A feminist told me to come back to this sub after I carefully debunked all the shit she said. And explained that women get lighter jail sentences than men, and feminists are the ones who silence all opposing opinions and have examples like when Steve Shives and other tried to deplatform popular youtubers like Armored Skeptic and ShoeOnhead just so they wouldn't be able to talk. She apparently believed that everything I said was a hateful lie and called it bullshit. I would've told her that she just proved my point, but I know I was so close to being banned from that sub that I wasn't going to push it.
