If only Chad fucks, only Chad could be spermjacked, granted with STDs and falsely accused of rape.
World where alpha fux & bux simultaneously would be interesting place,..

Destroy themselves in addictions, cat piss and mental illness...

candleelit • 15 points • 5 August, 2019 05:56 PM

Some of them, sure. I think the younger ones will pretend like they don't care and slowly retrogress into a more feminine version of themselves and try their best to trick men with their masks on. Women are sneaky.

Anonymoose_wrex • 20 points • 5 August, 2019 02:40 PM

The better question is; why should we care?

RedMeatTrinket • 11 points • 5 August, 2019 02:53 PM

Stop having money?

peguy2000 • 8 points • 5 August, 2019 02:06 PM

Have sex with horses

NathanHollister • 9 points • 5 August, 2019 03:47 PM

in 18 years and 9 months they would all starve to death, without any way to steal money from men

AlsoColuphid[] • 3 points • 5 August, 2019 06:25 PM

Not only that, but if men were to disappear 90% of women would be dead within a year. The remaining 10% would be dead within five.

[deleted] • 5 points • 5 August, 2019 02:50 PM

They'd pull a Cardi B

TigPlaze • 5 points • 5 August, 2019 02:19 PM

Use dildoes.

DWShimoda • 3 points • 5 August, 2019 03:11 PM

Duh... chase after "boys."

Which many of them already do. That includes "Bad boys" and yes, even "School boys."

Miggymoggy • 5 points • 5 August, 2019 05:24 PM

It should be "So if men stopped being a walking ATM, what would women do?" - The majority of them would do nothing as they'd have no backup plan and be financially ruined in a matter of days as women needs money from a man like a junkie needs a fix.

I bet on a night out that a woman has at most a £10 note and arrives home with at least £8.

Who cares? They don't have hobbies, I do. Thats all that matters, as far as I'm concerned.

BlueRaven_01 • -4 points • 5 August, 2019 08:29 PM

"They don't have hobbies"

Have you ever actually held a conversation with a woman? The way you seem to talk some people makes it sound like your talking about a different species.

ihnrva • 3 points • 5 August, 2019 08:44 PM

Eating, Netflix and naps aren't hobbies.

BlueRaven_01 • 2 points • 5 August, 2019 09:00 PM

That's fair. I wouldn't really say they are either.

But there's plenty of other hobbies that people do.

I think nearly every girl I know has more hobbies outside of that. Maybe my old Roommate is the outlier to that but she liked to cook witch is almost a hobby of itself. I mean like really cook, put an entire days effort into it you know? Very relaxing I find. I'm partial to it myself.

One of my female friends (Late 30s) just got into industrial crafts. This was her first real hobby, her words, not mine. She says she's never had a real hobby before. I was shocked.

shatterthecrystal63 • 3 points • 5 August, 2019 09:00 PM

Have you ever actually held a productive conversation with a woman?

BlueRaven_01 • 1 point • 5 August, 2019 09:11 PM

Yes. Witch is why I am of the belief they have hobbies. And life's and things beyond wanting to free load.

shatterthecrystal63 • 1 point • 5 August, 2019 09:13 PM

Well good for them, if they're happy whoop dee doo.

NeverNeverLandIsNow • 3 points • 5 August, 2019 06:40 PM

Well the world population would become much more reasonable fairly quickly (although very soon it would also be a real issue for the human race), traffic would improve and men might have an easier time finding bros to hang out with since they would not be wasting their time chasing pussy. As far as what women would do? I don't know, probably bitch and complain about men, I mean that is what they do now no matter what we do so why would that change?

lone_nordic_wolf • 2 points • 5 August, 2019 02:12 PM

I'm guessing a significant portion would swing to lesbian sex and the rest rely on only self-fulfillment. Those who can't hook up with their own or aren't willing to follow those options will be forced to abstain.

Pretty sure we'd see the murder rate increase.

Electronic_Record • 2 points • 5 August, 2019 04:20 PM

Open up her drawer full of dildos and vibrators. What are you 12?

[deleted] • 2 points • 5 August, 2019 10:32 PM

This is a non issue, there would always be enough chads to please them all. Real questions is what will happen when men will stop marrying..

chipwhitch • 1 point • 5 August, 2019 03:51 PM

Date each other

MuleFool42 • 1 point • 5 August, 2019 09:10 PM

Have sex with each other.

The question and its context are dumb, my answer is the truth that you all aren't willing to admit. If you all want to go your own way, why don't you first start by leaving us alone entirely?

I like sex, as do many other women. But vibrators out-do men in terms of performance easily--orgasms are far more intense with vibrators and being single as a woman means you have less of a chance of getting killed by an intimate partner. You can make a rebuttal as OP did with the fleshlight reference, but OP is also still on Tinder, actively seeking out women, so what does that tell you?

I mean this entire sub is proof that you all are obsessed with us despite hating us and claiming to "go your own way." So why do you need sex? Can't you just get a fleshlight and leave women alone? Save yourself the mental energy of *having to deal with a woman*?

thealleycatking • 2 points • 5 August, 2019 06:01 PM

I'd rather use a flesh light. Least it can get it me off

twoXfeminist • -1 points • 5 August, 2019 06:05 PM

Would you though? I mean you're on Tinder according to your past posts so clearly you're voluntarily looking to waste your time engaging with women—likely for sex.

thealleycatking • 2 points • 5 August, 2019 06:10 PM

I'm on there for conversation. That's it.

twoXfeminist • -1 points • 5 August, 2019 06:15 PM

Still, you're engaging with women despite seeing them as inferior. That sounds like a waste of time for a man who is supposedly *going his own way* as this sub would suggest.

thealleycatking • 1 point • 5 August, 2019 06:22 PM

I don't see women as inferior. I see women as equals. I can still engage, interact, and socialize with women and still "go my own way." Some of my best friends are female. I just don't want to be in a relationship because I've been fucked over every time. This subreddit is to look back to the past, criticize women and the relationships we've been in, and talk about how we are moving on from that. If this post was anywhere else on the internet, I'd get chastised for it publicly.

twoXfeminist • 1 point • 5 August, 2019 06:35 PM*

Yeah right...*relationship issues*, you mean blatant misogyny. One of the top posts is generalizing how women can't recognize math. Others are shitting on engagement announcements, saying that the woman is probably a whore and will definitely cheat on her "beta male" partner. Others are whining about women receiving custody of their children and child support payments from the absent father.

I won't get into the others because the list really goes on—it's just the same nitpicking over and over again. You're all truly obsessed. It's not healthy, it's just an echo chamber of misogyny. Do women a favor and **actually go your own way** by leaving us the fuck alone.
