No one told you not to attack back?

They say “Dont hit the girls”. Even if the girl hits first, they say “Dont hit the girls”.

Eff them. If a female hits me, i punch back. Full force. No holds barred.

She earned it.

Yeah, again... just because some people told you not to doesn't mean it was an order? and if a male hit me, I'll punch back as well? Full force. No holds barred.

He earned it.

Your problem is that “Dont hit the girls” is a cultural theme that is enforced. “Dont hit the boys” is never enforced. In fact, women who hit men are celebrated, not denigrated.

this reminds me of a story when i was younger. there was this bitch in school who constantly hit me and bullied me and i decided to leave her be and not really do much, because the teachers are all biased to some degree. i told my dad and he told me to defend myself. so that's what i did. she stopped bothering me. (luckily i managed to escape punishment; good for me)
