I'm sorry but I don't see how this is a feminist thing...

1. We don't know that she did it in the name of feminisim.
2. She never claimed to be a victim after she cheated on him.
- 3.this is something that both male and female do , it's not exclusive to one gender , i was treated by a bf the same way she treated him. Although i may understand if you meant that feminist don't accept the fact that most girls cheat just as guys do.

I'm not saying what she did is right at all , it's completely shitty... But it does not belong here, it has nothing to do with feminisim. She's an asshole but we don't know if she's a femninazi asshole.

This isn't a feminist issue. Cheating isn't inherent to feminism and I see no other clues that would make this a feminist issue (no pussy passes, no double standards, she's not victimising herself or exercising any female privileges). This is just a shitty person who happens to be female.

He's not a simp bro. He is a blue piller beta though. He just doesn't know about female nature which most guys don't. He'll learn from experience
