What men want from a woman:

- >Fuck once in a while and be decent at it
- >Don't be dramatic and psychotic
- >Don't spend all my money
- >Don't get fat

What women want from a man:

- >Fit, but not shallow
 - >Fashionable, but not vain
 - >Confident, but not arrogant
 - >Spontaneous, but not reckless
 - >Responsible, but not boring
 - >Witty, but not nerdy
 - >Charming, but not creepy
 - >Sociable, but not overly outgoing
 - >Athletic, but not TOO athletic
 - >Rich, but not a workaholic
 - >Funny, but not immature
 - >Mature, but not bland
 - >Dominate, but not authoritative
 - >Masculine, but not "macho"
 - >Good with kids, but not have any
 - >Romantic, but not sappy
 - >Agreeable, but not spineless
 - >Protective, but not jealous
 - >Dependable, but not predictable
 - >Ambitious, but down to Earth
 - >Independent, but not antisocial
 - >Optimistic, but not naive
 - >Moral, but not judgmental
 - >Generous, but not prodigal
 - >Hairless body, but not bald headed
- etc etc etc ad infinitum

What I want from a woman. Nothing nothing at all.

I want women away from me.

Another expectation of us men that have some integrity is for the women to be good at something useful or creative and not just trophies, I guess the same would be for the good women around there, looking for engagements that are not just wallets.

Gents, it is time that we ask for more...

It's time we stop asking we don't want any

Don't ask for anything. Don't accept anything less than what you want.

This couldn't be more true.

woman don't have any idea what they want. Confusing and contradicting.

be supportive and submissive are the most important, no man needs a woman who is challenging him and his status.

She wants the man to be rich, lucky, genetically superior, and responsible, but also as dumb as possible so she can

take all of those things away from him.
