How some men tirelessly search for Situations just to say "Not All Men".

[p0kemina](#):

I'm going to make a youtube video entitled

*"Shit **ALL** men say"*

and it will consist only of the phrase "But not all men say that~!!"

And then I'll wait for men to stare at their keyboards in utter distress as they contemplate the paradox of their intense desire and desperation to inform me that not all men say that.

**I will break them.**
