[Mod] Tool for Crosslink Archives

September 11, 2013 | 26 upvotes | by redpillschool

In light of our new rules banning crosslinks I wanted to introduce a cool site that might be useful:

http://www.redditlog.com/

Simply put, it lowers the barrier to entry for posting crosslink examples, but eliminates brigade possibilities.

Check it out.

Also, I'm sorry the bot is removing inter-redpill links. I'm working on it.

NOTE: If your post or thread is removed by the bot because it links to a post or thread WITHIN /r/theredpill, notify a mod so it will be approved until RPS gets it fixed.
