

Woman against feminism

I used to call myself a feminist, because I only knew the “good side”. The side that just wants equality. 100% equal. Equal pay for equal work, equal punishments, equal fights.

It didn't take long for me to realize that other women are ruining what I wanted to achieve.

A part of me is sad that I have to come to an anti sub, run by the men I've been trained to hate.

I genuinely feel bad for my past of “I hate men cuz this one group”. And if the roles were reversed, and a man said “I hate all women because this one girl” they're called incels and losers and disgusting for generalizing.

We all have problems, no matter our gender. Everything is hard for everyone alive, all the time. I wish we could have true equality, and enough understanding and respect for each other.

Sorry if rants aren't allowed, I'll remove it if it's not.

Are you for real? Because this is exactly what we want to hear.

I'm not trying to be mean but when the Nigerian prince offers me millions, I'm skeptical.

This didn't a sub against feminism, it's a sub for recognising the bad parts of feminism, but bey good that you've realised how wrong feminism can be today.
