Shes so creative she can smash two things together with no context.

Cool painting but fuck, be original.

This guy gets it.

She took popular trends (Pepe, *The Last Supper*) which already established a following and is tooling them to her benefit.

She isn't creating, she's broadcasting. Even the guy who created Pepe didn't predict what influence it was going to make politically.

Where's that image of how a guy takes a photo of something vs how a woman takes a photo of something?

Yes, thank you.

If a guy painted that you wouldn't even know what the artist looked like. He'd take a pic of his whole painting.

You can enjoy the frogs without having to get the woman involved!
