

Hi! My name is Sam, and I'm a 15 year old conservative. I made this video to explain the left's complete hypocrisy on sexual assault - I hope you all find it interesting!

I used to be homeless, I lived in a shared accommodation, I made a friend. This other guy at the accommodation was sexually harassing my friend and I had no idea.

I work in a hotel, when I passed my probation I got a free hotel stay and I was allowed to bring a friend. I invited my female friend.

Months passed and I found out about the sexual harassment. She told me that the day before we were going to at the hotel, the other guy told to her that me and the guy had a conversation about her, he said I wanted to rape her because that I said women with big tits deserve it, I was mortified to hear that.

Thankfully she didn't believe it. I should also mention that at the shared accommodation there was staff members, they also didn't believe a word. I saw all the texts it was horrible.

My point is, evidence trumps allegations, people should not just believe, it can very serious consequences.

Nice. Good to see that another kid (I'm 11) knows good politics.

It think you forgot that trump was also sexually abusing women against their will and had several affairs with other women. And nobody of you „non fake news“ guys are talking about that one. If you want that the mainstream media like CNN to be objective, you must first start with yourself and than people will respect you. But if you don't do it you are just a tool for the election campaign of Donald Dump. Just think about something like this before you make such a video kid. I have literally no respect for you. Downvote achieved.
