So where is all the Hollywood uproar over Jim Carey facing untrue charges by a women? I guess it's gonna be ignored like society does with other men's issues like single fathers who deal with deadbeat moms? Why can't it just be ok to be on the truthful persons side no matter if they are male or female? We can not keep assuming men can just take this & that they are tough because they can suffer from extreme stress in silence too. We need to start standing up for the right side - for those who are really trying hard to do the right thing. I feel bad for JC - I just don't see how he could have tried any harder to make her happy even knowing it wasn't his fault. I hope the next relationship he has is a good strong & honest 1 by someone who loves him for him. It seems he deserves that! I wish him all the luck in Love in the future! (source)
