are 30 they have figured out that they do not want to settle down. Why would I want to settle down with a fat 30 year old woman who is fucked in the head mental and completely selfish ?

RedditAdminsSuck_88 • 75 points • 1 July, 2016 04:18 PM

Good post, my advice:

Don't wait for "the right time" to approach, escalate, or make your intentions known. There is only one right time

to do all 3 of those things - NOW or as soon as possible.

If you have the mindset of "I need to wait for the right moment" then no moment will be good enough for your hamster. You will just hamster away the moment and come up with reasons why its not the optimal time.

TestoclesBalls • 22 points • 1 July, 2016 05:16 PM

This, so much this. I used to think I need the right "moment" to approach, and what happened? I went home and beat off because there was never a moment that was "right"

Just fucking do it

wiredtobeweird • 3 points • 4 July, 2016 05:49 PM

Did you read any books prior to cold approaching?

TestoclesBalls • 2 points • 5 July, 2016 09:44 PM

Yeah I finished The First Formic War by Orson Scott Card lol

I mostly just went out with friends to bars and observed the way of the world. I was homeschooled so I had to do some catching up as a 19 year old with fiercely religious parents... I quickly figured out that even though I'm rather a pretty boy I wasn't gonna get a damn thing if I didn't man up and start hitting on some hoes. So trial and error, some Red Pill and a lot of observation of other guys who kill it with the ladies and boom progress.

You should not shit where you eat. I mean if you want to keep your job, but otherwise, go for it..

Remember, if she has a higher pay grade than you, the chances are when you next her (and you will eventually) she will try her best to use her power over you. And this would ruin your job, or even your career.

In the end, doesn't work the risk..

circIhat • 25 points • 1 July, 2016 07:16 PM

Dude, you just drop some deep shit, and its 100% true , to be honest I don't know why I pursue women who don't show immediate interests, I guess because I feel I should be building my game but in reality even if you make them laugh they will still fuck someone else who they like.

I recently had a girl who was so kind, sweet and gentle and fuck like a porn star, with no effort on my part, it was almost surreal , than you have girls who say lets talk and get to know each other first.

[deleted] • 8 points • 1 July, 2016 08:31 PM

Exactly. This so much. It's like why bother jumping through all these hoops when you can just find a chick who is chill and will give you sex and make you feel attractive.

Kwantuum • 3 points • 1 July, 2016 08:47 PM

I remember watching a video of RSD where Julien was saying that a lot of the time, you just need to be "good enough" and I think it hits it on the head. If she has nobody else lined up and you play your cards right you will bang her. Now of course it's nowhere near as intense and natural as with a girl that's into you right off the bat, but you can still make it happen. Up to you to decide if it's even worth the effort when you could spend that effort trying to find girls that are into you instead.

WolfOfAnarchy • 13 points • 2 July, 2016 11:40 AM

NoFap remains the best thing I've ever done.

It gave me so much energy and drive, that it was a catalyst for lifting, working, improving, TRP, reading, meditating, everything.

Masturbating is the ultimate 'everything is OK' thing to do.

You do what your body wants you to do because you caved to a simple urge and your body is now content that you fuck every day, so nothing needs to change.

When you are 2 weeks dry, you're going to go fucking nuts, at least I did, many times. So much drive and energy.

I am on 72 days streak right now. It's not that hard. Just do a lot of physical activity, get really busy, don't be pussy and you will control your body. Not the other way around.

Results are amazing

[deleted] • 2 points • 2 July, 2016 02:28 PM

I went 45 days no fapped and I caved. Not doing that again. I'm starting another streak again and gonna go for longer.

thats_abingo • 3 points • 2 July, 2016 01:03 AM

it honestly may. the first few days are the hardest for sure

GoingTheHardWay • 22 points • 1 July, 2016 08:14 PM

If you go out after a week of not cumming, women will look at you from across the room with hopeful and

begging eyes. They will say things to you and not know why.

This is true... I can attest to that with some recent success (just ended a 8+ month dry spell...)

It's a catch 22 though. You jerk off, you lack the drive or mojo to make it happen. You don't jerk off and you nut in less than 5 minutes with anyone that isn't a hampig.

I recognize the benefits of no porn and limited fapping - it's improved the overall quality of my life... but I cannot begin to tell you how disappointing it feels to finally get that payout only to end up a two pump chump...

Not all girls are understanding or attracted enough to wait 10 more minutes for round two after such disappointments.

wiseprogessivethink • 19 points • 2 July, 2016 06:05 AM*

I understand what you're talking about, but it's a fairly easy fix. Explain to her *as you are fucking her* that she's just so damn hot that you just can't last with her. (Don't make it an "explanation" but just a comment in the heat of passion.) So when you shoot your load within 300 seconds, it won't come as a huge surprise/disappointment. Chuckle at yourself and praise her ("you're just so amazing") and then immediately eat the pussy. Eating the pussy is just buying yourself time during the refractory period. Then it's just a matter of time before the dick starts functioning normally again, and you can give her a solid full-length fucking in Round Two. She'll be both flattered by the quick cum and impressed by the stamina (and hopefully pleased by the pussy-eating during the intermission).

p3n1x • 10 points • 1 July, 2016 11:28 PM

you nut in less than 5 minutes

If you are concerned with her "disappointment" then get better in bed, period. Up your foreplay skills, get your face in her pussy, etc... Women can easily come within seconds of being penetrated.

You are under a spell if you believe its harder for women than men to orgasm.

Not all girls are understanding or attracted enough to wait 10 more minutes

This is an entirely different problem and not about how fast you pop a nut.

[deleted] • 4 points • 1 July, 2016 11:04 PM

Have you tried oral first? Give them theres then go to town (for 1.5 minutes).

adam_varg • 1 point • 26 August, 2016 02:37 PM

D

Do your kegels and in few months you will be able to control your ejaculation.

If you will be extremely horny the worst can happen is you will have to stop or pull out for ten second (i usually use this pause to make her cum by massaging g spot hard) then proceed with fucking again. If she will notice or you inform her that you almost came so early she will get more happy and aroused because she is gonna feel so attractive that this attractive and experienced man (loser wouldnt be able to regulate himself) almost couldnt helphimself.

[deleted] • 18 points • 1 July, 2016 10:07 PM*

There is some serious new talent in here. I have been reading TRP for over a year and I think the quality of posts are getting better. OP is clearly a serious player. When you get pearls of wisdom like this you just know the man

understands his shit and understands women. There are no exceptions to what OP is saying here, if the girl is talking to you and there are no IOIs then you are best of moving on instantly. You CANNOT negotiate attraction.

One great test of her level of attraction is the hand hold. Hold her hand, then play with her fingers, squeeze her hand or make little circles on her wrist with your finger. If she squeezes back, or plays with your fingers then she likes you and she is yours for the taking. Just shut the fuck up at this point and escalate. If she lets go of your hand, get up and walk away. Have some pride, do not waste your precious time on girls who will not fuck you.

WolfofAnarchy • 3 points • 2 July, 2016 11:29 AM

Dude, there are great posts every day here. It's a fucking goldmine for knowledge. LOVIN IT!

[deleted] • 18 points • 1 July, 2016 06:33 PM

this is totally true, in fact it's so true I wish I could upvote it a million times over. Once someone finally experiences the contrast between a woman that actually likes them and someone using them as an orbiter, it's hard to ever 'orbit' willingly again. I mean girls will do so fucking much for you if they are interested it's not funny

edit: the one part I take issue with is the statement that a woman you have been friends with non sexually will never sleep with you though. I've def slept with friends I was friends with for years upon years...maybe I changed and they recognized it, or they always were open to the idea, but the fact still stands imo

p3n1x • 7 points • 1 July, 2016 11:00 PM

I've def slept with friends I was friends with for years upon years

To expand, there is a mistake I see here sometimes. Remember, a woman sleeping with you does **NOT** make you Alpha. It does **NOT** mean you are acting Alpha.

Beta's still get sex, lets not lose sight of women who settle for Beta.

A long time friendship that turns sexual, can easily be a woman approaching the wall, ticking clock or tired of being hit with a river of cum and not reaping resources for it. She could easily be looking at someone as a possible "provider", Alpha or Beta or whatever.

[deleted] • 10 points • 2 July, 2016 01:54 AM

lol I assure you that wasn't the case. I wasn't provider status then, and im definitely not provider status now. Most of the flings we had were just fuck buddies at best anyways. I don't get why people are so intent on simplifying everything here; not everything has to fit a perfect mold ie people are not all the same

edit: and most of the chicks in question were 20-23 lol, so hardly a hitting the wall in looks scenario, believe me

p3n1x • 1 point • 2 July, 2016 02:25 PM

I understand, but someone that is new here could totally misunderstand 'your' experiences and improperly read the signs in their current situation.

Why intent on simplifying everything? Because AWALT. and that is 'my' experiences talking.

IGoYouStayTwoAutumns • 38 points • 1 July, 2016 07:46 PM

Any woman you interact with for a long amount of time in a non-sexual manner (who isn't already head over heels for you), is not a woman you will ever sleep with.

So true. Women are usually comfortable having sex after about 7 hours of knowing you (often you can get that down to 3 or 4 if you know what you're doing, but 7 is pretty standard, it's also about the length of 3 dates), once you hit 10-15 hours however you're now in the "danger zone", and after 15 hours, if you haven't moved into sex territory by then that's it, you're done, she's polarized you into the Friend Zone and you'll never have sex with her regardless of what you do after that. (Go ahead and make a billion dollars, cure cancer, join a rock band, save the world, none of it will matter--once in the Friend Zone always in the Friend Zone, there is no getting out.)

Took me years to figure this one out, but once I did, I can't tell you how much easier (and better) life became. Once you realize that a woman you've known for more than 15 hours yet still haven't had sex with SHOULD AUTOMATICALLY BE NEXTED NO MATTER WHAT (because at that point she'll never have sex with you no matter what), it's like having the ultimate cheatcode to life--the time, money, energy (and heartache) you save, it's truly beyond measure.

Genetically_Awesome • 20 points • 1 July, 2016 08:51 PM

she's polarized you into the Friend Zone and you'll never have sex with her regardless of what you do

after that

Not true at all. Many girls I never got to bang in college are now my plates. If you go monk for a year or two and make huge improvements they see you as a new person.

[deleted] • 18 points • 1 July, 2016 10:25 PM

This is an exception. When they don't see you for two years the clock essentially resets, as the familiarity diminishes. Still, a two-year game plan isn't as effective as the methodology described by the OP.

DannyDemotta • 5 points • 2 July, 2016 03:42 PM

There's multiple exceptions then. Because as you improve yourself and get more outside female attention, the "inside" females will circle back and be like "maybe I was wrong about him?!" and consider giving it another shot, with newfound touching, attention, dancing, whatever. They'll go out of their way to communicate to you "hey friend, its OK to make another move on me, if you want. It might just work this time ☐ " - women always want to be on a winning team.

In this example I'm not talking acquaintances, I'm talking women you've known and hung out with 10, 15, 20+ times, for drinks, class homework, whatever. For randos - yeah, 15 hours is a great rule of thumb.

welcome_to • 7 points • 1 July, 2016 09:19 PM

I've been telling people about the 7 hour rule for the longest time, and no one ever believes me. Totally true.

IGoYouStayTwoAutumns • 1 point • 2 July, 2016 07:52 PM

It's funny, because I stumbled upon the 7-hour thing on my own (through MUCH trial and error), and then at one point a little while later I was reading something by Mystery (may have been his book), when he mentions the 7-hour thing, and I was like "Yep! Way ahead of ya buddy..."

[deleted] • 4 points • 1 July, 2016 08:33 PM*

That's so true. That's why betas keep getting pissed at women. They do all this shit thinking that if they just act nice to a woman every time they are in their presence and "be patient" she will eventually come around and have sex with him.

I had it happen to me in college where I could have fucked this chick who was really into me, but I didn't know and I'm pretty sure she lost interest in me after I didn't act on it.

brasileiro555 • 1 point • 3 July, 2016 11:14 PM

tell me something please, what if I had a chance in 7 hours windown and failed to pull the right trigger, acted beta... and she lost part of the attraction ... can I try again after somw time away and a better bodyshape, knowing she wanted me to be fitter, lean than i m... ahaha this is a oneitis of course, a very strong one, i became an orbiter... declared myself lol... she probably want me to marriage in few years because she got pissed when i said i would stop to talk to her because i cant be sane while seeing her.. i dont want marry her... i dont do favors... we only share good time with some flirtation and some kino, mostly light, sometimes harder...

IGoYouStayTwoAutumns • 1 point • 4 July, 2016 08:07 AM

Once you're in the Friend Zone you can never get back out. Go ahead and lose fat, gain muscle, make money, save the world, it doesn't matter. None of it will ever matter. No matter how much your physical appearance and / or life circumstances change, she will always see you as the "friend", the beta slave, and

never the alpha lover. You can never, ever overturn a woman's initial "imprint" of you--and in fact, if and when you DO improve your life, and come back around months or even years later (thinner, richer), not only will she not be impressed, she will actually be OFFENDED. Like "Who do you think you are, with this new body? And this new money? Why are you pretending to be someone you're not? Why are you LYING to me??" She'll see you as a sheep in wolf's clothing. There's absolutely no way around this.

Abundance mentality. Cut her off and move on. NEXT.

They will agree to do the kinkiest most fucked up shit because they can see in your eyes that you **want** it so goddamn badly.

You have to **want** it, not **need** it. If they don't give you what you want, you don't need them. Abundance mentality. Yada yada yada.

To achieve this end, value quantity of women over quality. This is old hat to many of you, but newbies take note. There's an epiphany waiting for you, that moment when you realize a woman you've known for 30 seconds is willing to do more for you than that girl you chased for 6 years.

game is DEFINATLY a shotgun approach. many bullets spread of an area. it's not like a sniper rifle where it shoots one bullet precisely

They want to fuck, go on an adventure, be told what to do, get into a dangerous situation, start some shit,

fuck up someone's day, save the world, ride on a motorcycle, see a movie, dance, sell shit on Etsy, cheat, stab you, eat mayonnaise, and run from a dinosaur.

what is this a lonely island song?

NightwingTRP • 3 points • 2 July, 2016 01:07 PM

eat mayonnaise

You have some odd adventures with women mate. You're gonna need to post some FRs or it didn't happen.

Pm_MeyourManBoobs • 3 points • 2 July, 2016 01:10 PM

First first rule. Stop giving a shit what women want.

Heathcliff--15 points 1 July, 2016 05:59 PM* **[recovered]**

Good post. Second nofap.

You won't believe the difference quitting masturbating has on you until you actually stop. There's not really any way to explain it, I'll try though; you care less about women's shit, you desire fucking much much more, every woman looks prettier, and you get angry easier.

I'm very very impatient after weeks of not fapping. I lose my temper and kick the shit out of elevators if they take too long to arrive. Never been that way before. Only testosterone can do that to you.

[deleted] • 4 points • 2 July, 2016 02:08 AM*

[deleted]

What is this?

SmokeyMcBlunt • 9 points • 1 July, 2016 08:01 PM

yea but... thats a good thing?

p3n1x • 7 points • 1 July, 2016 11:07 PM

Absolutely it is. Learning how to channel that energy into personal success and growth is very rewarding.

Personally, I don't go to the gym to taste the "chilled out" feeling. I do it to increase my health, focus, intensity and a desirable appearance and reward my male body/brain with testosterone.

You won't get there yawning and fapping to what you wish you were doing

GoingTheHardWay • 9 points • 1 July, 2016 08:27 PM

Beyond a week or so and it's mostly just in your head. Your body starts to recycle your "mojo" at this point. semi-regular release is healthy and will still maintain your libido - if not, you can edge yourself a few days a week to maintain that.

The benefits come from not using fapping as a vice to distract or appease you (like cigarettes and other addictions).

I would argue that EVERYONE would benefit from cutting out porn entirely - but that should not be confused with no-fap. I would argue that no-fap (100%) isn't going to be any more effective for the vast majority of men than cutting it down to once or twice a week.

They main point isn't that the activity itself is bad for you, just how you use it. Like food - eating isn't bad in itself, you need to do it to be healthy, but what you eat, how often, and WHY you eat are the things you need

to pay attention to.

WolfOfAnarchy • -1 points • 2 July, 2016 11:30 AM

This is so funny, you think that after a week of quitting a daily insanely complex (neurochemical) habit, nothing actually changes? You'd have to be nuts to think that.

NoFap changes you

[deleted] • 1 point • 3 July, 2016 02:32 AM

once a week is fine. any benefit will go away after a week, masturbation can clear your head and provide stress relief as well.

moderation

WolfOfAnarchy • 0 points • 3 July, 2016 05:13 AM

Bullshit, you're rationalizing.

[deleted] • 0 points • 3 July, 2016 05:51 AM

Once a week? come on man

There's a limit, it goes both ways. If you're pent up and don't have a release then that can have a negative effect. Stress effects your life negatively.

WolfOfAnarchy • 1 point • 3 July, 2016 06:15 AM

You can't stop thinking within your own reference frame. You are so accustomed to doing it.

There are no negative effects of stopping.

Stress is not released when you masturbate, it only makes you more stressed as a whole, not immediately, but over time.

GoingTheHardWay • 2 points • 22 July, 2016 09:36 PM

Old thread now but thought i'd correct this comment chain a bit.

I'm not saying there was any negative side effects of never doing it again.

I'm saying that in my personal experience, after more than a week without release I start to lose some drive and feel my body settle into a lower "frequency" or sexual drive mode. I gone 3+ weeks without an issue a few times before. After 1 week I notice that my body "gives up" and - **for me anyway** - my sex drive actually reduces. As such, it was healthier for me to have weekly (more or less) release when needed.

I'll openly say that might not be true for everyone, and I'd never try to force that time frame or concept on anyone else. I'd recommend you adopt the same mentality as we all have different bodies and preferences - what's important is that we explore our limits and our vices to find what truly benefits us the most.

Elantris89 • 1 point • 9 August, 2016 03:33 AM

Yea, for me it probably wouldn't work - maybe with shorter time frame? In my teens I gave up masturbation for a month (I'm female). At the end of that period I just got very excited by sitting on a couch. Some incidental, sof touch and I was close to an orgasm. So my drive definitely didn't go away (:

[deleted] • 0 points • 3 July, 2016 06:21 AM

You can't stop thinking within your own reference frame.

roeddit1 points 2 July, 2016 02:49 AM [recovered]

What about sex every night?

Big_Daddy_PDX • 2 points • 3 July, 2016 12:39 AM

Getting laid is what men do. While it shouldn't be the only goal, success w/ women seems to help all the aspects of masculinity fall into place - you're doing the things men's should do.

There's a physical, mental payoff that comes from sex, that's and it shows in your swagger. You're never going to have swagger from masturbating. The times when my wife and I were regularly having threesomes w/ a few different girls, I was less anxious for the release but I felt drastically more virile and dangerous - literally DGAF. Every woman was in play and none were untouchable.

RavelsBolero • 1 point • 2 July, 2016 05:46 PM

[deleted] • 3 points • 1 July, 2016 05:13 PM

nsareadsmyemails • 3 points • 1 July, 2016 08:38 PM

Prior to RP this would be some crazy shit one would say while high and only while high. Just to entertain your beta friends and to laugh about it.

But this is the truth. I am just waking up to the realization that women make it so God damned easy for you to fuck them. I still don't get the signs sometimes because of some ingrained RP shit and time and again try to put them on a pedestal, soon as I do that they're gone. Nothing turns a woman off quicker than a guy that topics them on a pedestal.

Womens are like cats, let them come to you. Store them and let them go. I haven't mastered this, but I am on my way.

Back to lifting. Shoulder day today.

[deleted] • 5 points • 1 July, 2016 11:07 PM

If they smile and make eye contact for an abnormal amount of time, ie. outside of the comfort zone doing the same to a male friend, she's in to you.

JustTitDirt • 3 points • 1 July, 2016 09:06 PM

I don't go out of my way to talk to any one. I pay attention to ioi's rather than waste my time

PantsonFire1234 • 3 points • 2 July, 2016 01:28 AM

She'll smell your "kind of" interest, return a "kind of" interest

My worst fear has always been giving off a to strong "I'm into you" vibe. Nothing terrifies me more than a woman falling head over heels for me. I'm not joking.

This one time two girls walked up to me from across the bar, I was being my usual fun self. It was still early enough for them to overhear my conversation. I was making some joke about finding and dancing with my soulmate.

The hotter girl of the two actually went out and said she'd volunteer happily for the role and gave me all the googly eyes you can expect. Arms hanging off my shoulder, head cocked slightly, with a look of expectation. I made a smirk, threw some uncaring asshole charming line so not to openly reject her. Took a big gulp off my beer, got out of my seat, walked out the bar and puked in the back alley.

I had the shakes for about twenty minutes until my friend passed me the J and promised we'd hit another club afterward. Usually my reaction isn't that intense but definitely can't describe it as positive.

Consequently I'm perfectly fine plating, flirting and seducing a woman on my own accord. But the moment she goes all 'loveydovey' on me I'm spooked.

People have called me a coward and a pussy shaming me for my commitment phobia, fuck that. Honestly what's up?

JackGetsIt • 4 points • 2 July, 2016 02:27 AM

This is a bit of a weird post but I appreciate the honesty. Just because a girl is so into your vibe that she approaches doesn't necessary mean she wants to commit to you and have your kids. But your right I've had women approach me as well and it almost feels too easy (and normally it's an easy hook up).

It's the right dynamic if you are approaching her. It's just sad if she has to approach you.

PantsonFire1234 • 2 points • 2 July, 2016 12:34 PM

Princely, doesn't feel right most of the time. These women give up some weird vibe. I've only had physical reactions like that when it was clearly stated she'd like to pursue commitment.

JackGetsIt • 2 points • 2 July, 2016 12:49 PM

clearly stated she'd like to pursue commitment.

That makes a little more sense.

kaane • 3 points • 2 July, 2016 07:57 AM

You've simply had a normal sexual interaction between a masculine male and a feminine female. It is an interaction that not many people understand anymore but that everyone craves

This defines the core of the relationship between a man and a woman. Most of the people, PUA's, RP'ers miss this point and think that "fake it till you make it" bullshit would save them. You can't fake a genuine attraction

You're more likely to get open eager honest sexuality from a woman within minutes of meeting you than you are in 3 years of dancing around the subject. Be up front, be honest, and in a quick few seconds she'll tell you with words or body language all that you need to know about who is likely to get what, when, and how (the politics of getting your dick wet). That's minutes invested rather than years wasted

If you can't get into her pants in 3 days, the chances are you won't get her forever. If this is what you want, you should next her and go to some other willing woman.

This post was one of the rare quality posts here written to date. Experience, knowledge and a clear understanding of what's ideal and what's real (i.e. available)

GL_HaveFun • 3 points • 3 July, 2016 02:11 AM

Yea I'm all about that...yea...great...

I've had the HB8 (off the charts 12 to me but trying to be objective) treat me like a king. REAL desire. I can't go back to anything less...but I lost it. Lung failure and a whole host of crap I just...FFFUUUUUUU this post just makes me angry. Being told it'll be a miracle if I live the year and lose this girl... the feels are overpowering.

Here's a question - I think I'm a natural alpha/beta. I seem to intimidate women with my demeanor/looks (literally been told this multiple times) but when I open up and give someone my heart it's like I'm super beta-male because I'm a Christian and I LOVE helping people. I don't have "game" because women come to me and always have so now I'm trying to relearn what makes me "ME" in a sense because of all this...well I've got a feeding tube I'm on oxygen and might not make the year.

Sorry to hijack thread. Bit lost these days.

rombios • 6 points • 1 July, 2016 05:55 PM

a good release now and again before going out to a social function ("hunting") helps with the IDGAF attitude necessary for maintaining your "frame" and avoiding bad choices

[deleted] • 11 points • 1 July, 2016 05:58 PM

I think that's only if you lack abundance mentality. If you're scared of putting it out there and fucking up, you'll rein yourself in and limit your chances to make mistakes. Then another man who actually doesn't give a fuck has a chance to show up, make some funny and interesting mistakes, and get what he wants.

GoingTheHardWay • 3 points • 1 July, 2016 08:21 PM

Having guaranteed sex lined up (escort or another girl) is better in almost every way. You keep your mojo, you DGAF, and you till get laid no matter what.

rombios • 7 points • 2 July, 2016 12:07 AM

it rarely happens that way. its still a numbers game and i find my focus is stronger when its not nagging at me.

a starving man will take any thing put in front of him. an even half fed man would be judicious in his approach.

women can spot the starving look and demeanor a mile away.

before you get to abundance, youve gotta approach, seduce, plate, rinse and repeat. i find it easier done on a clear head and not with my tongue hanging out my mouth

casemodsalt • 5 points • 1 July, 2016 10:44 PM

Stop masturbating

I can find porn of a girl that matches the description of a girl i see in public and bust a nut in less time than it takes to get a girls name.

Women need to step it up. We make the money.

Stay busy. I'm sure the nofap subreddit has some tips.

CashFrag • 2 points • 2 July, 2016 04:08 AM

This is an excellent post.

Even now I find myself keeping chat alive with girls, I've experienced it before when a girl has been head over heels for me and dull conversations are not it.

Time to stop with the conversation queues and just continue doing me. If she's not putting effort into conversing with me that should be a blatant sign of dis-interest.

Thanks for putting that into fantastic words for me

Rynolz • 2 points • 2 July, 2016 03:53 PM

“Those pimps back in the joint sure knew basic whorology. I was glad my ears had flapped to all those rundowns. They had said, “Chase a whore, you get a chump’s weak cop. Stalk a whore, you get a pimp’s strong cop.” My turn down of her measly first offer had her jumpy. It was a slick sharp hook twisting in the bitch’s mind. Her juicy tongue darted out like a red lizard past her ivory teeth. It slithered over the full lips. She wiggled toward me in an uneven race with the bar keep.”

Excerpt From: Slim, Iceberg. “Pimp.”

[deleted] • 1 point • 2 July, 2016 04:34 PM

I've read it cover to cover.

I think your quote points to one of the great obstacles for recovering men: Not wanting to seem like creeps.

But really every woman wants a creep - she just wants the one who pushes all the right buttons. A true unattractive creep is one without style, without substance, who ignores her boundaries because he is unaware of the situation.

The sexy stalker, the attractive creep, is the one who obviously knows what he's doing, has clearly done it before, and is simply stopping for another thrill on his way through life. He puts all his chips on the table for one night but never for more than that.

The unattractive dangerous stalker is one who invests everything in one woman.

The attractive stalker is never that invested but makes no apologies for the feelings he's having right now.

[deleted] • 2 points • 3 July, 2016 02:10 AM

There is a new girl at work who is extremely interested in me. It's almost exactly what you talk about in this post. She's all over me while I have essentially done nothing. It's just a great contrast compared to girls who will not give you the time of day. Knowing if someone is interested or not from the get go will save you so much time and frustration.

[deleted] • 2 points • 3 July, 2016 04:13 PM

I agree on this. A chick getting the hungry eyes when seeing you is the purest and most primal form of human attraction. Experiencing that is really cool

somefrommars • 1 point • 5 July, 2016 10:42 PM*

Say that again. 6 girls have given me a primal stare and smiled for once in my life; this happened all in the same year when I was in my best shape and lost so much weight. It was in 2014 when I was 18. Looking back on it; it felt so good though I was shy then to realize, what a rare experience it is, since it happened for the first time in my life.

stawek • 1 point • 1 July, 2016 08:50 PM

While the science of this post is dubious at least, it is fucking *poetic*. Will take the advice.

stawek • 2 points • 1 July, 2016 11:10 PM*

About jerking off.. let's use logic.

We are animals. Animals are simple. DNA can only encode the simplest of behaviours.

When you jerk off, what does your body/primordial brain think? "I don't know what we're doing here, but it must be good, cause we fulfilled our utmost goal: sex. KEEP DOING IT"

Whatever you are doing now, even if it's playing WoW and jerking off, your brain thinks you are spreading the genes. Changing these behaviours will be hard.

edited for clarity

Aarxmw • 3 points • 2 July, 2016 12:18 AM

You used good logic but essentially wrote a preceding statement without a point or conclusion, I'm not sure if you're saying stop jacking it so that our body knows it has to reproduce, or if you're saying that you can't help but jack it because your body is forcing you too.

I'm not good at chatting up women, mainly because I can't stand the pointless, childish, innocuous drivel that women vomit from their mouths. It's like trying to force myself to start a conversation with the guy at the gas station who spits while he talks; not something I seek out.

However, I can work hard, with speed and intensity. So, for a while, I'll stop approaching and let nature take it's course.

Thanks for the post OP.

Big_Daddy_PDX • 2 points • 3 July, 2016 12:51 AM

Maybe it's your attribute toward women that needs adjustment. They see you coming a mile away with your "dogs are stupid, I don't like hearing them bark" attitude. That's surface level fakery and probably the reason your approaches fail. When you are so into yourself that you can't bring yourself to talk to another person c you think they're a waste of your time, you model your true personality. Enjoy the ride, engage w/ people and try not to be so full of yourself that other people avoid you.

Rynolz • 1 point • 2 July, 2016 08:50 PM

plasticslug • 1 point • 1 July, 2016 07:59 PM

I am 100% for this but for me the "interested" parties are low as fuck, seriously probably 3 out of 50 women, and annually I come across 33 women (social interactions).

But it falls back on me to be more social, get out there etc, but still with low levels of interest vs high amounts of social interaction I have said fuck it and now spend that time in myself, leading to monk mode hardcore version.

SmokeyMcBlunt • 1 point • 1 July, 2016 08:04 PM

If you go out after a week of not cumming, women will look at you from across the room with hopeful and begging eyes. They will say things to you and not know why. They will agree to do the kinkiest most fucked up shit because they can see in your eyes that you want it so goddamn badly. They will feel your leadership and use all your commands as refreshing and simplifying direction in their too-many-choices what-am-I-doing pointless lives.

And they absolutely, certainly, posi-fucking-tively won't just want to talk.

Even if ur average? I have my doubts.

[deleted] • 1 point • 1 July, 2016 08:20 PM

I love how you were able to connect the desire we have towards women to the passions we enjoy in life. The deeper we are in improving ourselves, the more women will want to follow.

Kwantuum • 1 point • 1 July, 2016 08:42 PM

I'm not sure I agree with the minutia of this post but the main point can't be overstated: if you have to work for her it very quickly becomes more effective and rewarding to just next her. Mutual attraction is decided very quickly and having to build attraction brick by brick is not worth the time and effort.

whyalwaysm3 • 1 point • 2 July, 2016 02:20 AM

"Hey I saw you and I just want to talk"... That's a terrible opener lmao I hope you really don't approach women like that lol

zzttgg • -1 points • 2 July, 2016 03:49 AM

I view women as nothing more than pieces of meat. Objects for my enjoyment. How can you get sad if an object does not like you ? You do not get upset if you cannot afford a new car. You just get a second job and go buy one. Likewise, women are objects to be bought and sold. They're not even whores, because to be a whore requires some conscious decision. They're more like mindless cattle, who attach themselves to the highest status male they can find.

jameygates • 0 points • 2 July, 2016 04:06 AM

Is this sub okay with comments like this?

zzttgg • 2 points • 2 July, 2016 04:18 AM

What is wrong with my comment ? Do you think all people have to have women up on a pedestal ?

jameygates • 1 point • 2 July, 2016 04:56 AM

Yeah you shouldn't put women on a pedistal but you should never see a sentient living being is a mere object, period.

Men and women have different natures, and people need to realize that more. But damm think about your mother, or do you have any female friends at all?

zzttgg • 2 points • 2 July, 2016 05:06 AM

I have many female friends. We slip in and out of friendships all the time. Friendship is worth zero.

My mother is not a woman. She is my mother. There is a special relationship between parent and child which transcends normal human interaction. This applies to a lesser to degree to extended family.

Men can be my brothers. I can depend on men to be on my side because men work together to

achieve things. Regardless there is always an implied knowledge that such brotherhood means nothing the second it stops being convenient.

Women do not do any of this they're entirely selfish with everything. Women just sit around and wait to get fucked. So to me, they're on par with an object. An object has about as much empathy for me and my feelings as a woman would, so why should I care more about women than they would care about me ?

jameygates • 1 point • 2 July, 2016 05:11 AM

You are just extremely radical, plain and simple.

[deleted] • 7 points • 2 July, 2016 09:56 AM

This sub is mostly people like the guy you're talking to whom are squarely stuck in the anger phase now so you won't get any support here. His immediate reaction to you being concerned that he looks at women as pieces of meat of going to the other extreme of putting pussy on the pedestal is laughable.

TRP teaches that women are different from men and have different wants, values, and desires that they are either not consciously aware of or have been told are wrong by the SJW crowd. It does not teach that women are sub human trash.

Just wanted to say thank you. My ex and I have struggled through having different career paths while being long distance and broke up about a month ago. She kept telling me that she loved me, but wanted someone that would be there with her. I don't blame her. But she messaged me yesterday and has been nice and flirty, but still leaves her wall up. Of course it makes me miss her more after talking to her and I was of course falling back in love with her. I have been feeling really anxious about everything until I read your post. I just happened to come across it while scrolling the front page and wanted to say thank you. You make a good point and it is a post that goes farther than just getting a few upvotes.

For others reading ch91's comment, TLDR: "Thank you for the post". What are you going to do with your girlfriend dude??

I'm just gonna focus on me for the time being. She has a lot to figure out and it's better for me to take a step back from it all instead of pushing her one way or another. Thanks for the reply man

Makes at least some sense until you start treating women like objects. Quantity over Quality? Have fun with that STD.

natman2939 • 1 point • 2 July, 2016 09:14 AM

objects

Not objects. Just women. Not to be confused with men. The problem with a lot of people they'll tell you "women aren't objects. They're people like you and me."

Right and wrong. They're not objects but they're not like you and me. Women are not like men. If you treat

them the same as you would a man (using same logic and behavior and social cues) you'll fail

The problem with the "they're just people like you and me" line is it implies that there's no major difference between men and women

But the whole Mars and Venus thing is spot on

I'm late to this thread and this comment won't get read much but the only thing I'd add is that if you approach a woman and she shit tests you, that doesn't mean she's not interested. Every guy should get comfortable with pushing past a few shit tests on approach. In fact if she throws herself at you and doesn't put up some token resistance she's probably not the type of girl you want anyway.

Nice, but it still boils down to options because it will create tingles 24hrs a day that's why alphas in ltr get what he wants from her closing time has nothing to do with it i can wait to fuck her when im ready now that's confidence i think you need more knowledge on female nature because there is no logic and blueprint for dealing with women its all primal and instinctive you seem like you are trying too hard to act alpha she will see thru it quickly and fade you, another thing your post is very long which means your self esteem is down because a true alpha will get right to the point with conviction and small talk because his sexual needs are met dont ever put this much effort into women thier not worth it just be brief and truthful.
