A man and a woman are lying in bed, covered by a white sheet. They are both looking directly at the camera with serious, contemplative expressions. The woman is on the left, and the man is on the right. The lighting is soft, and the background is slightly blurred, focusing attention on the couple.

Nymphomaniacs? LOL!

Women wish in their mind that their libido was as strong as a man's.

It's not.

redt_time • 28 points • 8 April, 2021 06:20 AM

This. They just pretend. Women are actors by nature.

Tailback • 15 points • 8 April, 2021 06:58 AM

Agree. They put up a good front when trying to lock a man down.

evergreen35 • 14 points • 8 April, 2021 11:45 AM

Women are delusional about their own sex drive and they think that they are better in bed than they actually are.

15% of women have difficulty reaching orgasm, and 10% have never had an orgasm during sex, according to a survey from Planned Parenthood.

There's a Decline in Frequency After the Wedding... Twenty-four percent of respondents said they had sex four or more times a week before marriage, but only 9 percent have sex so frequently after marriage.

crew6dawg0 • 18 points • 8 April, 2021 12:11 PM

Women act like it's men's fault that they can't orgasm, when the real problem is their dog shit self esteem. When you have to apply 2 gallons of face paint, wear fake nails and eyelashes, and use a waist trainer, it shouldn't be fucking surprising you can't reach orgasm as you're staring at the blubber of a stomach you have. That or they vibrated their clit to death and need a jack hammer to feel anything.

MrA_H0Ie • 9 points • 8 April, 2021 01:59 PM

If they already stretched out their Mariana Trench with Godzilla-sized massive toys, that makes it difficult to feel anything from real sex.

khaineisthar • 22 points • 8 April, 2021 02:17 AM

Double standard is norm.

The Only Meaningful standard is that one you use to measure yourself.

Not that one you project on your unicorns.

Not this one the others project on you.

What ancient men shame on Man as hypocrites is the low standard on himself and high standard on the others.

But

Men that "live on his own standard" should be called MGTOWs now.

HandsomeJack44 • 6 points • 8 April, 2021 06:07 AM

They wouldn't have standards at all if they didn't have double standards

Ody_ssey • 20 points • 8 April, 2021 05:51 AM

Rape and sexual harrassment are subjective for women.

Cosmopolitan is porn for women.

escobari • 3 points • 8 April, 2021 01:32 PM

Hypocrites? No they just lack any morality, and will just justify everything good or bad whether it's beneficial to them or not.

pkarlmann • 2 points • 8 April, 2021 01:28 PM

... and now they call it Gender Studies and "study" it at the University - and then come up with "Pay my Student debt for my bs" while actively destroying Universities with "Microaggressions" against free speech and freedom of science.

Destruction is all they are able to do.

The ones that peruse their time doing arts have a much better chance to be proper ladies, but they are a very strict minority, I am sure they are also fish out of water in this world.

Corollary: the ones that just do horny pin-ups (like that cheater that photobash her works, Hackimichan, terrible anatomy and washed-out facial features) are excluded, they shame the arts I love (I also did like 2-3 sexy artworks but out of like 30 dignified ones).

If a woman gave it to you, then where would she be? Powerless, that's where. Simps are gonna simp. There are billions of Simps, who simp so why should women change? In today's society there is no reason to marry except to raise children, but that is only a portion of a man's life, twenty years or so if that. Before and after it would be so much more efficient to move on, both men and women. When men are young for instance they should be with an older woman because she is experienced and she could teach him, during child rearing years, men and women should be roughly the same age, and after the children are raised, then the men should be with the young women. That is at least three different periods in a man's life. I prefer to associate with mostly men and do things that men like. I am not opposed to women who participate in the same things (like competitive shooting), or sailing, or aviation etc., but they should not play tennis or golf with a man or men. If women can compete then I say let

in the game, if not then why?

MrA_H0Ie • 1 point • 15 April, 2021 06:59 PM

The long term logistics of that doesn't work. If older men are with younger women and young men with older women, then the birth rate dies off and the crime rate climbs because women ride the CC until they hit the wall, become single mums and then have trouble both to conceive and to find a moron who pays full retail for the used up wreck of their "goods" and accepts to take care of their bastard kids. If a society lets hypergamy loose, they collapse in a few generations.

Honestly, I don't mind double standards because men and women are different. You win some you lose some

Ody_ssey • 11 points • 8 April, 2021 05:55 AM

So you agree women have subjective view on rape and they continue to keep it decriminalized for women?

KingMysoFutureHdx • -11 points • 8 April, 2021 05:56 AM

That's not a double standard, that's called being dishonest(as many women are by nature)And plus, women barely rape men let's get that out of the way. A man being raped is statistically more likely to be raped by another man

Ody_ssey • 8 points • 8 April, 2021 06:10 AM

Women rape men at almost equal rate but they protested to have their gender excluded from its definition. That shows they support rape on men.

KingMysoFutureHdx • 0 points • 8 April, 2021 06:13 AM

I'm going to have to rethink my position here... do you have other sources

Ody_ssey • 5 points • 8 April, 2021 08:31 AM*

You mean the source that you can dismiss? or a source that can prove that you have been lied to your entire life which is what we already say here.

Here's another source: The definition of rape is gendered in most countries so women raping men or boys is not counted as rape in statistics. This is why you see 99% rape is done by men. Women in Israel literally protested to have their gender excluded from rape.

You can verify its definition.

maine_kewn • 1 point • 9 April, 2021 02:27 AM

Let's not forget the frequency and perception buff women in positions of trust enjoy when raping younger males; often in positions of trust, care, and or power.

I began typing with schoolchildren in mind, but one must wonder about other plausible scenarios as well.
