Does he think that men are one big group that support each other and protect other men from any harm?

What a grade A moron. Of course any group can be abused by any other group. In this situation it is not about groups at all. It is about an individual abusing another individual.

Besides women have been the dominant sex for 20 years at least. They just refuse to admit it or it might mean the world stops giving in to every whinge and cry they make.

That's kind of saying a small kid can't bully a big kid.

Can confirm. This is the fundamental premise of 3rd-wave feminism: All of society's ills are blamed on patriarchy, because society was founded on patriarchal values. So male disposability = Patriarchy. Higher suicide rates = patriarchy. The pussypass = patriarchy (chivalry). Gold diggers = patriarchy. Literally every single thing is the result of patriarchy, because we've (supposedly) NEVER seen a non-patriarchal society. Ofcourse, women are fully entitled to take advantage of chivalry at any time, and justified in demanding it, because why? ***Reparations for Patriarchy.***

It really is that simple to these people. A catch-all, knee-jerk response, used as a bludgeon to shut down any discourse and declare their opponent an (insert word)-phobe, and unworthy of listening too. It's an entirely circular reasoning, with no tolerance for questioning, or capability for self-reflection.

Fundamentalism at it's finest.
