

How do I proceed?

2 upvotes | 18 December, 2018 | by SupremeBBC

So I matched with this 7/10 on Tinder, but I dig her body a lot (curvy, not BBW but just in between, and yes, there is direct correlation with my preference and username lol)

Now, she gave me her number and we texted a bit, but I believe I lost frame by being a bit too forward with my texts (not maintaining seduction mostly, being kinda beta in instances). She gave me her snapchat and we've communicated there, but I'm 27 and working on multiple business ventures; ain't nobody got time to snap one bitch that's sending out generic snaps to her friend's list captioned with shit like "what is one trait about me that you adore?" or "my makeup on fleek today"

Anyways, after a weekend of not really responding to her snaps she sends me a "why aren't you replying"?

Still wanna smash but not if it's gonna take much more effort than what I've already put in. Next, or grant a response?

Say you've been busy with work, setup a date for this weekend. Bring her back to your place, bend her over and plow that fat ass.

This was the approach I took. Didn't apologize for shit, said I've been occupied, proposed a date this weekend. She seems salty, but that's not my issue to care about lol. She either wants this dick or she doesn't

You did the right thing. No one has time for bs social media.

If she doesnt agree to meetup, i would next and not waste anymore time.

Set up a time and a place. You aren't going to seduce anyone over text.

MattyAnon's law of /askTRP:

"If the original post contains any reference to 'this girl', the diagnosis is oneitis."

Read the sidebar. Lift. Game other girls.

Sir Kolbath's statement on oneitis:

"If at any time you are focusing on *one* girl, you are by definition ignoring the remaining 3.66 *billion* girls."

You proceed by matching with ten other girls and fucking at least five of them.

I'm plating 3 chicks at the moment and she would be a fine addition to the rotation, but this is definitely a strong and positive reminder for me to not get fixated on the outcome of this interaction one bit.

Exactly. Focus on you, not them.

"I am bad at snap, text me instead".

Jesus fucking Christ...just, Jesus. Read the sidebar...

IDGAF, abundance and assumed attraction.

Stop texting her, before you become an orbiting validator.

A couple flirty, teasing texts, then logistics.

'Sorry, I'm way too busy to Snapchat. I suppose you wanna meet, and let me know you aren't cray cray. How's

*** at ****'

Cut the shit...
