Who is booing you?

You are completely right. Interestingly most feminists think that feminism is about equality.

You would think it was only the extremist ones that would say that to try to cover the misandry they preach. But even the fairly tame feminists have been fooled by the rhetoric. I have had at least 5 separate discussions about feminism and equality in the last few weeks. No matter how many examples of men's rights that have been eroded and a lack of interest in fixing the issue by feminists these people still desperately hold onto "equality" in feminism.

I think a lot of them realise that if the world were to see the reality of how sexist feminism is they would lose a lot of their support. So they spin their misandry to be in the name of equal rights.

What is just a meme? The majority of feminists I have spoken to or debated with here and on YT DO claim that feminism is about equality.

I'm the same towards feminism though. I support men's rights as a lesbian woman, but don't like feminists
