

"Big Dick Energy" - Female's own theory that confirms RP truths

September 2, 2018 | 840 upvotes | by [TRPDigesting](#)

Here's something interesting that I picked up today while spending some time with my sister and one of her friends.

My sister's friend was talking about a guy that's been texting her some pretty needy things, trying to get a second date. She wanted my opinion on how long it should take before he gets a clue.

She had basically told him that they could hang out when they were both back in town again, and then ignored him every time he texted "What's up." She also laughed over how he texted her on a Saturday and she didn't even reply to him until Monday.

Obviously, this guy was in some pretty dire need of validation and should have just carried along his merry way — he should have gotten a clue WAY early on, but you know how Billy Beta's can be (since many of us used to be one...rather, I speak from experience).

Anyway, in describing this, my sister joked that "Well he obviously doesn't have 'big dick energy.'"

They both laughed, and I interjected — "Wait, is that an actual thing that girls talk about?"

They went on to describe how "big dick energy" is a real thing that women screen for in men, and it could best be described as (to quote them)...

"The confidence that would come with having an enormous dick...like..they just wouldn't need to give a fuck what you think of them because their dick is so huge."

WHICH, as you well know, aligns **perfectly** with having **control of your frame**.

Whether or not you have a truly enormous dick is not relevant; and you don't need to even ACT like you do.

But what you DO need to do, is act in such a way that you have nothing to prove to **anybody**. You can choose to maintain that level of control in your interactions, and it's a RP truth that's (hopefully) been beaten into your frontal lobe by now.

It's not a new theory or anything, but I was fascinated that girls have cooked up a name for this kind of thing beyond just "confidence."

Because these two women had a hard time even putting it into words as to **why** they find this type of self-confidence/frame control attractive, but they know they clearly do.

Just because they don't know the mechanism of how it works doesn't mean that they aren't active participants in its effect.

Just because you don't know how an engine runs doesn't mean you can't drive your car.

So if you needed a reminder that the other side of the fence is actively assessing your energy and whether or not it gives off that "I have a big dick" vibe (regardless of your 3.5 - 8in variable dick length), then consider yourself reminded.

Oh, also apparently this term arose from the confusion of all the women on the Internet as to how some SNL comic (I think) Pete Davidson was able to bag Ariana Grande. *Which succinctly explains why I would have never heard of this.*

Keep control of your frame — live in your own world and take good care of it. Maybe it'll become a place that others would like to see themselves living in.

Never. Give. A. Fuck. Not ever.

Date not replying next day? DGAF. Move on.

LTR not responsive to sexual advances? DGAF. Do your thing, increase your distance and indifference.

They're looking to put you in their frame. To force you to negotiate. In which case, they win.

Lift. Get lean. Maintain space and frame. Caffeinate the hamster by making her wonder what's up. She will come to you...or you can move on.

But whatever you do, DGAF about "their terms."

What do you mean by caffeinate the hamster, and how do you make her wonder whats up if you're in no contact with her on purpose?

It's technically "**this guy gets pussy**" energy. Just so happens that most guys with big dicks get pussy.

You dont need a big dick to have girls texting you asking if they can come over. Just grab your nuts and be a man.

And for Christ's sake stop texting these chicks so much you thirsty bitches.

[deleted] • 106 points • 2 September, 2018 07:22 AM

Its funny, like I see it with-in myself. To girls that I dont put much interest in or effort, they basically beg for the dick, theyre the ones texting me and even willing to drive and pick me up to fuck. But, to girls I brake

from my frame and give chase, let them become my oneitis it always seems to go south. I just need more discipline when it comes to girls im really interested in to hold my frame with-in and pound it in my head that they are not that special.

Dartleather • 58 points • 2 September, 2018 07:28 AM

There's also the fact that the girls you are interested in have MANY options so it makes it that much harder to hold frame

boredathome1926 points 2 September, 2018 03:33 PM **[recovered]**

I think I need some advice on text game. I've had girls that gave me their numbers at a party and then texted me for 2-3 weeks before we saw us again and banged (took that long due to bad logistics). In our spare time we send a text about every 30 minutes and it didn't fuck things up, I also see my friends texting their LTRs constantly and they're also having no problems.

Still all I read here is that texting should be only used for logistics, but I feel like girls try to use texting to get to know me a bit more before they meet up with a total stranger. Also I feel like having a fun conversation via text shows that you're fun to be around. So how exactly do you approach texting?

majaka1234 • 13 points • 2 September, 2018 06:45 PM

I've had fantastic success with texting so I dont know what most guys here are on about.

Depends entirely on the demographic though and more texts = more opportunity to fuck up.

In my case I build rapport through witty banter and I also figure out where the girl stands on the 0 to Basic scale... So it's actually a valuable tool.

If the girl is found to be wanting then I'll usually be the one to lose interest - not the other way around.

Syberchica10 points 2 September, 2018 11:25 PM **[recovered]**

If you use emojis . . . don't. Lady boner killer.

Devils_Duke • 7 points • 3 September, 2018 09:22 AM

I've had so many girls comment on my lack of emoji usage (probably every one that I've messaged for a decent length of time). It's amusing to see just how many ways women will try to betafy you because they're uncomfortable with their own hamstering.

Xhaka-Laca • 2 points • 13 September, 2018 06:59 PM

This is a shit test, don't use any emoji's when texting girls. Hold frame & continue texting as you have.

willowhawk • 2 points • 3 September, 2018 10:12 AM

Texting is fine, don't be needy,keep it light hearted.

boredathome193 points 3 September, 2018 11:21 AM **[recovered]**

I have had situations where I banged a girl, drove her to the train station, texted her the next day if she got home well and tried to keep up a conversation, but she didn't really respond well and told me she doesn't think this is gonna work and that she is only looking for something serious. The sex was not bad, quite the opposite actually as she was quivering while cuddling onto me afterwards. So I'm quite lost what went wrong there. Was that needy texting?

willowhawk • 5 points • 3 September, 2018 01:24 PM

If she told you that she was looking for something serious and that's why she didn't want to continue this then it means you were too cold and distant with her.

Texting her nicer would actually help because it would juxtapose how you were in person. This would confuse her, spark different emotions and make her more interested.

[deleted] • 72 points • 2 September, 2018 02:23 PM

Best method is to just call. Never text.

Text is for the weak.

You call a Woman in this day and age, and you've got the biggest balls on the block. Even more so than Billy Big Balls in the corner who thinks he's uberchad because he's texting all these different girls.

Thing about calling is, you have to have something to say. There has to be a good reason to do so. So you only call when needed.

Also calling lets her hear your voice. It also lets you hear hers. So you'll know if she's spinning you off, and she knows you'll know.

Honestly, give it a go. After all, if you're in competition for all her other suitors, and you're the only fucker game enough to actually "speak" to her, well, you're right there leading just off the bat!

And you're calling with something in mind, not just frivolous shit like "how's your day been" that countless other guys are bombarding her with. You're calling her to arrange something, you're calling her to be ready in an hour as you're going somewhere. You're the main fucking act.

You can see the difference, can't you.

Oh, and finally, if she doesn't pick up. Don't leave a message. And don't send a text to tell her you've called. (She will know you've called). Just leave it. Adds to the intrigue.

scissor_me_timbers00 • 17 points • 3 September, 2018 03:25 AM

With how young women these days are so fucking skittish and flighty and quick on the trigger to throw out "creepy" and "awkward", I'm hesitant to think calling is always a good idea. Women in 2018 are so socially retarded that I think it would feel intrusive to most of them unless you're going steady.

Field_Of_View • 8 points • 6 September, 2018 11:42 PM

They wouldn't think it's creepy if they found you attractive. A woman who won't pick up the phone when you call wasn't going to do anything with you if you sent her a million texts either. And if she actually misses your call (or is too scared to answer) but is interested she will text you about why you called. If she doesn't, if she just ignores it then you've got your answer as well. The tricky part is just accepting a lack of interest and moving on. Maybe you're worried about being "intrusive" or "creepy" because you know you don't have the abundance mindset necessary to call once and not twice.

FrankCostanza111 • 4 points • 4 September, 2018 11:30 PM

You would think so, but I've had success calling millennial girls on the phone and they love it. They love hearing your voice, especially if you throw in some sexy dirty talk. You stand out from all the other thirsty orbiters blowing up her DMs.

scissor_me_timbers00 • 2 points • 5 September, 2018 03:07 AM

Yeah I'm sure it can be done right. And I never advocate hitting up DMs on social. Texting is more typical. I just know how fucking retarded young women are, especially today. Everything is creepy or awkward to them.

comicallysimple • 1 point • 4 September, 2018 10:24 AM

Do everything in your power in either case to not be creepy. It really helps. In any case, not letting it be creepy I would actually consider a part of holding frame. Additionally DGAF helps.

MrAnderzon • 9 points • 2 September, 2018 06:49 PM

I have called but they text instead of a call back. How do you handle that. Do you call them back or text them

There's a difference between a call and an text

humanoid12345 • 9 points • 2 September, 2018 11:43 PM

Personally, I'd say that if you call them and they text back, they're not particularly interested. Then again, it could just be shyness in some cases.

FrankCostanza111 • 4 points • 4 September, 2018 11:29 PM

They are not feeling you. I also count that as rude behavior and downgrade them.

RedHoodhandles29 points 2 September, 2018 03:22 PM **[recovered]**

Text is for the weak.

It's not that black and white.

[deleted] • 15 points • 2 September, 2018 10:57 PM

It's getting that way. Seems to be a real cultural trend developing where a lot of folk get anxious at the idea of making a phone call rather than relying on text/chat apps

calling a girl is solid advice tbh. A lot of pussies out here too nervous to order a fucking pizza the old fashioned way: making a call doesn't take a lot of balls but let's face it, the competition is pathetic

TheReformist94 • 4 points • 2 September, 2018 09:32 PM

If she's attracted to you, there's nothing wrong with asking how her day was. It's an open ended question that can lead to rapport building. If you can't get away with how was your day, you aren't attractive

willowhawk • 4 points • 3 September, 2018 10:14 AM

Isn't just calling out the blue wierd for most people?

FrankCostanza1113 points 4 September, 2018 11:31 PM **[recovered]**

My mindset when I call out of the blue is kind of the same with how I call my parents out of the blue just to talk for a few minutes. It's not a big deal and I'm doing it when it's convenient for me (stuck in traffic, taking a walk on a break at work, etc)

randomTATRP • 3 points • 6 September, 2018 06:09 AM

+1 for communication when it's convenient.

I text my friends and talk to my family and friends mostly when I'm going to the gym since it's a

30 min walk. The walk isn't boring and I use my time efficiently.

FrankCostanza11 • 2 points • 4 September, 2018 11:28 PM

In 2016 when I was dating my ex-wife (maybe 2-3 dates in), I called her out of the blue one evening and just bullshitted for 5-10 min. She made a fucking facebook post later that night, about how meaningful and special small things are to her. Someone commented about how she loves ice cream or something and my then-plate responded, "haha I was thinking more like a phone call".

Seriously, a phone call in 2018 is like a Mortal Kombat-style uppercut. Finish her!!!

Psychoticktock • -1 points • 2 September, 2018 04:39 PM

So call once and, if she doesn't answer, call or text back, give up on her?

Sounding a bit extreme there

Field_Of_View • 1 point • 6 September, 2018 11:49 PM

If a hot girl tried to call you and you missed the call, would you just ignore her and hope she texts or calls a second time? No, you'd call or text her back to make sure she doesn't move on. Or if you got the call to begin with you'd pick up, even if you were a pussy who has trouble with talking on a phone for some reason. You'd push through your anxiety because it's a hot girl and you're not going to miss out on that.

So what does that tell you about girls who ignore your calls or texts? They don't think you're hot. Cut your losses and move on.

Denver_Luv4 • 12 points • 2 September, 2018 04:42 PM*

It's technically "this guy gets pussy" energy

Reminds me of:

Interestingly, last night she said that guys her age don't really hit on her (I don't believe it, but she said it). She is also a pretend model of some sort. Her n-count is pretty high for her age, I think. **She started to ask me how many women I've been with, then stopped** and said she didn't want the question turned back on her. I said that I never ask, which is true, and things moved on.

Andgelyo • 9 points • 2 September, 2018 07:51 PM

This. I think it's the "I don't give a fuck because I have other women" mentality that girls love. Not necessarily having a big dick.

[deleted] • 6 points • 3 September, 2018 12:42 PM

Been fucking this girl recently. Earlier in the day the topic of high school/college came up and I said that I was "not one of the popular kids, pretty much just an average guy."

As she was riding me later that afternoon she suddenly blurted out, "there's no way you weren't cool in college!" Haha funny shit.

TangoZulu • 57 points • 2 September, 2018 01:46 PM

Women will try to co-op anything to further their own needs. Big Dick Energy started as a girl descriptor for an attitude that they find attractive, which is basically masculine energy. So of course women will try to then twist it to be 'toxic' if it doesn't further their needs. But that doesn't change the fact that it's the masculinity itself they find attractive. They are just hard-wired to try to break that masculinity down into a provider role by shaming the very thing they are attracted to. It's a shit test, bro.

[deleted] • 11 points • 2 September, 2018 02:21 PM

Yeah BDE is also used to put a political spin on these sort of sound off opinion columns. I read one that said "anyone who votes republican does not have big dick energy". (Rolls eyes)

Watch this term become a trend. Guess it makes it easier when girls throw such complimentary labels at us whenever we do some form of game. Eventually we don't even need advanced game, just a opener and we'll be labeled a 'Big Dick Chad'.

Also about Ariana. Every girls/plates I've fucked recently WORSHIPPED Ariana. They justify it in girl terms which I simply do not get (she's 'queen'). Seems girls in general look up to girls with an 'attitude' or 'sass', probably because all girls have some confidence issues (AWALT).

Sometimes I tell them Ariana's a skank just like the average club hoe. They get really emotional and upset after.

mr_wiffles • 51 points • 2 September, 2018 04:08 AM

Instead of frame control, I see this as having very high SMV. Because if your SMV is wicked high, who cares if some dumb cunt doesn't call you back - you've got a fucking pool of them to choose from.

Now having a big dick can help with SMV but outward appearance helps more because even small dick betas (in mind, personality, and capabilities) have high SMV. A woman gets more status among other women by being with a male who has a great body, muscle definition, good teeth, expensive clothes, etc.

voxiqs • 24 points • 2 September, 2018 01:36 PM*

Unless you have a small dick it doesn't matter

I would rather be over 6ft with a regular dick than 5'8 with a giant dick

Women are horrible at gauging dick size, ability to fuck them and how strong you are when they think about height. Not all, but most are stupid cunts when it comes to these things because they value height so much. I don't blame them at all, it's just life

[deleted] • -1 points • 2 September, 2018 01:54 PM

I hear this kind of thing time and time again about height but I just don't think it's that true. I honestly hear more men who are insecure of their height talk about the significance of height with women than men who are actually over 6ft.

voxiqs • 13 points • 2 September, 2018 01:59 PM*

No it's true, if you are 5'8 the deck is stacked against you but women will date you if you are taller than them

So having said that, height will matter and it's good to know the truth but with high smv and frame you can get any chick that isn't taller than you. Dating women taller than you is possible, I'm not saying it's not. I see it around Chicago but not often.

[deleted] • 4 points • 2 September, 2018 04:14 PM

Dating women taller than you is possible, I'm not saying it's not.

It's definitely possible to date or have a fling with a woman taller than you but it won't be stable. If you want to see textbook hypergamy watch what a woman does in that situation.

[deleted] • 2 points • 4 September, 2018 02:29 AM

"but it won't be stable" - GTFO man. When women say they want tall men or buff men, they really mean they want PSYCHOLOGICALLY STRONG MEN. Psychological strength is far more important than physical strength in the majority of human interactions

The other day a taller latina woman walked up to the counter at my work place. She was quite attractive for her age (late 30s). Standing just behind her was a short, fat, balding latino man. He stood almost a head shorter than his woman. This man said very little, however his gaze of STEEL combined with stoic attitude gave him an aura of incredible strength. You could tell this man was not to be fucked with.

This man was destroying the pussy.

I'm around that height and I see it around Chicago as well. But it really depends on the crowd you're in and the SMV of the girl.

voxixs • 1 point • 3 September, 2018 06:41 PM

Seriously depends on the crew you hang out with. I've hooked up with some really good looking woman in relationships here when I'm with my friends. Alone, I barely pull 6's. We are fun I guess but I need woman to give me a chance outside looks and height since every guy here is so fucking tall

Seriously wtf are people feeding their children out here

[deleted] • 1 point • 2 September, 2018 02:08 PM*

What do you mean that height will matter and it's good to know the truth? I do think women consider your height but I think it's men that put the weight behind how important it is. I'm 6'4" and there's no line of women outside my front door.

Edit: said height twice

voxixs • 6 points • 2 September, 2018 02:11 PM

Height won't automatically get you laid, just like a sports car, nice face, big muscles. You have to work on yourself. Some woman only date men over 5'10. I won't date woman under 5'3. Not a big deal man, just life. It's not going to make me stop and give a shit what some woman thinks of me because of height.

[deleted] • 2 points • 2 September, 2018 04:37 PM

willowhawk • 2 points • 3 September, 2018 10:17 AM

Just have an honest conversation with a girl about height. She will sit there and laugh at small men

TangoZulu • 5 points • 2 September, 2018 01:41 PM

Seems more about having Abundance mentality. It isn't about having a literal big dick (or good body), it's about having an energy or aura about yourself that signals to them that you're not needy. They equate it to having a big dick because they envision men with big dicks as the alpha males that all the girls flock to.

jebemtvoju94 points 2 September, 2018 10:24 AM **[recovered]**

Stop. It's a shaming tactic. It doesn't really mean jack shit, it's nonsense. It's used as an appeal to masculinity to help women get what they want from men. It works exactly because it means nothing and thus can mean anything.

see KrakaLakak's post

<https://i.imgur.com/pbUIRrO.jpg> Lmao. U go OP.

Correlate having a big dick with whatever you need at the moment and you'll get desperate insecure men tripping over themselves trying to appease your needs.

You're eating their shit up, OP. Fucking start thinking for yourself and stop listening to what women say.

[deleted] • 51 points • 2 September, 2018 01:10 PM*

Seriously, the normal guys with actually giant dicks have a ton of self esteem issues.

9/10 girls will not be able to handle or enjoy a dick like that, which means you won't be having or enjoying the sex.

The 1/10 woman who actually enjoys and appreciates your dick only appreciates your dick as a fetish and doesn't actually give a shit about you.

And every time you take a shit you have to hold that fucking snake or else it will dip in the toilet water.

Then the worst part, when you break down and try to complain about your legitimate problems to your friends, you just get laughed in your face.

Status > big dick.

If you have status, rumors of your big dick will be spreading around even if you are packing 3 inches.

voxiqs • 28 points • 2 September, 2018 01:40 PM

Dick size hard and soft have no correlation

My dick is 7 inches and looks like it's 3 inches

I had a guy tell me I have a small dick when taking a piss. I don't care but he told all our friends and the girls laughed at him.

I am starting to realize it isn't general non-specific confidence, but confidence about handling women that women find attractive. "Big Dick Energy" is a perfect meme for it.

scissor_me_timbers00 • 12 points • 3 September, 2018 03:18 AM*

This just confirms my maxim:

You must be more virile, than she is feral.

These stories always remind me just how fucking FERAL young fertile attractive women are. They will punish you for your weakness and reward you for your strength.

“Big dick energy” and confidence could also be called virility. In fact the root “vir-“ for both virility and virtue is the same because the ancient Greeks and Romans conceived of cultivating virtue as being closely related to building a virile manhood.

This is also the reason civilizations kept a fucking leash on these feral young women. Good god. Social media especially gives these ridiculous females way too much power just because they sprout an ass and titties.

So yeah, crushin puss essentially boils down to a conquest of her feral nature by exceeding it with your confidence/virility/“big dick energy” rather than attempting to impress her with all your soycuck progressive opinions.

Post_Tenebras_Lux7740 points 2 September, 2018 03:48 AM [recovered]

Would having a big dick necessarily give a Man confidence ? I have never considered this. I will now consider my dick before all social interactions !

SasquatchMcKraken • 29 points • 2 September, 2018 05:28 AM

What you do to her mind is more important than what you do to her body. I remember a post on here to the effect that 20% of chicks are cock hungry enough to make sex their primary consideration, but the other 80% have other priorities. They were talking about branch swinging but it applies here too. Adjusting for age and country this could be increased or decreased ~15% but I think it generally holds true. Once you're in the act it's already a done deal. It's what you do beforehand to get to the act that actually counts, whether you're slinging a 9 incher or a measly 4 1/2.

czech_man • 16 points • 2 September, 2018 06:42 AM

Yes it does give men confidence. Knowing that if you'd take your pants off she will make the OMG its huge face and brag to her friends afterwards will give a man confidence.

A friend of mine told me about a boy she fucked that has a 10inch. She said it hurt like hell and she hated it but still bragged to her friend afterwards. He apparently just undressed in a park and pranced around naked, and I thought: yeah, well of course. Not surprised he has an n-count of 60 at 21 yrs. He is not good looking, tall or even fit, pretty skinny fat.

tempolaca • -21 points • 2 September, 2018 04:09 AM*

Would having a big dick necessarily give a Man confidence ?

Only a women can believe something so stupid.

I have a big dick. Big enough to make vaginas bleed, happens very often. Anal is very often out of the question, surprisingly other times its the only way as it wont fit in the vag. No, I'm not a monster, just a little bit over 20cm and I already have those problems. It didn't affect my confidence, in fact it's a hassle because when girls see it, they freak out. I can't imagine how it's to have 25+ cm like in the porn industry.

BTW my LTRs like to show off to their girlfriends that I need big-sized condoms. It's a confidence boost for

them, not me.

SasquatchMcKraken • 7 points • 2 September, 2018 05:18 AM

420KUSHBUSH • 3 points • 2 September, 2018 10:14 PM

Guy this is like one of the key concepts discussed here

JJ3314 • 1 point • 3 September, 2018 10:22 PM

What about the 80/20 rule, and the OK Cupid study that showed that women on that site rated 80% of men as below average in appearance? That seems to contradict what was written here.

420KUSHBUSH • 2 points • 3 September, 2018 10:30 PM

You wouldn't be inclined to buy a car from a salesman that's desperately trying to get rid of it. 80/20 is prone to change as in who fits the criteria of the top 20 and who doesn't, not to mention the fact that women want you more than you want them if you understand that and act that way

Your mention of the 80/20 and OKCupid aspects only take looks into account. Women need much more from a man than just looks

JJ3314 • 1 point • 3 September, 2018 11:42 PM

I agree that the 80/20 rule needs to be analyzed a bit more. Perhaps I'll post on this at some point, but a couple of observations. One is that IIRC that OKCupid study showed women's actual messaging behavior was *somewhat* less harsh than their evaluation of male appearance. They didn't only return messages to the top 20% IIRC, although they were still pickier than men.

The other point is that I read through much of a book called "Cheap Sex: ..." by sociologist Mark Regnerus. He tends to use data with large sample sizes, and somehow was able to discern that 20% of men were having more partners than like 70%, with the top 10% having significantly more sexual partners than the next 10%. The thing is, however, that he applied the same statistical methods to women, and found a similar, though not completely identical pattern: there was a minority of women that were having *way* more sex than the majority.

I presume the dynamics behind why some women were having so many more partners than others is different than the factors influencing the same in men, but this is a novel observation that I don't think is discussed in TRP.

He did conclude, however, that even though there appeared to be a Pareto principle in effect for *both* men and women, comparing the less sexually active men and women, there were higher percentages of celebrate men than women (I don't think he quantified how large of a difference between the two). This was for men and women aged 20-50 or something like that.

420KUSHBUSH • 1 point • 4 September, 2018 12:41 AM

Well spoken. Humans are pattern seeking mammals and the mind sees what it wants to see. Truth in this case is relative. I personally went from believing all girls are promiscuous however now I realize that was a daft presumption which only caused toxicity

It is wiser to assume so, however, as with the concept of AWALT, it is meant more of a checklist rather than a book of rules

[deleted] • 14 points • 2 September, 2018 02:14 PM

As an aside Women will use the term "Big Dick Energy" because they prefer to be indirect as much as possible. "Confidence" is telling you directly. "Big Dick Energy" is vague enough that if you don't know what it means in that context, you're not in the "inner circle" and thus don't have "Big Dick Energy".

Yes, it doesn't make sense to me either, but hey, that's Womens minds for you. It's like the fact that Women stare at Men way more than Men stare at Women, it's just that they don't do it directly, and will ensure they never get caught. It's the same way they never ask a bloke for his number, they never make the first move, and they never tell a guy directly that they like them. (Yes, there are exceptions, but they are few and far between, and will be met with gasps of shock by other Women when they hear of it!!!)

This little convoluted games Women play must have served some biological evolutionary purpose, most likely they still do.

Excuse my little thought experiment here, and indulge me for a moment.

Consider that Autism effects far more Men than it does Women. Now, I'm not saying fully mute autism, but the whole spectrum. Now given that someone with aspergers is going to completely fail most of Womens shit tests, then I have to wonder if that isn't one of the reasons why Women have great difficulty in actually being succinct and to the point. As a method of weeding out the weak. (Harsh as that sounds!)

After all, some of my best lays have been with Women whose initial attitude and demeanor were practically hostile if taken at face value. Someone on the spectrum not savvy enough to understand sarcasm or playful teasing would be completely lost and would have just assumed "Shit, she doesn't like me".

And on the other side of the coin, Women having that kind of mindset opens them up to being exploited by sociopaths and narcissists. Those are people that really don't give a shit about anyone or anything other than themselves. In ladies parlance, they have an abundance of "Big Dick Energy", and yet from a biological view, they are probably the very worst kind of partner to mate with, who will most likely leave them and their child to perish.

Yet even in todays modern society, that drive compels almost all young girls to act the same. I'm sure we could sit and chew the fat on just why that is, but that is for another day. Suffice to say is that Women are very rarely direct when it comes to such matters.

(Anyone whose ever been in a long term relationship will concur; After all, who hasn't asked "What's the matter", only to hear "Nothing, I'm fine", said so barbed it cuts just to listen, and you know well not to ask, because, you should "Know already". Ha ha ha. After all, didn't we all attend mind reading classes when we we're little. I know I did!

Frozenlime • -6 points • 2 September, 2018 07:11 AM

Whats wrong if a woman is "easy to get". Why should a woman pretend she doesn't like sex.

[deleted] • 21 points • 2 September, 2018 07:48 AM

It fucks with her ability to pair bond.

And the "Why should she pretend that she doesn't like blah blah" is a stupid argument.

It's like if I play video games (I did for over 10 years of my life 24/7) and think it's a good thing, it's ridiculous.

I used to think the same way, but then I realised that I was just conditioned to feel that way.

In THAT moment, I thought they were fine, but in retrospect, it's just hamstering. It makes you feel good/fine in the moment, but the consequences afterwards add up, same as with girls who like to have sex.

PedoKingPrime • 9 points • 2 September, 2018 04:36 PM

A simple way of looking at it is how much effort is placed into something improves the way it is perceived by society.

For example my shabby 5 year old clothes probably provide the same amount of protection from the elements as a brand new Armani set but the effort required to acquire the latter is seen as a massive plus. Women require absolutely no effort to get sex it's worth as much as dirt for them so a woman who rolls around in it is going to be looked down on.

As much as this sub may seem to dislike hypergamy many know and accept that it is necessary. If the choices are any scrub can have sex and pollute the gene pool vs women doing their jobs and filtering for the cream of the crop the latter is clearly preferred.

Keep in mind that the overwhelming majority of slut shaming is done by women for this reason. If Sally is giving it up then that interferes with the ability of the other women to properly filter as the men would be less likely to jump through the hoops of other women if an easier path is available.

Alternatively it could be simple resentment as men have to work so hard for sex while women don't. Either way it's not hard to see why sluts are derided from every angle.

WhiteGhosts • 10 points • 2 September, 2018 07:24 AM

"The confidence that would come with having an enormous dick...like..they just wouldn't need to give a fuck what you think of them because their dick is so huge."

WHICH, as you well know, aligns perfectly with having control of your frame.

I think what she's doing is rationalization. She reacts to 2 things:

- He doesn't give a crap what she thinks
- He already sleeping with other girls so he doesn't care that much is he's also sleeping with her

Preselection - The idea that women are more attracted to men who already have the interest of other women. This saves the woman time in judging a man by using the idea that other women have already judged him favorably.

She can't directly say to her friends "The moment he's fucking you I also want to fuck him behind your back", obviously, so she expresses it as the closest rationalization that lets her talk about it with her friends without offending them. (Of course her friends are the same way).

Oh, also apparently this term arose from the confusion of all the women on the Internet as to how some SNL comic (I think) Pete Davidson was able to bag Ariana Grande. Which succinctly explains why I would have never heard of this.

They're going "wait...some hot girl fucked him? I didn't want to fuck him before, but shouldn't I want to fuck

him if this other attractive girl did?".

NotMyBestEffort • 2 points • 4 September, 2018 01:59 AM

No, it is because she said that Davidson has a 10 inch dick. He actually has Big Dick Energy.

I think it's great that big dicks are making their way back into the conversation. I sure as hell wasn't going to bring it up.

RedPill115 • 1 point • 4 September, 2018 07:16 AM

^ Yeah, it's feels like a reddit/political circle jerk because it is. It's the socially semi-appropriate way women communicate with each other "I did it with him so he's hot enough for you to do it with him to". It's preselection. That's what the "energy" is about.

[deleted] • 3 points • 4 September, 2018 07:21 AM

Sounds like your friend is kind of a cunt.

TrueFacets • 3 points • 4 September, 2018 02:47 PM

The "Problem" is that in order to act with "big dick energy" you need to have your shit together.

You need some money so that you at least can act. Like enough to do some stuff, either for yourself or with your girl.

The place where you live needs to be good enough to house yourself and comfortable enough so that you can entertain the girl you bring home.

You yourself need to physically fit enough so that you can deliver at least some performance in bed.

If someone does not have big dick energy its because he's not good enough. Or he's still super bluepill. But in order to at least break out of the blue pill cage you need to be able to act, and in order to act you need to have your shit together.

Back in university 2 years ago, at a frat party, I was chatting with a couple of friends, one of them was a Chinese girl with ok looks.

At some point of the conversation she told us that she could spot guys with big dick just by looking at them:

"You know, I can tell who has a big dick, it is just something I can see, feel."

I called it was bs, it was impossible for her to know the anatomy details of dudes just with stares at a frat party. Of course, by that time I didn't know trp and was completely oblivious to the fact that it was just her projecting positive sexual traits to confident guys who she found attractive, something similar to what OP just described. Good post OP, keep it up.

19yr old here, can confirm as "Big Dick Energy" is used sparingly now almost as a meme sometimes among various female friends on Twitter. The phrase can sometimes also translate into "masculine energy" as i originally defined it in my head. I've read various tweets about how their "man has big dick energy" for doing something such as picking a place to eat out without asking, being able to handle their moods without supplication, and even seen it once from a guy that apparently pulled up to pick up her date in a car with a stick shift. You just gotta love females sometimes man haha.

well... now you know why tyrone gets access to girls while not having shit going on in his life.
dude walks around like he's got the biggest cock on the planet (read "confidence")... which women are attracted to.
but then there's the stereotype that helps too.

The other day I came across a big dick energy post and it was just a list of all the BP stuff women want a man to do. So basically it's just a big hamster party.

Honestly it's just confidence. They are talking more about arrogance/being a dog/douchebag...

We call that abundance mentality here

This post is a gem. I know this because I've gotten this exact compliment before, Girls telling me they know I have a big dick because of the way I carry myself.

Btw, your sisters friend showed interest in you by asking your opinion. She obviously sees you as an alpha male, and the best thing you can do is laugh at that guy for being such a beta make. Always clown the beta male in front of women because they just don't "get it." Even if you're a beta male on your journey to alpha, say it until it becomes true.

Valid post. Big Dick=Big Wallet=Great Body=Big Achiever. However a shallow cunt sums all of that to the closest object in her mind - The Big Dick

I think this Big Dick Energy-concept that has been flying around for some time now is still sort of unclear to what it means. Many describe it as how your friends sister did but i've also heard that it can be how you are as a man in general, not only to women.

If you are manly and "raw", do not wimp for small obstacles and just go through life without being too fragile to details - in any field is Big dick energy to me, or as i've heard it.

Just had a convo with a current about BDE. It's a thing.

Asked her what she thought I had before we fucked.

She was right.

I've been told that I have big dick energy by multiple girls. When I asked them to clarify, they didn't know how to explain it, except one girl said "You act like Anthony Bourdain like you don't give a fuck."

No matter what you do with your "frame" it aint gonna change the size of your cock. You can artificially inflate your ego and self worth all you want. If you hype yourself up and then whip out a 5 incher, it aint gonna mean shit
