Damn - glad to hear it. I was worried that the UK was way down the fem rabbit hole with the insane Nottingham laws. This shows some rationality in place.

What about the fathers, what about the feminist talking points that "women are given custody because its a sexist system, which forces women to raise the kids".

Which one is it? Do you want to raise your children or not?

Yeah, just forget about the fathers who want to watch their children grow up, because in today's society, a man's feelings does not matter. That's why the vast majority of people committing suicide are male.
