

Internet date: A Cautionary Tale

This happened to me a few years ago, and thought I'd share with you guys.

Met a girl on an internet dating site. She was down for the pound. Early 30s, not bad looking. From a neighbouring town. Went for drinks then more drinks. Back to my place. Straight to bed.

Slapped it in her, unprotected (don't recommend that, by the way). I'm not a complete fucking idiot though, so I pulled out and nudded on her stomach.

She starts crying. WTF? I ask her why. She said her hubby had just left her and she was trying to get pregnant to get him back. Said I looked similar enough to him on my picture.

I'm guessing I would have been hit up for child support payments had hubby not fallen for it. Wear a condom, fellas.

If a girl ever got mad at me for wearing a condom, I would immediately assume she's got at least one STD. Cuz if she didn't want me to wear one then she probably didn't want any other guy to wear one either and that's fuckin gross.

I've had a few girls get pissed off at me for wanting to wear a condom. They usually say they are on the pill so one isn't needed, when I put one on anyways they are always like "what, don't you trust me? I told you I'm on the pill."

Nutcases. Had a girl do this to me by lying that she was on 3 types of birth control. Had to force her to take a Plan B

Good choice, but wear a condom. From what I've heard pullout barely ever works

It works, but only if you do it right. Precum sperm is mostly myth. Real problem is guys don't pull out in time, because it feels very good.
