these bitches know deep down that they aren't the shit,

Deep down they don't really. Their solipsistic nature doesn't allow, they'll feel as boosted as their environment let's them feel.

Problem is many men in today's society don't have any balls at all.

It's important to note that this is a cultural issue and not a biological issue

weaker both psychologically and physically

Physically, certainly.

Psychologically, women have a different kind of strength.

Their ability to re frame reality to fit a more palatable narrative is an inherent strength, it protects the psyche.

A weak man is psychologically frail, he know's he's weak, he's the shitstain of society. Takes heavy strain.

A weak woman is not necessarily invisible to society, not as desired but doesn't take nearly as much strain. She reframes her reality to make it more palatable.

Well for starters stupid posts like these is the reason redpill got quarantined.

mods should delete hate posts regardless content

Secondly your fucking clueless women are inherent mentally stronger because they have to deal 24/7 with a human baby a man cant tolerate for 10 mins

hate posts regardless content

I don't intend this as a hate post, despite the aggressive wording. quite the contrary, my point is women act arrogantly because of weak men who defer to them, men that a woman cannot respect. women cannot respect a man who is weaker than themselves in confrontation. Maybe I edit my post and improve it later on.

women are inherent mentally stronger because they have to deal 24/7 with a human baby a man cant tolerate for 10 mins

that is a valid point, but when it comes to confrontation with people and the environment men have the advantage.

Nope. Sorry but dealing with a kid is nothing. Going to war is mentally demanding not caring for a damn off spring...

Not surprising that men are in practice psychologically weaker. There are numerous efforts and examples of the ways women try to break the minds of men. From divorce rape to harsh rejections to media representation and twitter hastags like #menareshit or whatever. We're being bombarded into subservience and only through awakening can we actively steel ourselves against it. Know your worth, never stop improving it.
