

Dude's girlfriend kicks him out of the bedroom to have multiple "sleepovers" with her work buddy. Is he the biggest cuck in the universe? Quite possibly.

1455 I [M30] left my girlfriend [F24] in the middle of the night.

submitted 8 hours ago * by [REDACTED]

Our two and a half year relationship took a turn for the worst about a week ago when she said that she wanted space and asked me to sleep upstairs so she can hang out with one of her male co-workers in our room. They ended up sleeping in our bed together but she swears "it's not like that."

While she may not have cheated I felt completely disrespected and betrayed. This wasn't my definition of wanting space.

I explained to her my grievances and she said that "if it was a female coworker, we wouldn't be having this conversation," but I beg to differ and even am insulted by that. I don't care who she shares our space with but the facts that she:

1. Never introduced this coworker to anyone
2. Did this for several nights in a row
3. Defended her actions and didn't understand why I'd be pissed

Were three pretty reasonable (I think) reasons why I thought shit was getting weird.

I can't be with someone who doesn't respect me enough, so I told her that we needed to talk this through and try to work things out or I was leaving for my home state (we moved to Florida together to be closer to her mother about three months ago) and she agreed but we both had to work in less than an hour. I left for work.

As I'm clocking in, I received a text from her saying that someone had picked up her shift and that since it would be her only night off for the week she wanted to go out with friends and that she would be home to talk later. I told her that I wasn't going to stop her from enjoying herself and to go have fun, but in the back of my head I'm thinking "what is more important to you?!?"

Long story short, she got drunk and never came home, so I packed my shit and left in the middle of the night.

At 2pm the next day, she called me frantically because she didn't know where I had gone and she told me that she "fell on her way to come talk to me," hit her head and probably got a concussion. She also said that she left her phone at the bar so she needed to wait until it opened to get it back. I have no reason other than that story sounds completely stupid, not to trust her.

Am I doing the right thing? I still love her to death, but she asked for space and gave me signals that she wasn't all in anymore. I need someone who is all in.

Edit: Thank you everyone for all of the kind words, encouragement, and advice.

She's been blocked via cell and Instagram. I've deleted my Twitter (had recently created it anyway) and I haven't been on Facebook for several years now.

I'm going to bed now, as confident as ever that I've made the correct move.

I love you Reddit!

Edit #2: I woke up to this being on the front page and people saying it's fake and calling me all sorts of names. I wish this was made up, or some fucked nightmare--but it's not. I also finally understand the meaning of "RIP Inbox" and as much as I'd love to respond to everyone, it's just not gonna happen.

Thanks again for all the love and support, even the tough love!

I wouldn't say biggest cuck in the universe; he did wind up leaving (even if it took some nudging) and unfortunately there are guys who would have stayed in these circumstances.

Cheating and disrespect in relationships is nowhere near being a new thing. However, I suspect that if this were 1995 that girl would at least have the quasi-decency to not shit where she eats. If it weren't for the wide acceptance of the fallacy that women would be reduced to barefoot and pregnant slaves if they didn't treat all non-tingle-generating men as subhuman the traffic on /r/MGTOW wouldn't even be 1/10 of what it is.

Little_African_Child[S] • 94 points • 11 October, 2018 01:01 PM

The dude literally slept on the couch while his girlfriend got plowed in his bed. Maybe not the number one biggest cuck, but he cracks top ten for sure.

He should've fucked off immediately like any sane human being. He is an extreme example of being blue pilld, he doesn't need to be clued up on female nature and red pill forums in order to realize how abnormal that situation is. I'm amazed at the state of some men in the world, would be my main gripe here.

Yep I can attest to this fact. My ex wife and kids live with the shit stain my wife cheated on me with.

Stryker7200 • 10 points • 11 October, 2018 04:22 PM

First time a girl wants space should be the time a guy ghosts her.

[deleted] • 2 points • 11 October, 2018 04:16 PM

Not everyone thinks like that jack. Different situations calls for different actions.

[deleted] • -1 points • 11 October, 2018 04:14 PM

Check my post history.

CeleritySteam • 2 points • 11 October, 2018 03:27 PM

She didn't. She always was, AWALT. Just the chameleoning ended.

[deleted] • 41 points • 11 October, 2018 01:57 PM

But if you're in the situation where you're living with her, you've got to kind of let her get away with it until you can make arrangements and get out with your legal bases all covered and your property undestroyed by her. Like, if you confront her, and she attacks you, and you have to defend yourself, now it's a domestic violence dispute. This is why you don't cohabitate to begin with.

JJ3314 • 14 points • 11 October, 2018 05:38 PM

This is yet one more reason to not live with a woman. On the one hand they are not married, so there are fewer legal entanglements, but on the other hand a man needs to reserve the right to walk away immediately, no arguments, no back and forth, "we're just done."

I realize that for some men a cohabitation arrangement in a state that doesn't recognize common-law marriage may seem like an attractive work around to the messed up family courts, but you need an exit strategy.

maggot_brain79 • 3 points • 11 October, 2018 06:46 PM

I agree with this assessment, anything else the original OP would have done would have only made his situation worse. Certainly he could have confronted her nonviolently but even in *that* situation, if police are called and the man in the situation is angry and disheveled, well, who's going to jail? I'll give you a hint: the one with a penis. Worst case scenario he would have had a fight on his hands which probably would have accomplished nothing.

Now, had I been in that situation I probably would have reacted violently. It would be stupid nonetheless and likely a reaction I'd have grown to regret.

NOIRE • 13 points • 11 October, 2018 06:30 PM

But dude there are LITERALLY cucks out there that get off and encourage their wives to fuck other dudes. So no, this guy probably doesn't even crack the top thousand

Jobseekingforlife • 6 points • 11 October, 2018 10:29 PM

This is so funny. Like how do these guys even look themselves in the mirror? Talk about being a loser.

dayone_27 • 6 points • 11 October, 2018 05:48 PM

I don't think you've heard enough cuck stories but agreed the fact that he sat upstairs while his girl was getting plowed is a huge cuck move. A normal testosterone man would throw both that and interloper out of his house or at the very least leave there and then.

[deleted] • 3 points • 11 October, 2018 10:39 PM

Yeah, I probably would've left that night and told her I was done. But that assumes the guy had friends in the area, a vehicle to sleep in, or money for a hotel.

Sandbagicus • 53 points • 11 October, 2018 02:52 PM

not the biggest cuck because he at least ultimately ditched the whore.

Biggest cuck would've stood in the closet and watched the 'friend' fuck the GF.

This hurt to read.

Shimakaze4 • 28 points • 11 October, 2018 02:01 PM

No I don't think he's the "biggest cuck" and certainly not a cuck anymore. Gotta remember that many men are blinded by the blue pill and get a dose of red pill when they are way, way deeper in the plantation than you or I may have been when we took a dose. When they are that deep in there, it's gunna take them a moment to realise what is happening, I mean he probably truly believed and loved his girlfriend, then he gets hit like this. I mean the first two days he was probably in a state of shock, so was simply unable to respond. The cognitive dissonance must have hit him like a freight train! However, unlike many men, who might just accept this situation, he woke up pretty quickly and decided that this shit wasn't for him and he took action to remove himself from the deal. Hopefully he doesn't go back.

Little_African_Child[S] • 7 points • 11 October, 2018 02:09 PM

I didn't link the post (not sure if I'm allowed to) but in the comments he tries to argue with the people saying his girlfriend definitely boned the dude, like he believed it was a platonic sleepover. Probably just denial out of shock or something though. But yeah, like you said - what a massive red pill for the dude.

Vaxel00 • 4 points • 11 October, 2018 02:45 PM

He won't see it that way, his blue pill conditioning will make him go into cognitive dissonance.

The concept of AWALT will elude him.

At least he has some semblance of self respect.

Ohboohoolittlegirl • 20 points • 11 October, 2018 12:50 PM

Woowow, some guys just don't wanna see what's in front of them, unless he actually sees the penis in the vagina and then they still wanna taste the cum to make sure it's real.. Guys like this make me sick, though he did in the end ended it. But that cause she didn't come home.. fucking idiot.

[deleted] • 17 points • 11 October, 2018 02:41 PM

The crazy part is that he votes and he's 30 years old. Some people are so brainwashed and in denial it's amazing.

massy525 • 5 points • 11 October, 2018 06:58 PM

Holy crap I didn't catch that he was 30. What a cuck. Should just chop his own balls off and save some

future trouble.

Infinitewisdom1984 • 16 points • 11 October, 2018 03:56 PM

Please tell me this is satire. I would have checked out of the relationship as soon as she said "space" and just assumed she'd be fucking someone else the night I leave with my shit - which would have been the night of that conversation.

This dude stayed in a house for several nights where his wife slept in their bedroom with another guy. No fucking way. If it were a woman, I'd assume she were a lesbian.

I just can't pity men like this anymore. It hurts too much to have a mental stake in this retardation. FFS men, value yourselves and make strong judgments.

TheLastMgtow • 2 points • 12 October, 2018 06:01 AM

Exactly "space" in cunt language means a thousand cock carousel.

Goddamit mgtows, this sub kills me everytime lmao.

FunkyCannaHigh • 15 points • 11 October, 2018 04:46 PM*

"While she may not have cheated..."

A. She did, he stuffed her like a Thanksgiving turkey.

B. Have some self-respect, if any of my ex's said "hey, sleep upstairs while a co-worker joins me in the bedroom" I would have told her to fuck off, red pill or not.

This guy did not respect himself and she did not respect him either.

To answer your question, he is a big cuck. The chick fucks another guy and he wants to "work it out"!!!! Then, she ditches the "work through this" talk just so she can go out with her friends and he says "OK."

Yes, even if he left he is still a huge cuck. The only reason he did leave is that his girl didn't come home. On top of that he is asking if he did the "right thing" by leaving.

Sorry, you cheat you are out. That is not a red pill thing. When I was dumb enough to date that was a steadfast rule because I respected myself.

Jobseekingforlife • 8 points • 11 October, 2018 10:33 PM

I'm surprised he didn't want to get anal by the girlfriend's boyfriend while the girlfriend watched. Talk about a loser cuck.

FunkyCannaHigh • 4 points • 12 October, 2018 12:54 AM

LOL! You owe me a new keyboard, I just spit coffee all over mine while reading your comment, nice!

bkrugby78 • 10 points • 11 October, 2018 04:58 PM

I'd say he slowly got around to realizing she was fucking around. And that's all that is important here.

saturnisbestplanet • 8 points • 11 October, 2018 03:41 PM

Looks like he had to have to swallow the red pill up the ass sideways. Hopefully he doesn't vomit is out and actually remembers what he has learned.

denizenoflaniakea • 7 points • 11 October, 2018 04:09 PM

Tfw you cannot tell between extreme satire and real life.

SiliconeGiant • 7 points • 11 October, 2018 03:20 PM

This can't fucking be real. No sane person would be cool with that.

StrawhatMucci • 4 points • 11 October, 2018 06:32 PM

He's a retard. To think he actually let her sleep with a dude nigga fuck that and even had to think if he has a right to be angry shows how retarded he is.

BadassGT-CS • 6 points • 11 October, 2018 03:43 PM

What a pussy.

Miranoi • 6 points • 11 October, 2018 06:58 PM

Ouch, had something similar to this happen. Only thing was, she kicked me out of the house (her house) in order to spend time with her "guy friend". Difference is, I went back the next day to get my shit and never spoke to her again, despite all of the crying and pleading for me to stay and talk things over.

DangZagnut • 5 points • 11 October, 2018 05:15 PM*

Now of course, the solution is to kick her ass out, or kick your ass out, but if you suggest that you'll be banned. Also who the fuck has sleepovers as an adult? Sounds like there is more to the story.

[deleted] • 3 points • 11 October, 2018 05:29 PM

Never EVER share a space with a woman. And if you do it BETTER NOT BE IN HER NAME.

This happened to me after my ex lost 275 lbs. She bought a house and we moved in together and she wanted to bring other guys home and fuck them.

I left her, moved out, and lived in a friends basement until I got my own place again.

Now she's married to a blue pill beta male simp who does what she wants when she wants. Funny thing is before we moved in I joked and told her "I just hope the queen bee doesn't want me to leave the hive after I move in". I also joked about "Your looking really nice I hope you don't leave me for some other guy and leave me".

I was right on both accounts.

fickle_fuck • 3 points • 11 October, 2018 05:42 PM

While she may not have cheated...

This dude went full retard...

[deleted] • 3 points • 11 October, 2018 08:17 PM*

hit her head and probably got a concussion

Yeah from getting her skull rammed into Chads headboard all night long had nothing to do with that.

I feel bad for the guy because love is mental illness, we've all been there, it makes us stupid and weak to whatever the woman wants. Hope he woke up to the truth after this, ffs he moved to Florida to be closer to HER parents.

This is such typical behavoiir of a controlling woman. How do I know? The Ex that made me wake up to it all wanted to move away, west coast, to be closer to her parents who hated me, no idea why, maybe because I was fucking their youngest daughter (the ex). She didnt even like her parents but wanted to get me away from my entire family and move me to a liberal hell hole which she knew I could not assimilate too. I would have had to

gotten rid of mostly everything of mine because that's what she wanted.

All I really needed to remember was my wallet, since she never paid for jack shit. Got the fuck out when it was made clear, children would never be in my future, if I really wanted kids, i should adopt and she would not be joining me in that endeavor. She honestly expected me to adopt a child and have her be my wife but refuse to be the child's mother. Also only if the kid was mixed race, I wasn't allowed to raise a child of my own ethnicity because reasons.

Told her i would rather spend the rest of my life alone than another minute with her, she cried and drove away. Told pretty much everyone I know terrible lies about me and now Im the most unpopular person in my circle of friends because other "men" believe the crying girl every fucking time.

Edit: Best advice I could give for such a situation, do not retain friends from the relationship unless they were your friends before you coupled. Friends that come with the relationship ALWAYS end with it. If you try to keep these people as friends, you will just be wasting your life on people that dont deserve you.

CerebralAbrasion • 3 points • 11 October, 2018 10:38 PM

The problem with these guys is they don't have enough male influence. They get the constant drivel from women of "she can have guy friends! Sleeping in the same bed doesn't mean sex. If she said she hit her head you should believe her, don't you LOVE her? You're just insecure about yourself..." and not enough men telling him he's a being cuck and to just stop.

nifty_n0ah • 2 points • 11 October, 2018 06:34 PM

I almost feel sad for him... but then I remembered that it is the fire that forges the steel. This man must learn.

Be__Live44 • 2 points • 11 October, 2018 08:13 PM

Smh.....Have another Soy Latte, with extra froth.

Again I will support guys who are plugged in as some need to be awakened to understand - but this right here is just self abuse. This 'man' has no self-respect.

SpecialistParticular • 2 points • 11 October, 2018 09:59 PM

Biggest cuck was this guy on the old Crosswalk.com forums who was letting some unemployed guy sleep on the couch and be at home with his wife all day. Even the wife was bothered by it but he was all, "LOL, nothing will happen because of JESUS!"

[deleted] • 2 points • 11 October, 2018 10:27 PM*

So, this girl is attracted to men and not women, and the boyfriend knows this. And therefore it is wrong if he judges her interactions with men differently than those with women? A double standard is perfectly rational here as it is literally two different things. This is an argument nowadays?

NoThirst • 2 points • 11 October, 2018 11:24 PM

I honestly don't know who is the more despicable human being here. Sure he left her...that will last about 24 hrs...if that...women like this are created by men like this. For every soul sucking hoe like this, there is a line of men willing to subject themselves to it.

ifrankenstein • 2 points • 12 October, 2018 01:18 AM

Jesus. Fucking. CHRIST. I'm not trying to come off as a tough guy meathead here, but if this were proposed to me back when I cared about such a thing, and Chad actually had the balls to walk into my home, I'd put him through the fucking wall. Her shit would be in garbage bags on the porch before the cops got there.

ListenUpMuthaFucka • 2 points • 12 October, 2018 05:18 AM

Why the fuck do people keep posting these without providing a god damn link? Like obviously we want to read the comments and call him a cuck.

Like if I was trying to irritate people on this sub and deliberately be a complete prick this is exactly what I'd do. Am I the only one who sees what a completely obviously dickish move it is not to link to these things??

Most of the time we all ignore the emotional and mental capacity and durability of human beings, especially when it comes to men. Some are strong and some are weak. We assume that all men should be smart and analytically strong and solve the problem right then and there. Clearly this guy is weak. Also he was deeply in love with that hoe. It takes time to part with something you love so dearly. I am glad he learned from his mistake and i hope he actually learned a lesson.

Edit : i sincerely hate the other dude for doing this to other dude. The way you find them is the way you lose them.
