If you could stop time for 10 seconds, with a cooldown of 15 seconds, what would you do in timestep?

Ahh, I was waiting for the inevitable sexual assault "jokes."

ETA: And people claim Reddit doesn't have a problem with women...

You assume I don't have consent?

If you're stopping time to do it, you absolutely don't.

I can imagine once or 100th times. In school i thought about taking my teachers shirt and bra off and then su*** and fu*** while i was in the toilet fapping. I was a little school boy then who wasted learning with fapping about my mature teachers.

Anyway, todays boys are getting hardcore material on their smartphone about milfs. Pornaddiction will be very real and very hard to cure in the next generation.

I mean i heard my teachers high heels from afar, and my penis was quivering. First thing i did was raising my hand and said : "can i please go to toilet room".

When will these so called “pink pillers” realize that everybody is laughing at them? They are taking jokes so incredibly seriously that it would be funny if it weren’t sad. From the reactions in the comments, you’d think that somebody actually stopped time itself to sexually harass women.
