This woman on the train occupying 4 seats. The train wasn't full and I understand when you put your bag on the next seat but this is next level sh*t

She might as well start decorating or do a quick vacuum cleaning while at it.

I think I see some plates next to the shoes, so she has already done some washing up for a stranger on the train, which was nice of her I must say.

I have no issue with women who do this. If I want the seat, and her stuff is on it, that's quite OK by me. I just sit on her stuff and watch her have a mental breakdown.

Though, some women are quick and will remove their stuff from the seat before my butt makes contact.

A manspreader at worst takes 1 and a half chairs. This bitch took four.
