Yes, when times are tough women default to what the oldest circuits in their head tells them. "Give vagene, get ressources"

Only when times are tough?

zenman123 • 14 points • 12 March, 2019 07:15 PM

Times are always tough for women, they are victims remember

zubbs99 • 6 points • 12 March, 2019 11:41 PM

Correct, which is how they justify pretty much anything they do.

Blogginginvicecity • 1 point • 13 March, 2019 06:47 AM

The exact opposite of Christian faith and such, where the real ones will say, "you know what, times are hard, but that doesn't justify being a piece of shit. I'd rather die and fight the good fight than be a piece of shit."

"Give vagene, get ressources"

Well they weren't really designed to mentally and physically handle your average work place. They are like overgrown children.

Regencyflw • 4 points • 12 March, 2019 06:05 PM

Time for the gravy train to end. It needs to be 'give vagene, only get permanent label as unwifeable whore by society'. Women need to learn to know their place in the kitchen or become better people and fix their own situations without asking for special treatment.

The boomer generation didn't keep their women in check, and now we have to deal with their mess.

Fuck the boomers. They fucked up everything. They ruined society and the planet as a whole.

Meanwhile PUA's are busy upping their game when these old dudes can easily fuck them with just money.

Docbear64 • 12 points • 12 March, 2019 06:38 PM

It must hurt to hold frame hoping she sticks around and then realize an old fat dude just has to show her his bank account balance to get the same blowjob you hit the gym to "earn".

I'm all for self improvement for your own sake.

This doesn't just happen in Canada but also in the USA, Germany etc... Yep, even in countries where there is no tuition. Because there are still other costs. And women hate working.

RLskeleton • 1 point • 13 March, 2019 08:05 AM

That was my question. They really can't be bothered to work part time while studying for their vagina painting degree?

deathtocontrollers • 2 points • 13 March, 2019 08:06 AM

Nope. It's female nature to avoid work. And if they can't avoid it, they are extremely miserable.

PopPendulum • 5 points • 12 March, 2019 07:13 PM

When I was doing a part-time job at the post-secondary institution I was studying, I worked alongside a classmate that told me what it was like being on a sugar daddy dating site.

One of my bigger recent red pills, and together with her feminist mentality, just soured my image of her.

Good god this is the beginning of the end of western civilization

Kitetrader • 2 points • 12 March, 2019 11:53 PM

I subscribe to one of those apps. They ask about allowances and pay to meet etc. I convince them that there will be a long gravy train throughout their college careers. Then pump and dump and throw a 20 for the Uber ride back home. Skanks. On to the next. The promise of money is way more powerful than money itself.

RLskeleton • 1 point • 13 March, 2019 08:02 AM

I thought Canadians were always bragging about how cheap their schooling is. Is it not?

ChiTownBob • 1 point • 14 March, 2019 02:31 AM

| **'sugar daddies'**

You misspelled "prostitution"
