

The Story of Doc Paskowitz: King of the Alphas

February 27, 2016 | 2 upvotes | by [alpha_n3rd](#)

[Doc Paskowitz](#) was a successful doctor who quit his job to live in a Winnabego with his wife and raise his three boys at the beach and start a surfing school.

Thing Doc Paskowitz gives a shit about:

1. Fucking
2. Fitness
3. Surfing

He's RP as fuck. His wife would follow him into hell itself. His boys are all RP as fuck to boot.

There's a pretty entertaining documentary about his life

Legendary surfer, Dorian □Doc□ Paskowitz, abandoned a successful medical practice to withdraw from the lifestyle of mainstream America. But unlike other American searchers like Thoreau or Kerouac, Paskowitz took his wife and nine children along for the ride, all eleven of them living in a 24-foot camper. The family spent their days living by Doc□s rules on health, fitness, sexuality, and above all surfing. - See more at:

We could all learn something from Doc Paskowitz.

. Interviews in the movie with the Paskowitz children revealed many of them held deep resentments about their childhood, from having lost the chance to have an education, to the inappropriate exposure to their parents' sexual activity, to the extensive list of rules imposed upon them by their father. This had resulted in estrangement from their parents for varying periods of time for some of the children, though by the time of the documentary's filming, all of the children had reconciled with their parents.[16]
