I'm just gonna say have a good day

This is stupid.

While I agree with the sentiment, learn to spell and write at a high-school level before you start trying to influence anyone of anything - and maybe spend more than 5 seconds writing it.

You come across as arrogant, immature, and completely devoid of any actual reason why feminism is bad. This post is trash, and you're a dumbass for posting it.

Bro chill I can spell(your)and while at least I can admit that I'm actually immature you need to learn if something upsets you at least be passive aggressive. I'm suprised by how angry someone can get from one post and guessing by how quick you are to attack someone I pity you and hope you get to learn to take anything you find calmy

DestructoRama • 2 points • 15 November, 2018 10:56 PM

I'm not angry at all, you're just an idiot, and you accomplished absolutely nothing positive by posting this.

Not really sure what you were going for.

If it was to promote the idea that anti feminism is a well-founded stance to take, you failed miserably.

Unless of course you're just a troll posing as an anti fem/MRA and you did this to make us look bad.

But really man, think about what message that sends. No wonder this sub is dead.

I don't know who you are to talk but I never said I was a anti feminist, I'm only against the way women try to achieve equality (of course you would actually have to read the post to at least hint at that) and as for this Subreddit its not dead until more temper tantrums like yours swarm the place, I don't care that I failed miserably at least you could've left the post like this but no you just had to leave more salt on the internet for others

DestructoRama • 1 point • 15 November, 2018 11:06 PM

Lol and you didn't just leave a pile of salt yourself?

Feminism is a toxic ideology by and large, there are no more "rights" left for women to obtain that men don't have, rather it's privileges they seek over men in society.

[deleted] • 1 point • 15 November, 2018 11:11 PM

If telling someone stumbling around in the dark the truth then by all means I'm the saltiest person here, if you're drunk get off the internet if you aren't drunk then you are correct as there aren't much inequalities left but like the last comment I left I said that I don't approve of the way feminists try equality. Do you even read the last comments and put that in mind or do you just like to exercise your vocabulary?
