Just wanna say this is pretty fucking stupid, I take the busiest subway line in manhattan to work every day and people get along just fine.

People mindful of manspreading are totally fine with you spreading your legs as long as you don't take up like one and a half seats. Be a decent person and leave room for someone to sit next to you and nobody will care.

exactly, and that's what most men do but you know, feminists be feminists

I think he was saying that "nobody" cares. Not everyone except feminists care. You act like every single feminist in the world wants to steal your lunch money. All people are not the same. You think we'd understand that by now in the 21st century. Just like you probably aren't the general entitled white male douchebag some feminists seem to claim all men are like, all feminists are not some crazy Karen with a stick up their twat. In fact, very very few of them are. Just the loudest ones, which is probably why you seem to group them all as one. It's rude and divisive

You're right, i shouldn't have assumed that every feminist is a Karen. Sorry!

All good, I just see mass generalizations on Reddit a lot and it hurts my soul every time
