

What the fuck is up with horse girls.

June 26, 2017 | 114 upvotes | by [bostonburrito](#)

Before I started actually getting laid I thought the "horse girls are crazy" thing was just a meme. But living in a rural city I've now had my fair share of five self-proclaimed horse lovers and not one of them didn't have at least one screw loose. Is there a legit reason behind this conundrum?

Horse girls are crazy cat ladies with more money.

Luis_McLovin • 26 points • 26 June, 2017 03:09 PM

This, as well as horse girls are typically surrounded by other horse girls and not men. They can be quite thirsty.

100% truth. I dated a horse girl. She had BP disorder. Biggest slut ever, as in, not even my 15 year old wild sex drive could keep up with her demands. If we weren't walking or sleeping, she wanted to be fucking. Something always seemed off about her, she was pretty though so I rolled with it and didn't really care. I got the feeling she could one day work herself into a fit of rage and stab a guy 96 times to death.

DaboclesTheGreat • 3 points • 25 July, 2017 04:31 PM

Can I get her number, bro?

max_peenor • 9 points • 26 June, 2017 05:16 PM

Yes. Money and an obsessive personality tends to be a powerful forge of The Crazy.

I'll add that dog ladies are just crazy cat ladies that develop craziness early in their lives.

I'm sure about this fact as I'm guilty of LTR more than one of them before I realize my own craziness.

My bad, try to do as I preach and not as I have done.

Loving dogs "pets" more than human being is a madness mark but linking females who show this trait is even more madness.

420PussyEater • 1 point • 26 June, 2017 08:05 PM

A subset I have seen is the pit bull lady. My ex loved her dogs more than herself. I'm convinced it's worse than normal pet love because of the hate pits have centered around them.

Shit.

Came here to say this.

Kommanderdude • 64 points • 26 June, 2017 01:22 PM

Idk. But my cousin is a horse girl. She's also a former stripper and has 3 kids from 3 different men and has custody of non of them. Barely has money for anything but her horses sure as hell have everything they need.

[deleted] • 17 points • 26 June, 2017 08:26 PM

What the fuck

Kommanderdude • 11 points • 26 June, 2017 11:22 PM

Yeah and get this. One of them doesn't even know he has a kid with her. She suckered some rich guy into believing it was his. When the relationship inevitably went south his parents convinced him to get a paternity test. Luckily good money buys good lawyers and he was able to wash his hands of her and her kid. Then she managed to find some blue pill cuck that decided to legally adopt that child. And now she's pissy because he ended up with full custody of the kid since she's a total shit show.

dr_warlock • 11 points • 27 June, 2017 03:23 AM

Think about it, you have to have "good money and good lawyers" to have the 'privilege' of not raising another man's child in cases of paternity fraud.

Kommanderdude • 1 point • 27 June, 2017 12:48 PM

Yeah I don't think she pursued it too hard. Once he got the DNA test. They were married also. She got nothing from the divorce. It's really his fault for being a blue pill captain save a ho. They met at the strip club and he fell in love when he got a dance from her.

Frigzy • 41 points • 26 June, 2017 02:50 PM

Horses are gigantic babies that can make them orgasm without having their number.

Femininity solved. The rest of their existence becomes irrelevant.

SpinPlates • 43 points • 26 June, 2017 04:47 PM

I've plated 3 horse girls. 1 being a casual rider and 1 being professional jumper and the other a professional barrel racer.

The casual rider was a spoiled rich girl who abuses opiate pills and the jumper was a hippie chick that didn't give a fuck about anything in life except her horse. She was very involved in the breeding business on her parents farm where they made so much money selling stallion sperm. Sometimes I wonder if having to hold the giant fake horse vagina and collecting sperm fucked her up.

And last was the Barrel girl. She rides rodeos. She's around REAL cowboys with REAL money. Ever heard how the Olympics are just giant orgys for the athletes? That's how I felt the rodeo was when I went with her. A bunch of young, in shape southern kids with a nice trucks and ATVs and giant coach buses. Every night after the races it was party time. County music and fire ball whiskey.

I slept with a lot of women and to this day I still think that barrel girl was the biggest slut I've ever been with.

DadOnDabs • 17 points • 26 June, 2017 09:45 PM

"Casual rider".

I'm going to start calling my plates casual riders.

Did I read that right? A horse Fleshlight for harvesting? This is wild stuff here

BPasFuck • 7 points • 27 June, 2017 01:16 AM

That ain't shit. You should see what happens with bulls, when they have one that doesn't feel like fucking some bullshit bovine fleshlight.

Out comes the 'Electro-ejaculator.'

Willow-girl • 1 point • 30 June, 2017 04:04 AM

If you think that's crazy, you should see what we have to go through to get that semen into the cow, lol.

BPasFuck • 1 point • 30 June, 2017 05:05 AM

ey, vets with plastic gloves that go up to the armpit/shoulder spring to mind! But I think that was post-insemination.

Willow-girl • 1 point • 30 June, 2017 11:39 AM

No, your (gloved) left arm is inserted into the cow's rectum to guide the positioning of the breeding gun. Ask me how I know this, lol.

BPasFuck • 1 point • 30 June, 2017 07:01 PM

So, what I'm getting here is that there is a high psychological cost associated with the production of sirloin.

Nyquil-Junkie • 1 point • 1 July, 2017 02:08 AM

I've watched her do it... often, one has to scoop the shit out of the colon/rectum to make manipulation of the cervix easier.

Hamburger just lost all its appeal after that.

Willow-girl • 1 point • 1 July, 2017 04:56 AM

We do what we have to do. Personally I'd rather breed A.I. than have a bull in the barn. The only good bulls are in straws AFAIC!

SpinPlates • 7 points • 27 June, 2017 01:18 AM

Yes. They don't want to risk injury to the male or female so they place a female horse in front of a stallion and have him mount a fake horse. He sees the female and he is stimulated. The farm hand has this giant horse fleshlite thing that the male horse cum inside of. That one load is worth hundreds of thousands of dollars. They take the semen and artificially inseminate the females.

failingtheturingtest • 3 points • 27 June, 2017 01:15 AM

They probably just use a regular pornstar fleshlight. I've seen the abuse those sheilas can handle. /s

dr_warlock • 2 points • 27 June, 2017 03:28 AM

They probably had sexual relations with animals. More women do that than you think.

SpinPlates • 3 points • 27 June, 2017 05:21 AM

Actually you are spot on. Not as gross as getting fucked by a horse but most horse girls get orgasms from the saddle when they ride. Makes another layer of connection with the animal.

MrTheFalcon • 1 point • 27 June, 2017 08:25 AM

I grew up in a rural part of Germany. Out of ~15 girls in my class about 10 were horse girls. They all have a screw loose. Met some more horse girls later on in my life and there definitely is a correlation. I did not even know the horse girl meme but that shit got confirmed throughout my life by several other dudes, which dealt with horse girls ;)

ayylma088 • 2 points • 27 June, 2017 08:31 AM

Also from Germany here. I am actually tryint to phuck this German/Bosnian chick that is also a horse rider. So far only messaged a few times on IG and whatsapp. How do I pull it off?

Love me an equestrian.

Crazy enough to be sluts in the sheets, but without the daddy issues and BPD.

Borsao66 • 3 points • 26 June, 2017 05:09 PM

Since when? Everyone of them I've met has both.

Including my ex-wife.

[deleted] • 1 point • 26 June, 2017 05:13 PM

My sample might be too small, but all 6 of the equestrians I've plated have been like this.

They were Greenwich/WASP-types if that makes any difference.

If you're talking about West Coast, I've got no experience there.

Borsao66 • 1 point • 26 June, 2017 05:23 PM

Western states here. Texas, Colorado, New Mexico.

[deleted] • 2 points • 26 June, 2017 05:32 PM

Thanks for the heads up.

They're more "settled down" around here, but not without their own issues.

My uncle has always had horses and when I was a kid and his strongest horse still had a lot of vitality my baby sitter at the time was a horse girl.

It was a lot of years ago but people still talk about how she would go off to these Rodeos and stay for 3 or 4 extra days after it's over. She always came back all bruised up and said it was from riding or she fell off. How that produces a lot of finger sized bruises I don't know.

Eventually she started getting older and had a preemie born with chlamydia on it's face. She cried and blamed him for it. As far as I know now she sits in her parents house collecting child support from the guy and several others she also had children with.

My uncle told me he thought she jerked the horse off because she would spend A LOT of time in the stall with him. She would be out of site and you could see the horse looking all wide eyed and shit. Lol

Horse is still alive today and doing extremely well. Got jerked off by a hot blonde human chick. He had a good life.

Velebit • 3 points • 27 June, 2017 12:50 AM

horse sex ends within a minute, she cannot be staying for long if she was jerking a horse's dick man, most of these girls admire how "majestic" those animals are

tbh that is even more stupid than if she was jerking the horse off, that at least makes more sense

TopTRP • 3 points • 27 June, 2017 02:37 PM

Part of horse hygiene is cleaning their dick, so yeah the girls are definitely familiar with horse cock.

Nyquil-Junkie • 2 points • 1 July, 2017 02:17 AM

I had a woman farrier once, she trimmed my horses feet. Every time she was here, I got the "you HAVE to clean their sheath, it MUST be kept clean!!" and without fail, before she left she would either grab the poor horses schlog and check or whip out her bottle of sheath cleaner and clean the big boy's wiggle stick on her own, I never asked her to do it. I always thought that was kinda strange. My horses dick was always squeaky clean, and he was always happy to see Sharon arrive for hoof trim day.

Horse women are a little touched.

DadOnDabs • 6 points • 26 June, 2017 09:47 PM

There are a few theories on this. My personal theory is that the horse represents what they want but could never have in a man. Trustworthy but unpredictable, strong but gentle, silent and mysterious. Plus look at those horse gains. If only I could have quads like a horse □□□.

Brb going to breed with a horse.

Venge97RI • 5 points • 26 June, 2017 07:30 PM

I know a girl who hits the trifecta of crazy , loves horses (used to hang out at a tack shop) , into high horsepower muscle cars , and 3 kids with 3 different guys

Fucks like a pornstar though , good thing I got away from her ...

TopTRP • 5 points • 27 June, 2017 02:32 PM

Is there a legit reason behind this conundrum?

My Dad calls it the "My Little Pony syndrome".

My family has a horse barn on the main property. Aside from the permanent horses my parents also buy horses from Europe to import and have my sister train, then re-sell at a large profit here in the states.

Anyway there are a few contributing factors.

Most of the parents of these girls are pretty crazy to begin with. The mothers especially are the "real housewives" kind of women and there is often a lot of drama between them, using their girls as tools in a never ending quest to tryin' one up their frenemies.

Add this in with the whole living a privileged life and being treated like a princess due to money and you're already pre-disposed to being a little crazy.

The biggest factor though that most people aren't aware of, and explains their behavior in bed?

The girls are taught to BEAT the horses.

If the horse doesn't cooperate or do what you want? You hit it.

My sister will regularly punch a horse in the neck and even bite them if they don't cooperate.

I asked her about the biting in-particular, and she said that horses understand biting as a form of showing dominance.

The girls are taught these things before they are even teenagers, that to get what you want from this massive animal who's bigger and stronger than you, you need to physically beat it.

How do you think that translates into how they treat men who are also bigger and stronger? Same shit, they have no inhibitions about getting aggressive with you.

Side tip while we're talking about horses. If you can, get a picture of you with a horse and put it on your tinder.

mrizzle1991 • 5 points • 26 June, 2017 11:33 PM

Horses are expensive as fuck and take so much time to care for. So theirs literally no time for shit else. So horse girls don't really care about anything else which makes they crazy after some time. I'm not a psychiatrist though, just what I think.

JackGetsIt • 3 points • 26 June, 2017 08:10 PM

I have a suspicion that it's often simply autism (that's highly undiagnosed in girls)

This doc is an hour but I found it fascinating.

<https://vimeo.com/199745757>

There's often a lot of boy obsession as well. Think Tina from Bobs Burgers.

GreenPiller • 2 points • 26 June, 2017 10:00 PM

Interesting. I was just thinking last night if this chick I met has Aspergers or something.

Coach-Red-Pill • 4 points • 26 June, 2017 02:16 PM

No idea why this is. But it is. Oddly enough, normal girls are rather afraid of horses, and avoid them if at all possible.

to_glory_we_steer • 9 points • 26 June, 2017 02:52 PM

I think the psychology has a lot to do with riding and caring for a huge, muscular and mostly pliant animal with a cock that could put the most gifted guy to shame

[deleted] • 16 points • 26 June, 2017 03:02 PM

Bouncing up and down all day on that saddle too must play a part. It's a large, expensive, glamorous, and slightly dangerous sex toy. Ticking a lot of boxes there for certain types.

beginner_ • 4 points • 27 June, 2017 07:27 AM

Shit, this makes too much sense.

dannymason • 3 points • 27 June, 2017 01:55 AM

Women can have orgasms just from riding.

[deleted] • 3 points • 27 June, 2017 02:51 AM

An ex was a crazy horse girl that did competitive fancy low jump riding (can't remember what that shit was called). The required form is to sit up and down on the saddle rhythmically the whole time to "look cool" or something. It was obvious her crotch was rubbing and making continual contact, and she had a big ol' smile on her face.

Live across from a C-level actress (she usually plays the hot piece of ass who has a story arc for 2-3 episodes, then gets written off the sitcom, etc) in Los Angeles. Went on a couple dates when she first moved in that went absolutely nowhere. One big reason why?

Over lunch one day she "confessed" that she calls a pet psychic weekly to get updates on the emotional and

mental state of her pet horse that resides at her parent's place in Pennsylvania.

A pet psychic.

Weekly.

I was an exchange student where my host-sister was a spoiled horseriding girl. She broke up with her boyfriend a couple of days before I arrived in their family and then tried and get it with me for the first couple of months. When she realized I didn't want her she turned into a stone cold bitch and didn't ever greet me or talked to me for the remaining time of my exchange year.

Shieldless_One • 1 point • 27 June, 2017 04:30 AM

I think it has something to do with the feminine attempting to tame the masculine and literally developing an obsession over it.

Horses at the asshole boyfriends that can't leave the girl and ignore her text messages.

MrTheFalcon • 1 point • 27 June, 2017 08:26 AM

Crazy, yes. Good BJ's, yes. Marriage material, eh...

DSetupDTitleDMenu • 1 point • 27 June, 2017 09:34 AM

I live in a rural area and I've met my fair share of horse girls. Not living in a place with a whole lot of people tends to leave you on your own devices more than you'd like if you're not "all about the community" and shit, and I hate to rely on stereotypes to analyse the truth, but yeah, horse girls are all in their own world full of sweeping plains and horse dick. Social isolation + living in a fantasy world + big, strong horses = horse girl.

I'm gonna plate me a few of them. They waste no time in dolling themselves up, are shameless about being sluts and tend to have fantastic asses. They also own like forty different pairs of jeans and lingerie, so there's plenty of stuff for them to wear for my viewing pleasure.

FieldLine • 1 point • 27 June, 2017 05:07 PM

She just hates you because you're not a horse. Don't take it personally.

TopOfTheEighth • 0 points • 27 June, 2017 01:54 AM

You can't compete with the masculinity of the horse is another angle that's been explored.
