

# Wheres Reddit gone..

Hello all,

I was a big reddit user many many years ago, maybe 10 or 15 years or so, I have not long rejoined after a long break, To my surprise there seems to be quite an increase in Feminist toxic crap floating around on the popular feed, within days of rejoining my Karma was in the negative off the bat, for posting anti feminist sentiment and already been banned from channels. Is it just me or are Feminists over running this place as well.

Truth be told, I gave up the other social medias because of feminists crap, and I looked to reddit as the good old safe haven, but I think this has the smell of feminists crap over it too.

Feminists have too much power over social media. It makes them seem bigger than they truly are, and somehow makes companies bow down to them

Funderwoodsxbox • 13 points • 19 May, 2020 01:24 PM

Yeah, the problem is there's extreme actors on both sides but the legit misogynists have to (rightly) hide on the bowels of the web while the feminists that openly hate men are verified accounts, show runners, directors, journalists, and "respected" community leaders. It's fuckin shocking how much open hatred there is for men, white people, Americans, straight people on Twitter. Not only is it acceptable, it's basically encouraged.

You're fine on this sub and all the other mens rights subs except r/menslib. Do not go there.

emir0052[S] • 18 points • 19 May, 2020 09:04 AM\*

whats mens lib, a Mangina channel?

Jakeybaby125 • 51 points • 19 May, 2020 09:06 AM

No idea what the mangina channel but r/menslib is basically a sub run by feminists that feigns caring for men but it just feeds into the feminist narrative and paints men as the perpetrators and women as the victims. It's filled to the brim with simps, white knights and male feminists.

DeDeviIsLettuce • 23 points • 19 May, 2020 10:48 AM

Went there, read two posts, figured out for myself what was going on over there, left, up voted your comment

Jakeybaby125 • 15 points • 19 May, 2020 10:49 AM

Yep. Feminists say it's for men but all they really do is shame men for being men over there and the men are ashamed of being men.

Jakeybaby125 • 10 points • 19 May, 2020 10:51 AM

OK I just went over there myself and I don't want to go back. They were talking about Title IX regulations being concerning despite them reintroducing due process and they also went on about listening to *shudder* feminist podcasts.

itsalexcl • 26 points • 19 May, 2020 08:15 AM

As long as you are here, you are safe.

ongkateng • 10 points • 19 May, 2020 10:59 AM

I imagine this like those safe rooms in Resident Evil games. Heh.

Omar-Elsayed • 3 points • 19 May, 2020 06:47 PM\*

There is no feminism in Ba Sing Se. Here we are safe. Here we are free.

Xsailrx • 19 points • 19 May, 2020 10:01 AM

Apparently, social media accepts the bullshit of feminists

RockmanXX • 14 points • 19 May, 2020 11:09 AM\*

I was a big reddit user many many years ago, may 10 or 15 years or so,

10 years ago, Internet was free of Feminist propaganda. IDK WTF happened during 2009-2010 but a huge wave of craziness got unleashed and here we are.

EDIT:I just found out that r/feminism was created exactly in 2009, conspiracy theory time?

Mandalina88 • 10 points • 19 May, 2020 09:44 AM\*

The longer feminists are on social media, the stronger they will become

Yeah, it was a quote from doom eternal. Original was "the longer icon of sin is on earth, the stronger it will become" so...

This. Feminism has pretty much jumped the shark.

Voting rights for women (no matter how ill advised) is a difficult thing to oppose in the individualist West.

Mansplaining, manspreading, free-the-nipple, slutwalks and similar nonsense find much less support in the populace.

Affirmative action quotas, biased family court, believe all women, and other outright anti-male discrimination meet with even less support (sometimes even among women whose relatives are affected.)

A majority of men probably agree that feminism is cancer; they are just not willing to make an issue out of it, for fear of consequences imposed by a shrill minority.

Nobodyinc1 • 2 points • 19 May, 2020 09:20 PM

Can I be honest. There is a surprising amount of sane feminist in the world. But you know because they are sane they don't feel the need to scream they are feminist for validation.

A lot of the crazy you see is really people with mental illness or no self esteem screaming and yelling for validation. And the normal self respecting females who believe in equal rights avoid crazy the same way guys do making this screaming mad people feed off each other and deepen their own issues. In the end the extreme anti men feminist are just sad and pitiful to the core of their being. Just like any other crazy extremist group be it Nazi o antifa

User-31f64a4e • 0 points • 21 May, 2020 01:42 AM

There is a surprising amount of sane feminist

No.

All feminists are insane, and all feminism is cancer.

**Women are not men.** Women will never be men, because biology. "Social conditioning" is only a small factor, compared to instinct and temperament (which is btw mostly genetic).

Consequently, each should be treated in a different manner. Justly, humanely, compassionately - but not identically.

I self respecting females who believe in equal rights

They don't. They believe in equal outcomes, in spite of different temperaments, abilities, inclinations, instincts and cultures. It's insane. Feminism came in 3 waves:

First wave (suffragettes) wanted male privileges (the vote) without male responsibility (fire brigades, military conscription, etc.)

Second wave (women's lib) was about eliminating women's responsibilities - birth control, abortion, affirmative action to remove the need to compete, etc.

Third wave feminism is about imposing more responsibilities on men - he for she, no due process for accused males, etc.

Nothing to do with equality. Everything to do with women's pecuniary class interest. Anyone who supports feminism is either ignorant, brainwashed and deluded; or selfish and dishonest.

This mean that "Doom : Patriarchy" is also cannon

Mandalina88 • 3 points • 19 May, 2020 01:29 PM

Can someone make a mod for doom eternal that we can kill feminists brutally?

Mister0Cat • 2 points • 19 May, 2020 01:58 PM

I haven't been on reddit for that long so I'm not sure how good it used to be. But I gotta say right now it's pretty close to impossible to critique any woman in anything. No matter what words you use, you're going to get shit.

I've seen other women say that it's cool to write or draw whatever you want in super positive ways with no nasty insults or anything you could interpret as mean and they still get downvoted to hell and told that they have internalized misogyny or some shit.

JZSquared • 3 points • 19 May, 2020 02:39 PM

I've had to whittle down the number of subreddits I've been subscribed to over the years. Even places I thought were safe, aren't anymore. Feminists and their indoctrination has seeped into almost every facet of Reddit. I'm sure there will come a day when the few remaining subs I enjoy will go under and I'll be forced to leave Reddit for good. Luckily there are alternatives, I just don't know how good they are. I'm assuming that some of the more mainstream subs that I enjoy, that don't deal with politics, wouldn't move over to the alternatives, so I would be missing out. It's the same reason I haven't moved on to BitChute completely. There are just creators who will never leave YouTube, no matter how bad it gets.

If I had to draw broad strokes, I'd say being a liberal in the 90s was about sexcapades and moral relativity, in the 00s it was about anti christianity/atheism and civil liberties, and in the 10s the whole game board got flipped and the liberals went over to the dark side of neomarxist authoritarian postmodernism. Being an actual liberal now means being egalitarian anti feminist and probably Republican tbh. The Christians are now the relatively open minded and persecuted ones. Go figure.

notWhatIsTheEnd • 1 point • 19 May, 2020 11:45 PM

Wow, that was concise and extremely accurate.

mesaboogeytool • 2 points • 19 May, 2020 03:00 PM

Our governments require 50/50 division over everything and anything. That's how you stay in power and make money. Look at almost any hot subject and you'll see a general 50/50 divide.

Thanks for all the replies, I suppose no where is safe from the witches these days. some idiot made a simple to use computer, called it an iphone and gave it to women, now we have to live with the consequences of it.

On a positive note, Atleast Reddit still has lots of cheesy news, gaming and porn..
