

# Girlfriend never creates drama. Never does anything weird. I don't know what to do.

This is a weird post, and honestly it's done a bit tongue in cheek. But legitimately, sometimes I get a bit anxious about the fact that my LTR is going so well. It feels like it's wrong. RP has taught me that shit will hit the fan eventually.

My girlfriend just never, ever, creates drama. She never complains about anything, she's never upset, or moody, or "too tired". We have argued once, and it wasn't rly an argument, I just scolded her over some dumb shit.

She casually gave me her phone password maybe a month after we met. Never changed it. I use her phone for a lot of stuff since mine is shit, she's got notifications on home screen and doesn't use snapchat. She has my face plastered on all her social media. She tells me how she loves me so much every day, compliments me. She proudly introduced me to all of her family, I'm talking 40 people. Her childhood friends. And always brings up, "I have X friend, she rly wants to meet you".

I try to fuck with her sometimes, use some very subtle dread. But she doesn't bite. That's the weird part, she's got a super solid frame, she trusts me so much I can't hurt her without going nuclear. She never shit tests. And when she gives me a comfort test, I can't do anything but give her the answer she needs, because she deserves it.

It's pretty cool, but RP doesn't actually address this situation so much. I know I'm supposed to keep doing whatever I'm doing, but according to RP, it'll go wrong at some point anyway.

Bring her down to TRP Labs. We would like to study her, take DNA samples, and possibly replicate her for the broader market.....

SuperCrazy07 • 242 points • 18 April, 2018 09:52 PM

You want things to stop going well?

Buy her an engagement ring, move in together, send her flowers everyday while you profess your undying love, and constantly ask if she's cheating on you.

Sounds to me that she is in your frame and she thinks your SMV is higher than hers. Keep it that way. Remember, though, there are no unicorns. If you slip, she will reach for the next branch just like the rest.

[deleted] • 11 points • 19 April, 2018 03:10 AM

I literally ended my last relationship because I realised how much better I was than the girl I was with, all she had going for her was looks which she let go of once we started dating, she couldn't believe I "didn't love her anymore" it was weird because in the span of a week or so I lost all attraction to her and breaking up with an ltr of over a year felt like nothing

g4casting[S] • 2 points • 19 April, 2018 08:33 PM

To be fair my girl was like that at first. But I opened her to a lot of things, and she became much more interesting. She had no hobbies when I met her. Now she's rly into interior decoration and customisation, and photography. I introduced her to both, suggested we build her desk instead of buying it, and got her to buy a DSLR instead of a stupid compact camera. I would probably introduce her to more things if we lived together.

pretty\_bread • 2 points • 19 April, 2018 04:16 AM

Yeah some girls depend on their looks and thats about it, they are uninteresting and boring to hangout with, plate status.

needoptionsnow • 1 point • 23 April, 2018 05:38 AM

I just did the same thing. Ended a 4 year LTR. It's been two months now, and honestly, I feel great about my decision. I have a small sense of uncertainty (probably oneitis shit but I have been working on this by hanging out and hitting on more woman). There are no unicorns and the world is just so much more exciting if you strive to see it for what it actually is.

AWALT Billions of people of the planet and billions of them are women. Red Pill theory is probably one of the most accurate and pervasive theories on how society works, but even if it is 99% accurate, that means a few million people might not adhere to the program.

That being said, the worst part of AWALT is you don't know until you know. In other words, she might be amazing... ..until 5 years from now when she develops depression and gains 50 pounds... ..until she goes off birth control without telling you... ..until she meets Chad and cheats on you... ..until she has a kid with Chad, leaves you, and you pay child support...

Even though AWALT, you have to enjoy life. Enjoy her for who she is and what she has to offer you. Many guys will run into trouble in a perfectly good relationship situation because they are scared something will go wrong. Don't be paranoid, DO be realistic.

NofapFrance • 2 points • 19 April, 2018 02:00 PM

this, be realistic, enjoy your time/turn with her, and live life bro.

Incaahhh • 68 points • 18 April, 2018 09:49 PM

RP is semi-based on the concept of AWALT. Obviously there will be some outliers. Seems like you got one, grats.

room\_303 • 10 points • 19 April, 2018 02:58 PM

She's probably taken 100 dicks and wants to appear pure and settle.

lololmissme • 4 points • 20 April, 2018 12:27 AM

This. I have seen girls like this because they're too ashamed of their past and they're trying to settle with someone, who they'll obviously show their best to.

OP you should think if she's trying to "trap" you into a relationship in order to settle with her?

The only question I have is her past? Whats her n-count? a lot of girls become like that after having their slutty years

Incaahhh • 2 points • 19 April, 2018 04:03 PM

Yeah no

apollosapien • 32 points • 19 April, 2018 12:48 AM

You've found a girl that respects you. Keep being you.

Whisper • 32 points • 19 April, 2018 02:34 AM

Submissive.

Tiberiusaurus • 11 points • 19 April, 2018 04:00 AM\*

This.

Find the right kind of truly naturally submissive woman and this what you get. It's amazing.

If it falls apart it'll probably be because you fucked it up by not maintaining frame. Women like that become lost and confused if you break frame for even a second. But as long as you maintain frame, you have the perfect mate.

If you're confident in yourself marry her.

g4casting[S] • 20 points • 19 April, 2018 09:53 AM

Yes I realize that. She wrote me letters as a side gift for my birthday, with different themes. In one of these she basically says she admires me for my intelligence, my confidence, my willpower. She sees me as some kind of failproof dude who gets everything right and who's capable of anything. Whatever comes up she always tells me that I'll be fine, if anyone can do it it's me.

It's set me to a high standard and I love it. It gives me that extra motivation when I feel like slipping, because I don't wanna fail that image she has of me. I know that as soon as I get too comfortable, I will tarnish that picture forever.

LateralThinker13 • 9 points • 19 April, 2018 02:15 PM

Sounds like you found an RPW. Keep being a good Captain, and she sounds like a keeper. There are indeed outliers (I married one).

ramfex21 • 8 points • 19 April, 2018 10:58 AM

Just remember that she is in love with her ideal version of you. Eventually she will AWALT and see that you are just a man (although probably a good one) . And as we all know, women don't want just a man, they want the perfect man, which none of us are. Keep doing what you are doing but just realise that is impossible to stay that way long term. If it does she is an alien

[deleted] • 22 points • 19 April, 2018 01:37 AM

That my friend, is called a keeper

hawkaglejesus • 11 points • 19 April, 2018 02:42 AM\*

I consider following RP akin to wearing your seatbelt. I've been driving for a long time and have never been in an accident. Does that mean it'll never happen? Just because everything has been going well so far doesn't mean it can't change at a moment's notice. And it may be 100% due to factors that you have no control over.

So the question is, do you stop wearing your seatbelt because everything is fine? Or do you ingrain that behavior so deeply that you barely ever even have to think about it?

Maybe it'll take 5 years or 10 years or never, but either way, I'd rather make my own well being a priority.

[deleted] • 3 points • 19 April, 2018 05:23 PM

Great analogy.

A thing to remember is that when we say AWALT we're talking about a overwhelming majority, not literally every single woman.

There obviously will be exceptions. But like you said, if you've ingrained yourself to always wear your seatbelt (TRP), the fallout of a possible crash will be less severe.

module\_process • 8 points • 19 April, 2018 12:42 AM

Is she at the same SMV as you, or lower? Regardless, it sounds like you're doing it right. Keep your frame and keep working to improve your SMV. She might not bite on the dread, but she notices, or at least (at this point) doesn't think she can branch off into something better...if so, she'd probably already be shit-testing.

g4casting[S] • 12 points • 19 April, 2018 09:57 AM

She's far more attractive than I am. I'm really, really fit, but I have an average to below average face. She's a hb7.5 small blonde with a big ass and a great style. However I'm much more intelligent, experienced, and "cooler" than her. She has discovered a lot of things with me, and it was always a dynamic where I was leading her and getting her out of her comfort zone. She sees me as higher value for sure.

LateralThinker13 • 5 points • 19 April, 2018 02:16 PM

If she's wise, she'll realize your SMV is going up while hers is slowly decreasing, and cherishing you now while she's still on parity.

g4casting[S] • 1 point • 19 April, 2018 10:28 AM

I actually cheated on her, many times. It was always a one time thing, no further texting, not even a second round. I wouldn't ever cheat on my girlfriend by having regular side chicks. That's just too fucked up for me. It is too much lying and involvement. So I am left with ONS. And a few months ago, I analyzed the situation. I barely have any memories of those encounters. I forgot their exact faces, the sound of their voice, how I felt in that moment. I did it to feel validated, to be a player. I don't need their love, I don't need their pussy. I get that from my girlfriend. I realized the reason I cheated on her was very shallow, and didn't fulfill me in any way. On the contrary. Sometimes I wish I didn't, because she's been so good to me. Sometimes I just wanna say it and be done with it. I know it doesn't work like that. Anyway, I haven't seen anyone else in the last 3 months. I kind of tried a couple times with some drunk girls who were responsive, but I'm glad it didn't work out.

It doesn't bother me to give her commitment anymore, as long as it feels worth it.

recursoinominado • 1 point • 19 April, 2018 12:36 PM

Why do you need to be a player? Don't fall in this trap, nothing wrong with being faithful and monogamous. I guarantee you that if you don't lie, you are going to feel a lot better just for that. Go be happy, if she fuck up eventually, it is on her, don't be a dick because of the possibility of others fucking up.

Hottosmart • 1 point • 19 April, 2018 01:39 PM

Don't change who you are and just keep up what you're doing. After more time as you get to know her, you may feel obligated to let your guard down a little but this will change who you are as a person so refrain from this. This happened to me and now I am using TRP to dig myself out of this mess.

His question is should he just keep doing what he’s doing or does he need to actively do something else to make sure his relationship stays solid. He asks this because most questions here are about how to fix problems with women. His problem is that he oddly doesn’t have any problems.

She could be a submissive woman on INTJ/INFJ personality spectrum, which are the more rational women out there. They just don't give drama, can be often more rational than your male friends, often are quite aware of their own AWALT early in their life. Contrary to popular TRP belief, their rational & somewhat masculine mind that takes interest in sciences doesn't necessarily make them any less attractive, be it personality wise or looks wise, not at all. They will still like girly things like puppies, they'll still look like a woman and they'll still ~~like~~ love sex.

There is no catch as long as you keep to TRP.

quicklogaccount • 1 point • 19 April, 2018 12:31 PM

I feel your pain man. In probably the most ironic and inadequate usage of the line, ever.

Dramatic and moody behaviors are characteristic of one major personality trait called neuroticism, and women score a lot higher than men in that one, although we all score on it unless we're psychos. In a couple months I came to believe that my girlfriend had men scores on that one, or maybe scored less than myself. And it freaked me out, naturally.

The first impressions I got from her were unsurprising for RPilled folks, *although a good bit of them came from confirmation biases*. She made some shit tests, required a strong frame, and had crazy levels of abundance. Point blank I assumed her low neuroticism was rooted on confidence provided by abundance, so I assumed I was dealing with a ticking bomb and decided to thread carefully, shield myself as I could.

After a while I realized that shielded behavior was putting a strain on me. It took me some time but I switched to "fuck it, I'm not stupid anymore and I can take whatever punch she throws". This mindset eased the relationship for me and I started to freak out less. At this point, funny enough, I could notice some shit about her. She's not lower in neuroticism than I am, nor lower than men in general. Instead, she tries to portray herself in the fashion

she finds attractive in men, she remains shut about her weaknesses instead of using them to gather sympathy, she plays dread and tries to raise it when she believes I'm "out of the line". But her frame is weak, her insecurity shows and she reacts, MAINLY when her "dread" fails.

Basically, she's an intelligent woman trying to play the game she believes is the winning game, assuming that'll earn her the bigger prizes. *And since she still believes men's game is the winning game, it becomes noticeable that there are remains of naivety on her. Dumb women won't ever have the idea, and experienced women realize they're wrong.*

*Something I realized I need to do after RP is being rational, almost scientific, if I plan to have a relationship. AWALT, if I have any suspicion and look for confirmations, I WILL find circumstantial evidence for it. So I'm trying to ease myself by developing a habit of also looking into evidence that falsifies my hypothesis.*

\*I made a habit of being skeptical about my impressions. AWALT and she can't be different, so whatever woman crap I become suspicious about, I'll confirm it if I try. So instead I'm looking into making a habit of falsifying my sus

Kudos to you brother. Same shit happened to me with my previous LTR, basically she was perfection...or so I thought. That's until I fell into a period of depression and the dynamic shifted a total 180.

Don't let my words bring you down. I failed her only coz I allowed her to see me in my weakened state. Don't let the same thing happen to you. She sees you as her God, keep it that way all the time.

DillonDockery • 1 point • 19 April, 2018 01:00 PM

How old are you and how old is she? How did you meet?

ColmM36 • 1 point • 19 April, 2018 01:04 PM

AWALT of course but some women are better than others AWALT, but SWABTO

TheLoneProspector • 1 point • 19 April, 2018 01:40 PM

I had one like this. I blew it up. Could get her back but I doubt it. It is so weird meeting a normal, stable girl.

redd\_reality • 1 point • 19 April, 2018 02:03 PM

You're a fucking idiot op.

What you have here is a situation where you're needy, insecure and sabotaging your perfectly good and healthy relationship.

Believe me, if you want your relationship to crumble, keep fucking around and you will certainly get what you wish for, and all by your own hand.

Or, be a fucking man and recognize what you have in your life and use that calmness to add the stress of other challenges to it. Start a business, get a degree, take up challenging or dangerous hobbies etc.

[deleted] • 1 point • 19 April, 2018 02:47 PM

Good for you, sounds like you have a good thing going and glad you're happy.

Maybe it will never happen, and maybe it will, but if things fall apart, just remember AWALT and use the knowledge you've gained here to forge ahead, uncompromisingly.

Cheers.

I don't hide my concerns to her. It's too shitty to be in a relationship and not be able to talk about emotions with your partner. However I make sure to NEVER go on and on about it. Like I say what I'm feeling sometimes, we talk about it a bit, then case closed. People, not only women HATE whiners. If someone is always complaining and whining, you start getting rly annoyed with them and I'm well aware of it. The only "real" problem I have is long streaks of poor sleep. And she always asks me if I slept well. At this point I just told her to stop asking me this.

Your SMV must be significantly higher than her (even just in her mind) + traditional upbringing.

themormonchurch • 1 point • 19 April, 2018 06:02 PM

> RP has taught me that shit will hit the fan eventually  
someone may have taught you that, but it wasn't RP  
RP is designed to make LTRs work

whereTheBoysKeepItG • 1 point • 19 April, 2018 01:04 AM

Man you better wife this girl for real. You got it made. Trp is all facts, but you see right in front of you is an even bigger fact. You're living like with a good girl. Don't fuck it up.

Hottosmart • 1 point • 19 April, 2018 01:41 PM

He cheated on her multiple times already.

A good chunk of rp guys do. Its only natural for a man to want to start a family.

11-Eleven-11 • 0 points • 19 April, 2018 03:25 AM

I never said it was good idea only that many rp men want to marry ;).

Me personally, the only reason I would marry a woman is to have children. Other than that though

the cons are... well you know.

There're just so many reasons not to try to keep it going forever. One reason I haven't mentioned in this thread is that at a certain age, you lose your libido to the point that having a woman around becomes much less practical. You wanna fuck them, and that's what they're best used for. Anything else would be better accomplished with male buddies.

Spoken like somebody who doesn't value housekeeping, extended families, having a companion in your retirement, and growing old with someone.

There's more to RP than just getting laid. You do yourself a disservice.

Marriage isn't for everyone, and not every guy wants an LTR, I get that. Not even arguing or criticizing it.

But when I wrap my arms around my wife, I feel at peace in ways no bro, hunting buddy, or best male friend can give me. Maybe that'll last; I hope so. But if it doesn't, it doesn't. I'm going to plan for success but prepare for failure, as the saying goes.

beermagnate • 1 point • 19 April, 2018 07:29 AM\*

No way a girl who acts like that is hot. Really ask yourself how high is her value.

Tiberiusaurus • 1 point • 19 April, 2018 02:13 PM

He said she's a 7.5. You can find girls who are under an 8 like this. 8 and up though you are right.

DiscordantMonk • 1 point • 18 April, 2018 11:00 PM

I'm in the same position man! Just keep doing what you're doing and enjoy it!!!

Why does he need to do anything differently when what he's doing right now is clearly working?

BorisJohnson4PM • 0 points • 19 April, 2018 07:29 AM

OP if it's going great, congrats!! You've got to remember, if she starts fucking things up and things start to slide, get out of there fast. These are red flags BECAUSE we know AWALT, not because these things are inherently bad. She could be the only unicorn on the planet but it seems unlikely, but if you're enjoying yourself and she doesn't fuck with your gains, then crack on. Just keep vigilant.
