Always assume that women has atleast 3 guys:

- 1: The beta orbiter
- 2: The emotional tampoon
- 3: The Chad that gets all the sexting and gets to destroy her hole.

ilikecaketoomuch • 117 points • 26 May, 2020 03:00 PM

Sometimes Chad "falls" in love.. and she replaces 1, with 3... and finds a new chad to destroy her holes while original chad is paying for everything.

I was once a chad, I was destroying her while she told her live in bf "she is at walmart putting groceries in the car is why she is breathing hard"... all while I felt her explode on my dick in her.

After heavy pressure, we moved in, found out 6 months she was riding a new guy. No hard feelings, I went back to professionals. She came home on the day I found out, all her stuff was at the door and ready to go.. she refused, got the sheriff to tell me i would have to evict her. Next day she mysteriously found a good reason to leave.

Confined09 • 55 points • 26 May, 2020 06:18 PM

Never understood this. I've been that side guy banging the gf but I would never even consider taking the girl in or getting serious. She has clearly showed she isn't to be trusted let alone faithful. Why in the fuck would you move her in. Mind blowing.

Guitar4fun • 8 points • 26 May, 2020 10:26 PM

Exactly what was happening to me. This actress and singer that I was on set with ended up banging me in my car and in a hotel room and she didn't end up telling me she had a boyfriend until later, this guy was paying the bills and giving her money and they had been dating for over a year. She invited me over to

her place when the guy she was living with was out of town but I had to decline.

Yeah dude, start reading monologues and film yourself reading them and perfect it, find your favorite one or the one you do best with when you film yourself and the monologue that fits you and who you are the most. After that, audition to gain experience and also read material on all the acting methods and try to learn as much as you can from them.

I've been focusing on finishing university as of now so haven't been auditioning for awhile, I've been playing in my solo project and my other band so miss it a lot. Once this Covid 19 lockdown is over I would work the monologues for an audition and focus on every aspect of the character as well as diaphragmatic breathing and perfecting your speech/voice. Everything is emotions and feeling, emotions are just an extension of instincts.

Guitar4fun • 2 points • 30 May, 2020 03:03 AM

Yeah I'd work on your breathing and voice and finding your voice in all of your characters and monologues and always be filming each time and you'll be amazed at the progress, even try to film your auditions if they'll allow it.

And thank you man! Getting two degrees was a lot harder than I thought, I was supposed to be done 8 years tops but I'm going on year nine so I'm ready to get the hell outta here, but it's been fun with all the bands, gigs, and of course the acting in indie films and theater, even picking up girls in all the bars and clubs traveling the beaches, but man, I'm ready to move on now from academia!

Awesome, you as well! My MGTOW advise to you when you start getting roles, do not give into temptation with the female cast, I learned that woman have that duel mating strategy, alpha fucks and beta bucks real quick, and girls will act on it as soon as they feel like they have you. It'll mess with your passion for the craft, as woman are all about the superficial dynamics of it, who's a lead, who isn't, who has the highest paid role and who doesn't, who has the most popular show, and they don't care about the art form, but it's critical to put your ego aside to succeed since it's the directors vision, and female actors are notorious at faking love than the average woman, so watch out. Act blue pill, but think MGTOW in that industry. Good luck to you! I hope to see you in a good movie or TV show.

You're on /r/MGTOW, you're going to get a very biased response. :D Go ahead and give up and be thankful.

Having said that, back in my women-loving days, one of the biggest lessons I learned was that if she WANTS you, she'll move heaven and earth to be in contact with you and/or meet you. If she's frequently seemingly ignoring you, it's because you're not important to her -- no matter what she says. Watch what she does, not what she says.

yellowlakes • -16 points • 26 May, 2020 05:17 PM

Then why does women cheating mean anything if men do it too?

GoneWithTheZen • 17 points • 26 May, 2020 05:39 PM

Because women hold all the cards when men play by their rules. mgtow is about men not playing by their rules any longer.

Cavannah • 10 points • 26 May, 2020 06:12 PM

Who said that cheating means nothing?

Redhood616 • 3 points • 27 May, 2020 04:33 AM

Because when men cheat they don't get pregnant with another woman's child and attempt to commit paternity fraud

RazorEdge22 • 3 points • 27 May, 2020 05:51 AM

Because women feel entitled to fucking everything in the world, while men have to work for everything they have. A woman cheating on a guy who's spent so much time and money on her can destroy him, while woman just as easily move on to the next guy to leech.

TigPlaze • 44 points • 26 May, 2020 01:35 PM

PrinceRaj53 • 6 points • 26 May, 2020 05:12 PM

That is what **she** wants her boyfriend to believe.

"We are just friendzzz baaaaaabe....".

Every woman have two types of guys in her mind (without counting the orbiters) :

1) The guy she wants to *be with* (her boyfriend, fiance, husband etc)

2)The guy she wants to *sleep with* (the guy who sees her as a good fuck and she sees him as a side dick)

Since I only have casual relations with girls with a time limit of 6/8/10 months, I have been the guy who sees her as a good fuck many times(without knowing she is in a relationship of course).

BlackPillPusher[S] • 10 points • 26 May, 2020 05:48 PM

Men put effort and resources into their relationships, women recieve male resources and male toil done specifically for them in a relationship, do you see where I'm going with this?

yellowlakes • -2 points • 26 May, 2020 05:54 PM

So somehow men cheating is more acceptable than if a woman does it? What about the women who put their heart into a relationship and are incredibly devoted and faithful but get dropped because Frank met the new intern? Guess that's not the same thing somehow, right?

BlackPillPusher[S] • 12 points • 26 May, 2020 05:57 PM

Men provide many unique benefits in a relationship for the woman in question, women provide none save for sex and sometimes the permission for the men to procreate, none of which benefit men alone, that's the difference, which is the same reason promiscuous men are studs and their female counterparts are sluts, it's way harder for men to gain favor with women, to be a slut a woman just needs to be there.

PrinceRaj53 • 3 points • 27 May, 2020 06:48 AM*

Edit : replied to the wrong comment. My mistake.

Ah, the "man do it too" cliché. It's been a long time since I heard that.

Interesting, how even when this sub is quarantined, someone still manages to virtue signal with their whataboutism.

Now let's talk about the "studies prove men cheat more than women" cliché.

The funniest thing is our overly educated people in general, like u/yellowlakes seem to miss one major factual point in this so-called researches who somehow "prove" men cheat more. What is that point? Here it is :

Men do not actually cheat the most. Men simply **Admit to cheating the most**. Because compared to women, men are more honest even if that honesty bites him back.

Now, why do men admit to cheating the most? Well simple, men have to. When the privileged gender(female) refuses to admit the truth and straight up lie even in such researches, the honesty has to come from one side at least. Unfortunately the honesty only comes from the human doing's side(men's side) and people start mentioning that against men to devalue men's arguments with their "men do it too" card. Funny, but interesting.

These so-called "Researches who prove men cheat more than women" also miss another factual point because they are afraid to say it as they don't want negative female attention, as feminists will target them if they dare to mention this :

A woman will *never* admit to someone, just like that, about the following four things :

- 1)her body count
- 2)Her sexual past
- 3)what kind of "adventures" she had
- 4)Her cheating on her man or any kind of wrongdoings against the man

Show me a woman who is honest about the above points to her man openly, just like that and I will show you a horse with wings flying around in the clouds.

Now I already know what kind of replies I am going to get, but let's see how it goes. What do they say in America? There's a first time for everything.

You're not talking about actual relationships though

Oh he is. Each and every relationship between a man and a woman is transactional. That fictional "unconditional romantic eternal love" is just another one of those Disney fantasies that people like to have because no man wants to be logical, indifferent and stoic when it comes to relationships and that is why it's men who majority gets fucked in relationships.

In those relationships the woman is just using the man for his assets

Women marry for money and other form of gains. Without any monetary or other form of gains which specifically benefits her and gives her security, status, satisfaction & money, an association is not going to be possible. Go look up Briffault's law. Search on Google or whatever engine you use, with this : "Briffault's law Psychology today" and you will get a detailed article about what it is u/yellowlakes.

Maybe you can point the knife at those shitty women but women in healthy relationships do pull their own weight and do a lot for their man

Shitty women? I don't women shitty for their evolutionary biological and psychological nature. You are doing that.

As for the "women do a lot for their man", in the short term of course because she is attracted to him at the start of a relationship(if there is any attraction). It's time and the tingles which slowly show the actual human nature on a biological level. When a woman exercises that, then the show becomes interesting. Disney fantasy does not work in real life mate, or girl, whoever or whatever you are, since westerners tend to have 1200+ genders nowadays.

Anyways, I don't have time to educate you on the other factual information such as the Alpha Fux Beta Bux(AFBB) dynamic which is an important part of male female dynamics that play a huge role in relationships, Briffault's Law, hypergamy, alpha fucks beta bucks(AFBB) etc, the Light Switch Effect, hypergamy, difference between sluts & studs, difference between Men in love vs Women in Love and why they are not the same, the dark triad(bad man personality) and why women are attracted to that, . Since I don't need to explain who rollo tomassi is, or the factual information about evolutionary female nature, as it will take a lot of time and efforts. Looking at your reply I don't think you are really that interested except for virtue signalling and downplaying OP's argument by saying the same old "men do it too" cliché.

yellowlakes • 1 point • 28 May, 2020 04:53 AM*

Why would women participate in a survey about infidelity just to lie about it? If they were so guilty and ashamed, wouldn't they simply avoid it all together? I can show you the statistics that conclude men do cheat on women at a higher rate as men age. Funny enough women cheat much less than men do entering 40+. That is far too big of a gap to claim women cheat more than men. It seems like you're just desperate to have the winning argument and you'll resort to anything. You're just making yourself look ridiculous. Men can be honest, sure but there are plenty of men that aren't. Think about the men in high positions of power. They sure as hell would not want to tell the truth. They're not going to risk being possibly exposed. More on that, it's men as you claim that are the providers and make all the money. Wouldn't you expect these same men to also lie on surveys for fear of losing their marriage and career.

You make it seem as if it's that difficult for men to cheat on their partners and find another woman. I guess you could argue women are using the men for their assets and are more likely to cheat since they only wanted his money. If that's the case then these same men also know how easy it is to attract someone just from money. What's to stop men from getting sick of their aging, nagging wives and find another woman who's much younger and attractive since he knows he can just "buy" her. Besides how do you know these same men aren't just using these girls for sex and validation? None of that proves he's "the more caring and honest sex" and would not cheat on his partner for a "better" opportunity.

You make it seem as if men are some sacred humans that are honest, want real relationships and would never hurt their partner. Why is it so hard to believe men have the same selfish impulses that women do? We're both humans after all. Being shitty is in our nature. I understand women are more favored in society and there are risks in things like marriage and how women can easily kill your reputation from a simple complaint. It does make sense to warn men of the dangers I'm sure you've experienced yourself. But it seems like this subreddit goes much further than that and takes it out against all women. Even women who never did anything wrong. How do you harbor so much hatred for someone's background instead of just being a subreddit that cautions men about the potential risks of being in a relationship or getting married? That's what really matters. Hatred just grows more hatred on all sides. It isn't worth it

yellowlakes • 2 points • 26 May, 2020 07:48 PM*

You're not talking about actual relationships though. You're referring to a transaction relationship. In those relationships the woman is just using the man for his assets. That's not love or anything that's supposed to define a relationship. Maybe you can point the knife at those shitty women but women in healthy relationships do pull their own weight and do a lot for their man. Even if there was a relationship where they didn't provide housing or contributed financially, they still put a lot of time and devotion into their partner. That's not something that's easy to just give away. Regardless, a woman finding out their partner cheating on them is still absolutely devastating. They deserve the same respect as anyone else and it's not fair to single women out for cheating when men can be just as awful.

bamabeatsny • 1 point • 26 May, 2020 11:39 PM

While that may be true (to a lesser extent than women), the men that are HERE in this sub, are NOT HERE because they cheated. They are here because the woman they were with cheated on them. Possibly multiple women, over several relationships. That may be why you're getting downvoted.
