As a feminist I see this happening all the time (often not from feminists but women in general) and it makes me sick. Abuse isn't funny regardless of who the victim is. Men can be victims too and they need to be truly heard.

Welp maybe you should shed some more light on the fact that men get laughed at when they are victims of sexual assault and domestic abuse maybe then we will have equality

Hey man, this lady was agreeing with us and I thought he was being a dick, but it's good to have allies and not be a dick to everybody. Maybe you should be fucking tone policing yourself. I already apologized to him for it, but since you wanna be a special snowflake I'm gonna mouth off to you. This is why anti feminism goes nowhere. Little cunts like you like to be rude and disrespectful to everybody. I'm trying to survive this horrifying world with shitty people in it, people like you, who have no respect for women or other people's ideas. You want 4th wave feminism eradicated. Be a fucking decent person and have a decent debate. So you go and fuck off, because in reality, you're making the rest of us look stupid and like we're dicks.

I completely agree. I find that the more modern version of feminism is just too misadristic. So I come here. Most of the posts here I agree with, because they are also just against the worse parts of feminism, or disproving what feminists say. The trouble is the posts that are along the lines of "This guy disagrees with us. He's a cuck" or posts which just seem to be about hating women. They're as bad as the radical feminist posts, and have the same lack of self-awareness. They're few and far between, but each one makes me wonder if I'm in the wrong place.
