

Does anyone actually enjoy spending time with their LTRs?

July 2, 2020 | 85 upvotes | by [HypergamyDoesntCare](#)

Since becoming RedPill aware I have noticed I don't actually enjoy spending non sexual time with my LTRs, I get the feeling I could be doing something more productive (even when it's scheduled downtime). Back when I was bluepilled i would count down the days until i got to spend time with my then onetheis, pathetic.

Even in current LTR most the time we just fuck and watch a film or go on a walk. We travel quite a bit but I have to say I actually prefer travelling on my own.

Is anyone in the same boat?

Why the fuck would one have an LTR if you don't enjoy spending time with her lmao

What the guy before you meant is that it shouldn't matter to you if you're on top of your game all the time.

Firstly, if you're genuinely high value she probably won't leave any way, no reason to keep an act up all the time. Just make sure YOU are enjoying yourself.

Secondly, if she leaves because you fucked up, who gives a fuck? Get a new one and start over. I'd rather been having fun for a few months for her to then leave me, that constantly being on like the faggot OP in hopes of keeping her longer while not even enjoying my time spent with her.

If your trying to be on your game 95% of the time, you're putting her on a pedestal and are doing it because you're afraid to lose her.

Don't be a dancing monkey, just be a good version of yourself.

Because semantics. Change girlfriend (in the bluepilled sense of the term) to LTR, and voila, you're RP. Except it's actually just a plate.

No real change is applied, no spinning is done.

REAL TALK! FACTS! these blue pills with their gf's thinking they're RP. haha

Whisper • 2 points • 3 July, 2020 06:06 AM

That's pretty much the size of it. I didn't choose FunSize or FanGirl because they were the best cock suckers of all the boring and annoying bitches who have ever sucked my cock.

They're fun to be with. If yours aren't, dump them.

Psychological_Radish • 141 points • 2 July, 2020 04:03 PM

I don't have a LTR now, but I did enjoy actual dates with my previous girl. She was a lot of fun to be with. I don't know what to tell you other than maybe your girls are just boring.

This idea that one always has to be productive at every minute of every day is a strange modern phenomenon. I've been noticing it more and more lately among the younger generation, especially with the MGTOW types.

jackandjill22 • 7 points • 2 July, 2020 07:37 PM*

There's always something better you could be doing. When I'm working on something even my family knows I can disappear for weeks at a time. If I would brush off calls from people who are the nearest to unconditional relationships *wtf* would I waste my time with a disposable bitch who only leeches from my life?

Women especially, to men who're productive are compartmentalized into a certain small segment of our lives. Guys who can't do that end up with messy lives *because women are Fucking messy*.

(Edit: the reason you probably see it proliferating among zoomers/millennials is probably because of departures from previous expectations of gender/masculinity roles & also because of lack of financial security because of concurrent Recessions; these real issues are changing our priorities)

Psychological_Radish • 23 points • 2 July, 2020 07:48 PM

That's a timeless lesson in frame, for RPer's regardless of their age. As they say:

PUA - *All game, no frame.*

MGTOW - *All frame, no game.*

Seems these forums have forgotten some of the best lessons taught by it's Vanguard users.

Kannonn • 9 points • 2 July, 2020 09:45 PM

Sums it up well.

It's the product/sales situation-- quality features vs quality marketing.

To reach your full potential you're going to need both.

proactive-defense • 4 points • 2 July, 2020 10:56 PM*

I hate purchasing a product where they've clearly put all the effort into marketing, and none into the product. Like what did they expect was going to happen, I'd get a shit product and just be like "well I was hype for it"

boiihowdy • 10 points • 2 July, 2020 08:08 PM

Why would you waste your time with "a disposable bitch who only leeches from my life?". Easy, you wouldn't. That would be stupid. But, just because something is messy (and women definitely are) doesn't mean it's a waste of time. I think you need to invest in the people around you (especially for a LTR), but ensure they're the right people. Of course you wouldn't want to spend time with someone you didn't like and viewed as a waste of your time. Most people use LTRs as a means to marriage, or something very akin to that. So it seems pretty simple to me, don't date someone you wouldn't at least consider marrying. Date people that definitely have the same values as you and enjoy some of the same things, then you don't feel like you're wasting your time, because you aren't.

dzmisrb43 • 4 points • 2 July, 2020 10:59 PM

I don't believe in that.

You can say that you don't care about sex as much as being productive as a sexual strategy. But that's the lie unless you are some weird guy with brain issues like asexuality.

Because there has been a study done that man would choose sex over food or anything else even if they are hungry because it's core biological drive. Unlike having to be always productive which is not core biological drive like sex is so it always loses.

You are probably not aware of it but your philosophy of not caring about anything else and being productive is subconscious way to appear more attractive to opposite gender. If you had a man who never read about red pill and similar philosophies about attraction and gave him choice between chance to have sex with hot prime girl or chance to be productive I can bet every man with normal brain(not asexual) would choose to have sex with hot prime girl in the blink over being productive. Simply because he doesn't have this subconscious projection that if he is choosing work over girl it means he is and will be super attractive to women in future. Some red pillers are ironically caught up in blue pill due to their belief that they somehow transcended a core biological drive which is center of every living being, and that breaking of one delusion makes them caught up in another one, just like in Matrix and in life.

That's a red pill most red pillers don't want to swallow.

jackandjill22 • 1 point • 2 July, 2020 11:02 PM*

Not really. You can *"not believe it"* all you want. Just because you indulge in every opportunity of your base impulses - *doesn't mean everyone's like you* don't project your flaws onto others. The older you get & the more experience you have the more apparent it is, because you become more in control of your drive as it goes down.

Being gay is genetically a dead-end but it still exists something interesting about being a human, capable of reason, & living in a society; means we're not slaves to our primordial instincts.

dzmisrb43 • 2 points • 2 July, 2020 11:14 PM

Don't worry even if you think you are beyond nature and beyond it's control you are playing into it's hand either way in some ways even more so (but no point in explaining to you exactly why since you don't want to accept it) like a little ant that thinks it's in the control while it's unaware it's making making an anthill. You can't escape nature.

jackandjill22 • 0 points • 2 July, 2020 11:26 PM*

like a little ant that thinks it's in the control while it's unaware it's making making an anthill. You can't escape nature.

First, you're not anywhere near as smart as you think you are.

Secondly, you don't have to believe that there are people better than you regarding integrity. But that's not going to make your life less shit. Not everything everyone does is constantly based around one goal. *Not giving a Fuck what people think about you* isn't some subversive plot to care what they think. How much clearer can you be?

There's a very simply quote that summarizes this.

"The entire Social Network movie is based around the premises that we made Facebook to rate hot girls or date, it doesn't realize that sometimes people build things because they like building". - Mark Zuckerberg

dzmisrb43 • 1 point • 3 July, 2020 12:00 AM*

First stop being so triggered it's leaking through.

I don't care if I'm smart so no I don't do this to appear smart I do this because there isn't 10/10 prime blonde to give my bj if there was I wouldn't be writing this. And what's your reason for writing this, weren't you talking about there always being something better to do than having sex with beautiful girls and at the same time here you are giving your time and arguing with some guy(or guys since you responded earlier to people) you supposedly think is delusional on the internet. Stop coping. At least I'm not delusional.

My life is not shit because there are some guys who think they don't care about sex or think they don't care about being attractive to opposite gender. It's shit because I'm rotting not good looking enough human who can't have eternal youth and can't have sex with prime blondes whole life because of ageing body without paying them and I know that deep down so I cope with purpose. I'm not that smart I'm average in iq I think I'm just more aware of my inner workings and deep motivations compared to some people.

Also lol at posting quote supposedly summarizing this whole conversation and my arguments while that quote being made by person who has problems with brain which are obvious to even most dumb people everyone can see it from a mile, while I said people who are not normal are excluded because they are not normally developed (I have example of asexual people that do exist but are simply unnatural abnormality and don't prove anything).

Edit: And of course when you are called out you stop talking which was easy to predict to appear cool even though you showed you care way before end of this conversation so your attempt is kind of futile.

_-resonance- • 2 points • 3 July, 2020 04:21 AM

Put another way...

Productive, successful men have limited availability to share with women.

It's easy to get caught up in a love affair and let it take precedence over life-gains. Instead, one should make known his availability (to the woman) and bail out *on time*, even if she says she wants to keep fucking. Don't compromise progress toward your purpose to spend time with a hottie.

If you LTR'ed a girl you don't like hanging out, sounds like a lack of abundance because you wouldn't promote a plate to LTR if they weren't "special" to you.

I've had an experience with a girl where she was chill, sex multiple times a day, sometimes silly but just not a girl I would be proud to say is my gf. So I cut it off when she starting asking where this is going and implying a relationship.

Current LTR is amazing. Cool girl that makes me laugh. Willing to try new hobbies and activities. Basically all of the same pros the previous girl had but also has none of the shortcomings I saw with the other girl.

GoldAlfalfa • -1 points • 3 July, 2020 10:18 PM

High quality woman? You've been sucking on that blue pill dick for too long. Women will treat you like shit unless you're a chad, if not they will show you how they really are. No point of having an LTR if you don't enjoy her company. Might as well spin plates

TheGirlGetter9000 • 20 points • 2 July, 2020 06:29 PM

Um, no.

Even though my sex drive has tapered off for my LTR (we still fuck 4-5x per week at my choice, but earlier on, I used to fuck her 10+ times per week) I still really like hanging out. We do lots of fun stuff.

Contrary to many without experience with women, I think they can make great companions. I do tons of things with my LTR.

Ciabbata • 10 points • 2 July, 2020 07:41 PM

how do you fuck 10 times a week, go on dates and then still handle your own shit.

TheGirlGetter9000 • 6 points • 2 July, 2020 08:10 PM

Time management. Plus, at that time, I was probably only seeing her 4x per week.

Week looked like... weekdays during the day: go to college classes. At night: go to the gym. Later at night: hit her up to hang out and bang.

Weekends looked like... study much of the day. Go out at night. Hit up girl to come fuck me at night. Sometimes to party with me, then fuck me.

I was picking up other girls during college too. I fit that in by exclusively messaging them on dating apps during bathroom breaks and in classes I didn't care about by sitting in the back. Or meeting them through natural avenues (parties, classes, etc).

Time is your greatest asset if you learn to use it well. I didn't play video games, watch TV, or use Reddit much during college (and will probably stop using it again once my job starts in a couple weeks). Pretty much everything I did added value to my life. Admittedly I also made few close friends--mostly, I just made one true male friend in college--which definitely helped free up time to do so many other things. In my opinion friendships are overrated. I'd rather grind at work and grind to bang women than drink beers with an Average Joe.

rockyp32 • 5 points • 3 July, 2020 06:58 AM

that last part i dont understand. Bros are legit the best. having close friends that are always there for you is amazing. TRP is so lone wolf sometimes. But in reality the best things are when you and your friends make something. 10x better than doing something all on ur own. Those friendships would bring you a lot more value than the tinder thots your choosing to spend time with.

TheGirlGetter9000 • 1 point • 3 July, 2020 03:13 PM

TRP isn't lone wolf. I am.

I don't feel the need for any more than the few close friends I have.

And I don't spend much time with Tinder thots. One night every couple weeks isn't a boatload of time.

Bungee • 4 points • 2 July, 2020 07:13 PM*

I never understood why rp men go in LTR's if they don't plan on having kids with them. Of course you can use the time better, but if you have kids together, you should spend time together raising kids and occasional vacation, dinner and so on but still more focus on your mission etc. You just won't have as much time for hobbies and fitness.

If you have an LTR just because you are lazy, it won't last, and it's scarcity mindset. Spending time with her will keep you away from your hobbies and mission and you will inevitably change. Do you really want that? You can have fwb's you can do stuff with.

If you are committing, do it right.

wyota • 2 points • 3 July, 2020 12:22 AM

We're all(almost all) wired to want a special partner that we can deeply connect to, and such bonds take years to form. I know I'm that way. It's just human nature. I'm today's filthy feminist environment, this ideal scenario isn't guaranteed for many men, and so they go to the next best thing, which is why this sub exists. It offers sex and a serotonin boost for the serotonin-deprived men. This is the sad reality.

dusara217 • 1 point • 2 July, 2020 07:56 PM

While I definitely agree with this idea, I'm curious: what do you define as a higher quality woman? What differentiates her from a low quality woman?

TheGirlGetter9000 • 3 points • 2 July, 2020 08:04 PM

It's tough to answer such a general question since a woman can be high quality in all sorts of ways. And what I consider high quality for a plate/FWB is different from an LTR.

Generally speaking, being interesting, laid-back, hot, and not crazy (reasonable n-count, no tattoos or crazy piercings, no ex BF that I think may shoot me, etc) is a good starting point. Other factors can increase quality but are probably more individualized to me... for example I love funny women--which is a rarity, especially since many funny women are promiscuous--but I recognize most people don't care about that as much.

DTron2332 • 2 points • 2 July, 2020 07:44 PM

Yes, that's why you get in an LTR in the first place. You decided to get into an LTR because you lacked abundance mentality, since if you didn't enjoy hanging out with her that much you wouldn't have decided to be with her in the first place.

Why spend time with someone if you don't actually enjoy the time being spent? This means you are wasting your time, and time is an extremely valuable commodity.

BriefcaseHead2 • 2 points • 2 July, 2020 07:45 PM

Some girls are just boring consumers. I have had the same thing OP I'm surprised so many commenters disagree. Obviously you shouldn't be in a committed relationship to a girl like this. Especially since you have that productive mindset, you just will not be working to your potential with her, and you'll probably remember the time you had alone was so much more fun anyway because you were just left in your thoughts and if you were in public there was always the opportunity to approach someone new. The longer you stay with her the more you will regret it in the future.

ImNotSue • 2 points • 2 July, 2020 10:36 PM

There's a certain amount of acclimation that will occur in any extended relationship, whether with someone of the opposite gender and platonic / sexual / romantic. Or not New people are novel and exciting. Familiar ones aren't. That doesn't mean bad necessarily but you get to decide what's worth your time.

This style of DAE? post is telling me that you're looking for external validation of your actions. It sounds like you're asking because you don't understand yourself enough yet. Chase short flings if that's what you want and have fun, or LTR and pursue if that's your goal. Just use some self analysis and understand why you're doing it, so you can make that decision as a man aware of and in control of himself. That comment about 'why are you in an LTR if you don't enjoy being around them' is apt.

You asked for others experiences so here's mine: I'm a bisexual dude who decided to get married to another man, and gets to enjoy men and women on the side. I'm with my husband not because he excites me every day after 10 years of marriage, but because I appreciate what he can do for me as a man and how he's proven that he's been worth and is *still* worth my time. That principle is not different if he was a woman instead, or just a friend, or just a fuckbuddy, or whatever. I would just judge a woman or a friend by a different metric of value because women are not men and friends are not spouses or fuckbuddies.

So figure out what you want, if your LTR is fitting what you want, and act accordingly.

Andgelyo • 2 points • 2 July, 2020 11:28 PM

This is exactly how I feel, I've been in an LTR for over a year and I'm honestly quite surprised I lasted this long. I enjoy going out to dinner dates, and hanging out but i do wonder about fucking other girls sometimes

LTR's like this will only end up hurting your own ego

theguytheguy1000 • 2 points • 3 July, 2020 03:00 AM

if every girl you meet is boring, it's likely that you're boring.

girls react to your energy, If your energy is wack, you'll get wack energy back.

i've been in your shoes and frequently wondered what the point was of being with said girl. Then I realised that the fact of the matter is that women will never make you happy but if you are already happy they can make you happier. they're like the icing on the cake, not the cake itself.

Now that i walk around feeling good and shit, i find myself bringing out the fun in most girls i meet assuming we aren't a complete mismatch.

chootey • 2 points • 3 July, 2020 11:51 AM

I feel you on this one. I enjoyed spending time with my LTRs in the past, but yeah, I always feel like I could be using the time for something productive. There are a lot of things I want to do/accomplish, I don't want to spend all my time with anyone. It's great to have fun, but all the time?

The guys giving you shit either really have their life together or have no ambition. Those guys like Elon Musk or Steve Jobs that work 80 hours a week certainly aren't spending all their time with their girlfriends.

[deleted] • 1 point • 3 July, 2020 03:27 PM

Exactly

PreEntertain • 3 points • 2 July, 2020 06:08 PM

Only reason I'm with her is because she's my go to when I wanna have fun.

Which usually means eating out, drinking lots, and fucking. Can't fuck your bros.

PreEntertain • 5 points • 2 July, 2020 06:09 PM

Not that there's anything wrong with that.

PreEntertain • 3 points • 2 July, 2020 06:09 PM

I know a lot of you guys wouldn't turn down a bro job either

imtrynaclapnocap • 1 point • 2 July, 2020 06:23 PM

catsdontsmile • 1 point • 2 July, 2020 07:43 PM

Not that there's anything wrong with that.

No, of course not. I have many gay friends.

yacrazu • 2 points • 3 July, 2020 03:31 AM

My father's gay.

spider_1337 • 0 points • 3 July, 2020 05:49 AM

catsdontsmile • 1 point • 3 July, 2020 03:46 PM

...we were all quoting Seinfeld

lilgoatedboy • 1 point • 2 July, 2020 06:57 PM

Yes

DifficultContext • 1 point • 2 July, 2020 08:31 PM

I do enjoy my time with her. Sometimes we just hang in the same room and not say a word because we are doing something different. Cracking jokes with each other, talking about fun and obscure hypothetical situations (non-sexual).

I do not tolerate her bullshit and I will call her out on it. It is a good discussion.

I also enjoy groping her at random times.

drunkPKMNtrainer • 1 point • 2 July, 2020 09:10 PM

Yea. I enjoy my time with LTR, whether we are busy doing something or just being lazy.

big_ass_package • 1 point • 2 July, 2020 09:24 PM

What the FUCK? If you cant enjoy a little time with her outside of her pussy...and still keep handling your shit...then shes not worth it. Its hard to manage the good ones that cook and clean and put in that effort we all want. Ask yourself what you want. Its your choice who cares what anyone else thinks

curvedbymykind • 1 point • 2 July, 2020 10:27 PM

this is a joke right? of course not

Trengingigan • 1 point • 2 July, 2020 10:48 PM

I actually love spending tike with my gf. What I dont like as much of her and most of my LTRs is talking. They always want to talk and talk more than I do. But as fir spending quality tike together, or just cuddling or doing something cool or watching a movie, I like it.

TxnyMontana • 1 point • 3 July, 2020 01:43 AM

Dude, you're so obsessed with blue pill red pill yada yada yada that you're forgetting you're a human being. Behave like one of them. Being RP is being Calibrates and assertive.

Just have a good time with your LTR, otherwise don't get in a LTR.

[deleted] • 1 point • 3 July, 2020 04:35 AM

If you don't enjoy spending your time with your LTR she probably shouldn't be your LTR.

rockyp32 • 1 point • 3 July, 2020 06:52 AM

idk i think thats just insecurity deep down you dont trust her cause of what weve learned about the nature of woman. youd probably enjoy it if you just let yourself

despertaferro_1311 • 1 point • 3 July, 2020 07:35 AM

You are not in love with her and you should dump her today. You are wasting your time and hers. Do not enter a LTR if you don't enjoy spending time with her, for fucks sake.

daddysgotanew • 1 point • 3 July, 2020 01:41 PM

I do but only in short bursts. I don't know how any man lives with a woman. That would drive me absolutely batshit insane. I like to be able to have fun and then say "ok see you in a few days" and then go do my own thing

salsamasterer • 1 point • 3 July, 2020 03:58 PM

This "non stop grind" culture is idiotic, you don't have to be productive 100% of the time. Have some fun once in a while

Zapche • -2 points • 2 July, 2020 06:16 PM

Idk why people are coming at you lol I have felt the same way as you and it's probably cause I only see woman as sex objects

TheGirlGetter9000 • 5 points • 2 July, 2020 06:33 PM

Either low quality women or what you said. I used to think like this, but then I actually started to give a fuck about what the women I associated with were like as people.

Turns out, self-fulfilling prophecies are a real thing.

Zapche • 1 point • 2 July, 2020 07:42 PM

I have this problem we're I get absolutely fucking disgusted with woman that I convince to sleep with me lmao I'm like your such a whore for my game to work on you

TheGirlGetter9000 • 1 point • 2 July, 2020 08:13 PM

Wrong mindset to have. I (subconsciously) tend to think there's something wrong with a girl if she does not sleep with me, lol, rather than if she does. Because if you're high value, that is literally supposed to mean women want to sleep with you. If a particular woman does not, it means she does not realize you're high value (truthfully it doesn't--she could have a valid reason, but this is how it feels anyways) so therefore, unlike other girls who are picking up on that value, she must be defective if she is the only one not recognizing it.

At least that's how my hamster runs the wheel. But it works for me.

Zapche • 1 point • 2 July, 2020 08:57 PM

Not for me man lol if a girl is willing to fuck me especially raw. I'm just looking at this girl with straight disgust. Like wow you are the type of bitch that makes me not want to have a daughter lol. And I crush ass and always ghost them after I hit it once cause I'm utterly disgusted with whores. I just don't like that they're willing to fuck so easily

TheGirlGetter9000 • 1 point • 2 July, 2020 09:45 PM

I mean I feel that. By chance, are you young?

This sounds a lot like me when I was younger. I've had like 20 ONSs and my n-count is like 25. Only recently did I kind of flip the script mentally and let go of my internal opposition to the way the world works. Now I just enjoy it and accept it as it is. I'm turning 23 soon and it really only occurred the last year or so. But it's definitely helped me a lot as a person.

Zapche • 1 point • 2 July, 2020 10:11 PM

Yea I'm 24 Ncount 30+. Tbh I'm just getting sick of random pussy it's just not doing it for me anymore lol I find no satisfaction from convincing some bimbo to suck my cock

TheGirlGetter9000 • 1 point • 3 July, 2020 12:33 AM

Facts. I even have an LTR who's okay with it if I fuck randoms. Used to take advantage of it--nowadays, not so appealing. Haven't hooked up with a new girl in a year just out of lack of desire.

Zapche • 1 point • 3 July, 2020 11:28 AM

I guess I'm just realizing that there is no real reward for crushing ass and I don't brag about it so no one knows but me and I don't even care so wtf

TheGirlGetter9000 • 1 point • 3 July, 2020 03:19 PM

Yeah, pretty much. Beyond a certain age you're kinda weird if you even talk about it. Even when you're young, nobody really wants to hear it.

These days my life is mostly about maintaining my LTR and stacking that paper (plus the gym obviously) and lemme tell you... it's much more fulfilling

[deleted] • 1 point • 3 July, 2020 03:11 PM

Get your t checked

TheGirlGetter9000 • 1 point • 3 July, 2020 03:15 PM

It's not like that. I'm focusing on things more useful to me again. In college I kinda took a vacation from trying in life to crush pussy, but now I want to be wealthy

KEKPOP • 0 points • 2 July, 2020 08:42 PM

embrace monke, beat her ass up

VojvodaSrpski • -3 points • 2 July, 2020 06:16 PM

Seems normal to me if you're above average intelligence. I very much doubt I'll ever find a girl that I'd genuinely consider to be interesting.

I'd much rather spend my free time with my bros, than any girl I can think of.

wyota • -1 points • 2 July, 2020 11:36 PM

OP has gone off the deep end. Take a break from this sub, your mind is all fucked up. Too many men aren't resilient enough to handle the Redpill it seems.
