Really sad news. The motives are unknown as of yet, not been released

"Marc was an unbelievably generous man, living on a shoestring... so he could donate many \$millions of his time to mostly voluntary legal work on behalf of men's rights and the genuine gender equality that is so badly needed"

Marc compiled a truly legendary set of legal achievements, including recently winning an equal protection case against the Selective Service Administration overturning male-only draft registration. In 2008 Marc won a landmark appellate case against the State of California (Woods v. Horton) which held it is unconstitutional to exclude male victims of domestic violence from state funding for victim services. Marc also helped draft and enact legislation to stop paternity fraud, served on the California DCSS Paternity Committee, served on the Training Committee of the L.A. County Domestic Violence Council, and testified before the California Senate and Assembly Judiciary Committees. In a remarkable tribute to Marc's skill at building bridges and remedying discrimination, the Southern Poverty Law Center, which some might think would be opposed to much of his work, invited him to be an Honoree on their Wall of Tolerance.
