

Feminism is good

April 18, 2019 | 10 upvotes | by [ILOVHENTAI](#)

Feminism is good because it expose the corruption,hypocrisy and plain flith of women and society, in other words the truth so men can be careful and aware of the dangers that is lurking. So even though it's a bad phenomenon it can also be seen as good because it also acts as a form of highlights like poisonous insects. So stay safe brothers.
