## Where do meet girl?

August 7, 2020 | 1 upvotes | by empatheticapathetic

It's time to start meeting girls. I've stewed in an apathetic spew for too long and become pessimistic and bitter about life trying to accept the fact i don't need any female interaction and it's fucking me up.

Been on all the dating apps. Zero matches, zero responses. Changed sims, done all the tricks.

I'm pretty fit. Got a job, hobbies, friends, all that bullshit. I have zero free time for anything that has no productive utilisation.

Something about me turns people, mainly women, off. I don't know what it is; i've spent my life trying to figure out what it is, stopped caring, then ran back into the same problem in a continuous loop.

Where do people actually meet girls and start shit moving? The only option in my mind right now is a nearly 40 socially retarded women i used to work with years ago.

Your pictures are probably trash on online dating. Go out, take nice quality photos, and keep your bio short and to the point. No emoji bullshit

I can't imagine how much better my pictures could be tbh. Bio is 1 line and sorta sexual.

Post your profile pics and bio here and we can critique it for you if you want (in a constructive way - not a trolling way).... many guys don't actually realize how shitty their dating profile is compared to what is out there

Can you give an example of daygame that you have done?

I talked to a girl in the supermarket, just commented on what was in her cart, complimented her taste in tagliatelle. And took it from there.

Cool, i'll keep an eye out for opportunities like that. Do you have any other examples of daygame you've tried? Struggling for ideas.

I don't think I can pull this off or know where to. Had bad experiences with it in the past. Kinda need some plausible deniability to open people. Supermarket was a good one.

just stumbled on this post. you want to know what supposedly turns women off about you? this:

Something about me turns people, mainly women, off. I don't know what it is; i've spent my life trying to figure out what it is, stopped caring, then ran back into the same problem in a continuous loop.

i'm about to be harsh but it's for your benefit. your question implies that you think you're \*entitled \*to pussy. just by existing, you do not deserve girls. by showing this insecurity of entitlement, it actually is evidence to why you're not getting girls to respond well. what do you offer them? do you make them laugh? are you fit? are you a social butterfly? it's gotta be something.

you're being your own worst enemy. you are not unique or special with your problems, this is actually good for you. now, you just take it stupid simple on relations with women. my guess is that you're not offering enough in the situation and hiding behind "being alpha". you'll figure it out if you kill your fuckin ego (quite the annoyance Ego can be, huh), swallow your pride, and enjoy interacting with other human beings.

I don't think I'm entitled to shit. I have a personality that at this point wins dudes over fairly quickly but really doesn't work for women.

Is the solution to be a dancing monkey for women? Because that hasn't ever really been a successful strategy for me. They tend to show more disrespect. At least if I'm just me they aren't so quick to disrespect but they just don't really have any interest.

look, this might be hard to swallow and for myself it was even harder to accept this than the original "red pill". you win dudes over quickly because we don't really give a fuck about our friends' societal placing. "oh, you like beer? me too, let's be friends!"

women on the other hand care much more about societal placing/value. there isn't some mystery thing you're doing that is turning them off. the reason it seems to be a mystery is because you're ego-protecting yourself from reality. so, whats the solution? increase your value. lift, get a bold haircut, make inappropriate jokes, do stuff that would them say "wow this guy is fun".

the dancing monkey argument you make is a dangerous one, especially given that you aren't experiencing the success you want with women. that's just a rationalization to prevent yourself from putting yourself out there and doing something worth a damn. would you rather be too cool for school and get no pussy or put some effort and get pussy?

The majority of women hate jokes coming from me. I'm funny as hell, probably the thing I'm most confident about myself. Most women have no interest, they just get 'offended'.

I don't care about status at all or playing the status game so i agree that's likely a major factor.

I'm much happier not being a dancing monkey even if I get no pussy. It has never ever worked out for me anyway so it's not really an issue.

Looking at your original comment you say I'm not offering enough and hiding behind my ego. What is the solution? If it's just taking part in the status game and being the dancing monkey then honestly I couldn't give a fuck. There's enough to enjoy in life without it.

Thanks for your input.
