noah967[S] • 2 points • 31 August, 2019 05:12 PM

I imagine they don't like the sexy female characters wearing sexy offensive and the big tits that's my guess.

Panzerkampfwagen212 • 2 points • 31 August, 2019 05:13 PM

And men with a small dong.

RICH_PENZOIL • -3 points • 31 August, 2019 04:40 AM

The wage gap does exist. Men do get paid more than women. But that's only if you ignore hours worked, overtime, sick days, and higher paid jobs due to being harder jobs.

Super-Chick • 1 point • 31 August, 2019 06:30 PM

They say gender wage gap as in women are paid 70 cents to a man's dollar. You know the buzz feed kind of feminism where the white man is seen as the devil and that the gender wage gap exist (it doesn't).

RICH_PENZOIL • 0 points • 1 September, 2019 03:33 AM

It's actually 77 cents to the dollar, which is true. They do get paid 77 cents on the dollar if you just take the average wage for all men and compare it to all women, and ignore things like hours worked, and overtime. Men work at least 23% harder, so of course they will earn at least 23% more.

Super-Chick • 1 point • 1 September, 2019 06:18 AM

I'm talking about them getting paid 77 cents to a dollar not because men work harder than them but because they're W o M e N. Which isn't true.

Edit: That means same job and same hours worked.
