I love how a lot of them are spewing crap about how men can't deal with "the facts". So, so funny.

3rd wave feminism is the most man pandering -

Lemme stop you right there

These people are delusional, they live no where near anything resembling reality.

Or sane people for that matter.....

Man friendly?

Oh, you mean reservations for women at high paying jobs/institutions, reducing the possibility of a more deserving man to get the job/seat? Or do you mean the women's sports teams getting a higher portion of the earnings? Maybe you're referring to the fact that if a woman even falsely accuses a man, he is treated guilty until proven innocent? Perhaps you're talking about biased divorce laws, giving women the custody of the child in 90% of cases, and often alimony even if the woman provided nothing to the marriage and isn't able to find a job because of her own incompetence.

Feminism is man pandering ☐

They can't keep their facts straight can they..... They protest that porn is harmful for women. Here they are saying we pander it. Listen here.... In my opinion, if you are protesting porn then you are essentially slut shaming the women who participate in such things. Actually, it's not my opinion, that's a fact.

That was literally dripping with misandry, and here I am wondering how the fuck someone can argue that misandry is not a thing ☐

funny how a lot of well-known porn actors are actress. maybe because society thinks women body is more attractive than a male's body at a WHOLE, and not just mysogirapists.

They actually believe that

This is the most sexist shit I've ever seen, man friendly means grooming young girls to commit harmful sex acts? Do these fucking women think all men are rapists or are always starving for sex? This is the shit actually

hurts my brain on how fucking brain dead these people are. These are the same people who protest against the lockdown. Jesus Christ these people are like secluded in their own special bubble where they only take information that paints all men as bad guys and any real facts can't enter the bubble.
