

Why does Beta game work so well?

Hey, guys, so I've been asking my girl [space] friends to set me up with their girl [space] friends. I even told them to tell them that I was looking for a girlfriend. [no space!]

So I read a popular post about mixing alpha and beta traits, so I intentionally looked down a lot, avoided eye contact, and tilted my head when I accidentally made eye contact to show my subservience. I also made sure to be really nice. I also paid for their drinks and supper. Took them out to a movie as well. Ensured them the whole time that we wouldn't have sex until the third date.

At first I didn't think this would work but every single girl said they enjoyed my company and they wanted to be friends! Friends that are girls! Girl [space] friends!

So, I guess my question is how long do I have to pretend to want to JBF before I can finally game them. *AF* is a lie.

AF, it's a lie.

Funny thing is. If op was fit handsome and loaded, all that behavior would be 'Soooo ADORABLE!!' And yes, it'd get him some pussy.

If the guy was handsome and loaded that behavior would hurt his chances but his chances would already be high.
