who here would actually give their male friend their last \$20 to borrow?

psikosen • 78 points • 2 January, 2019 05:43 AM

I've done it before, when you have really close friends who are there for you, it all works out. But, only for my homeboys

adamrockblackandblue • 30 points • 2 January, 2019 09:02 AM

I can loan something out once. If I get my money back, then I will loan them something again in the future, if not then we don't need to be friends anymore. Case in point, I have a meth head friend that I loaned \$100 to and I knew this guy from years ago that would snap at me if I asked for the \$20 I loaned him. My meth head friend did get me back a week later, and I'm still his friend. It's a trust thing, you can only let someone burn you once. After that, it's pure simpin'.

No, I do not smoke meth. And hope my friend quits one day, but I think he's going to die young instead to tell the honest to God truth.

juice_bomb • 16 points • 2 January, 2019 12:34 PM

my best mate bailed me out \$200 overseas when i had no pay cheque for two weeks and i know he also lives pay cheque to pay cheque...

incelinthirty • 7 points • 2 January, 2019 02:15 PM

I can guarantee that no female would do that for their friend even if they have \$1 million in bank.

[deleted] • 16 points • 2 January, 2019 05:18 AM

I would. If I'm below \$100 I always have a trip to the bank already planned that day.

SingleManDR • 18 points • 2 January, 2019 12:42 PM

I'm not sure you're getting the concept of 'last \$20'

KuonRad • 12 points • 2 January, 2019 12:27 PM

borrowed 2 grand from a friend - I dare to say a BROTHER- , gave them back 5 days later , bought him a luccullian lunch. That's how it should work

Curious_Oogway • 5 points • 2 January, 2019 05:50 AM*

I did it once. Next day I had to borrow money from another friend.

scarbrough1996 • 3 points • 2 January, 2019 12:39 PM

i do it to help people out

frikabg • 3 points • 2 January, 2019 12:43 PM

20\$? How is this any type of amount of cash that you need to think about?!? I was raised in a poor country and even there 20\$ is nothing. I have borrowed 20\$ + more times than i can remember not because i am rich

but because men that were close to me really needed it and 80% of the time they return the cash on time the rest is learning experience. Women on the other hand pfff yeah good luck collecting that loan.

CeleritySteam • 3 points • 2 January, 2019 08:23 PM

Know that saying if you lend 20 dollars and don't get it back you just spent 20 dollars and learned you don't have a friend? That's why it's there.

frikabg • 2 points • 2 January, 2019 10:08 PM

totally agree and as horrible as this sounds this should be extended to brothers sisters etc. NO ONE should be above this shit test and i do mean NO ONE!

[deleted] • 3 points • 2 January, 2019 07:21 PM

I loaned my friend \$700 bucks for rent. So yes I would loan it to my male friend.

SwoopDaWooo • 2 points • 2 January, 2019 10:10 AM

Ive done it before. I wont just give anyone any money, though, and its usually to buy food.

fruguy • 2 points • 2 January, 2019 11:46 AM

I have two close friends who I'd have no problem giving money to. They'd do the same for me.

PSGGSP-Aus91 • 2 points • 2 January, 2019 02:07 PM

Before I had children...yes I would, but these days no, me feeding my children will be the last thing I spend my last \$20 on.

Careful_Description • 2 points • 2 January, 2019 02:22 PM

I've given thousands to my bros who didn't even need it. And they paid me back.

eltonl • 2 points • 2 January, 2019 02:51 PM

I wouldnt do it. Giving my last \$20 means that Im already fucked up. If I have spare money no problem. I have given a friend of mine \$500.

Fyodor007 • 1 point • 2 January, 2019 03:37 PM

I covered a buddy's rent when he lost his job, years ago. It was around \$1000 if I remember right and it was all the money I had at the time. He eventually paid it back when he could.

Asclepius226 • 1 point • 2 January, 2019 08:42 PM

I once gave over \$1000 to my half-brother because he was in debt, but that might be a little different. Also, he paid me back like he promised he would.

ruby362 • 1 point • 2 January, 2019 11:37 PM

Who wouldn't?

strakith • 1 point • 3 January, 2019 05:08 AM

Depends on the circumstances, but if they needed it and I didn't, absolutely.

Azul56 • 1 point • 3 January, 2019 09:32 PM

I've done it multiple times.

To me lads are lol my family.

That's how you treat your friends, like you treat your family.

thequarenteenpill • -11 points • 2 January, 2019 05:17 AM

so his simp ass can waste it on a female

DarkNights292 • 16 points • 2 January, 2019 05:18 AM

I would if he really needed it..like if he was out of food etc. Not just for a female

[deleted] • 9 points • 2 January, 2019 06:34 AM

Last time I did the madman used it to buy himself a Bismarck figure (kancolle)

Weebs will spend it on females w/o being simps about it lmao

German992 • 35 points • 2 January, 2019 05:34 AM

Dog without legs; crawls to attack and bite to defend you.

So, a woman is about as useful as a cat. Especially since a cat can give you toxoplasmosis.

TheTastelessBatman • 11 points • 2 January, 2019 08:49 AM

It's actually true. Cats are like woman, and dogs are like men. Ever notice how a dog would fall in love with anyone but a cat would only come to you when s/he wants to and ignore if you go after s/he. And oh she'd definitely come to you if you got snacks (money).

loneBroWithCat • 10 points • 2 January, 2019 09:38 AM

Every cat is different. My cat-bro always hanging around me and never comes for snacks - he don't eat hoomans food at all

RIP Kevin.

Sandbagicus • 22 points • 2 January, 2019 06:43 AM

there is no point in having a female friend unless you're having sex with her.

Women think that the men and women can be friends but it's a lie.

[deleted] • 14 points • 2 January, 2019 08:09 AM

Never seen the point, myself.

No_Weekend • 18 points • 2 January, 2019 07:31 AM

I've done really well with women and people in general. If someone you love dies and you need time to process it, most women who really liked you and considered you a close friend will tell you to get fucked.

Some are good friends and follow through but it's just so rare it's not worth trying. Guys are way more loyal.

DarkNights292 • 11 points • 2 January, 2019 07:40 AM

Truth man, whenever I would have a crisis, women would be like toughen up or just say I am sorry. Men would actually try to help, would fight for me etc..

fruguy • 13 points • 2 January, 2019 12:23 PM

Not much of a friend then.

SingleManDR • 8 points • 2 January, 2019 12:44 PM

You are the average of the five people you hang with. It's harsh, but you have to evaluate the people you're around if you want to improve your own lot. I did this, I don't miss those people.

Kwen_Oellogg • 11 points • 2 January, 2019 05:55 AM

No. If you were stuck in a burning vehicle she would start taking selfies with you dying in the background.

Azerov • 2 points • 2 January, 2019 05:08 PM

'OMG GUYYYYS HOPE THIS HEAT DONT MESS UP MY HAAAIIRRRR' Caption of said selfies.

flee_market • 11 points • 2 January, 2019 05:36 AM

Stands at a safe distance and takes a selfie with her phone you mean.

They sure don't exist in America! And I don't speak a foreign language to good anyway and they probably have their problems over there.

Whitegamerinc_Twitch • 10 points • 2 January, 2019 08:22 AM

AWALT. Doesn't matter what type of woman you talk about in general, they all act the same regardless of the archetype they fit into.

askmrcia • 2 points • 2 January, 2019 11:50 PM

It seems like a lot of the women that are spoken about or mentioned in this subreddit are generally the ones who are at parties every weekend until their 30's. Which I think, is barely 10% of all women.

No, you're wrong. It's not that they party, but they are out in bars, happy hours, beer tasting festivities and online dating. That's far more than 10%. I have no idea why you think it's that low.

Quiet girls? Boy you have a lot to learn. I'm sure every guy on here is smart enough to avoid party girl sluts. The problem is girls act shy, quiet and introverted and slept with more men than everyone on this sub has

with women combined.

I have many examples of women who I thought were shy and introverted either hooked up with me on the first night or hooked up with far more people than I.

If you want I can give you a shit ton of stories. You would not believe how many women I know that claim they are introverted or homebodies but been ran through so many men.

I suspect you don't have a lot of experience with women because men that has experience with women will tell you that it's not just college sorority girls that are sluts.

amimang78 • 3 points • 2 January, 2019 11:55 PM

I guess the number could definitely be higher than that. A lot of people misunderstand what I said though: I said that most of the women that are spoken of in this subreddit are usually college sorority girls. I never really hear much on the “quiet girls.” I’m a high school student, so I see a lot of young women around me. They all brag about the same things, partying, drinking, and the dick they got last weekend. But I thought maybe thats just high school. If you’d be willing to share your experiences with me I’m more than happy to listen though.

askmrcia • 3 points • 3 January, 2019 12:33 AM

You're in high school. You have not experienced anything yet. When inexperienced high school girls go to college they sleep around because they are away from home and they want to experience new things.

Azul56 • 1 point • 3 January, 2019 09:39 PM

I agree with you, but is also has to do a lot with culture.

Different countries and cultures approach things differently.

PactEU • -11 points • 2 January, 2019 10:23 AM

Meh most people here are as bad as the feminists they claim to oppose. Feminists take 1 extreme example of men and project it as the patriarchy.

Some people here take 1 30 year old “free spirited” modern woman I would swerve 30 meters around in real life and project it on the entire female population. If you think like that your common sense is just as far gone as the people you claim to oppose.

I think it’s barely 0.01% of all women, the ones that are worth spending time with are generally not the outspoken ones posting their ass on instagram and the women posting bullshit on social media.

You want to know where the true loyal, lovely women have gone? Doing their own thing, in the background. The ones that don’t care for extreme validation and don’t have the need to parade their ass around everywhere, however they are harder to find. But yeah, if you look for the light you might eventually find it. If you look for darkness, it’s all you will ever see.

incelinthirty • 6 points • 2 January, 2019 02:18 PM

After so much white knighting, you must be exhausted. Why don't you take some rest now?

PactEU • -4 points • 2 January, 2019 03:49 PM*

Whatever man :P

If you wanna play it personal that’s alright, just posting my view.

[deleted] • 4 points • 2 January, 2019 04:56 PM

I was following through with you until i got to that "0.01% statistic" , now how the fuck would you know the numbers? And the more important question, why do you think it matters?

People are here not because of statistics, but because of their personal experience with life.

Should people start giving up their life perspective because of your bullshit percents?

I think not.

PactEU • 1 point • 3 January, 2019 10:05 AM

I never gave hard numbers, I don't know the numbers. I just said I think it's a lot lower than the person before me with a slight exeggeration for dramatic purposes.

But I think the western outspoken part of the female population we speak about are quite a little percentile on the world scale. It matters since I don't think you should live your life in discomfort towards women based on echo chambering bullshit about them, that's just my point of view. You can do with it what you want, agree to disagree.

I never said you should give up on anything, I just gave you my point of view as you give me yours. The fact you see it as a personal attack is very interesting to me.

I just wanted to say it's just very ridiculous to vastly overgeneralise everything based on singular or single digit experiences, that is all.
