Who would ever be surprised by this lol?

He is a radical feminist, and by that he thinks he is such an awesome advocate for women that women owe him something because he is just such a good "man" to women.

In his mind, he is the best "man" in the world to women, so obviously women owe him a lot because he has been the most important male leader of what women want.

Meanwhile everything he says and does makes women not like him what so ever.
