And some people are saying 'but it's just a kids book!'

Kids are easily influenced.

Those ideas are instantly rooted by that book, and this is how we get people that think one gender, one race, one anything is better than the other.

But boys have big dicks. Oh, girls don't have dicks? Exactly.

Stop acting like this is an actual kids book. It's pretty obviously shock humour for adults. I'm guessing that most people on this sub are ok with shock humour like saying women belong in the kitchen, so don't pretend like this is offensive.

I was reading some of the comments, and everyone's saying it was written by a male.

And I hate the guys who do that!

Just know that this means men are getting to them. Women do shit for attention and more and more men don't value women for more then sex(women's own fault), and that is scaring women nowadays

It's always "But what about the children" until it's just the boys that are victims of something.
